No noise will nobody bagout

This is the most disorganized meeting. This mtg. is very important to our community and nobody can hear or understand any of the stations.

Construction of overpass or open canal is poor.

Open canal will require too many bridge and/or sub structure to connect communities with SW 10<sup>th</sup>. More construction of side entrance to closed areas would increase cost and confusion to local residents and visitors.

A closed tunnel would be best solution but require most effort for all concerned. A Fly-over would create too many dead zones while producing the least traffic cross - community problems for residents

BEST APPROACH IS TO BUILD A TUNNEL  
FROM THE SAWGRASS TO I95. THIS WOULD  
DOUBLE TRAFFIC THROUGHPUT SINCE THE UPPER  
ROADWAY WOULD STILL BE USEABLE.  
HOWEVER, NO SOLUTION WOULD WORK  
UNLESS THE INTERCHANGES AT THE  
ENDPOINTS WERE FIXED TO PREVENT  
TRAFFIC JAMS. THAT MUST BE  
FIXED FIRST.  
ALSO, NORTH/SOUTH ACCESS ROADS  
MUST BE RETAINED I.E. SW 28<sup>TH</sup> AVE ETC.

Waterford home for 36 years.

I see the majority of 10<sup>th</sup> St. revision recommendations would greatly benefit populations living in Coral Springs, Parkland, Coconut Creek and West Boca by providing streamlined services from Sawgrass to I-95.

My concern ~ What about Waterford Home-owners? (1) Many of us rely on access to 10<sup>th</sup> St. to Sawgrass and to I-95 on a daily basis (mostly 2 income families living here!) (2) Value of our homes will decrease by majority of these "visions" which eliminate our access to these roads from our community. (3) Why should we sacrifice for the greater good of communities out West? I remember when "Sawgrass Expressway" was labeled, "the road to nowhere!"

Thank you for holding this meeting at the library today. I feel it was very informative & the MPO volunteers were very friendly & knowledgeable.

However, I feel this was a showcase to the residents of "pick your poison". Here are the options available to you for absurd amounts of taxpayer/federal funds & you will learn to accept it.

Commuter traffic is a part of life in S. FL. If they don't like it, go earlier or later to work. Or quit & get a local job. This is not our problem.

Thankyou.  
 Jessica

This project is unwelcomed. It does not matter which way they try to spin this project. The city of Boca Raton refused this project years ago. So now they are trying it in our community. I bought my home in Deerfield because of the convenience I have to get to work. For those residents in Parkland & Coral Springs they chose to live out there. Why should the residents of Deerfield be inconvenienced, lose home value, deal w/ smog, noise, to help out Parkland and Coral Springs residents. IF they do not like their commute they should either move, get a new job or inconvenience themselves and leave for work early. This project will only hurt the residents and business owners of Deerfield Beach. The city of Deerfield will become the armpit of South Florida similar to many parts of Miami.

WE DO NOT Want this !!

- This was so chaotic & unorganized.

- I did not see any "factual" goals, such as expected LOS.

- I did not find this helpful at all.

- Need more "defined" goals, not a pie in sky wish list.

My city will be dramatically hurt by this.

What about a conversation or other inputs?

Opposed to these projects -  
Will decrease our property values for years!

Year of construction + noise for local residents + convenience of some travel at certain hours at the expense of the local communities - 24/7 hrs.

No discussions today about the proposals so our concerns could be heard. No questions or answers or proposals  
No presentation about costs + years of construction  
People from outside the community enter their demands on us.  
At 95 will there be more Janice.

Options about alternatives - Timing of lights + widening of road

Broward MPO is a transportation policy-making board responsible for transportation planning and funding allocation in Broward County. The Broward MPO works with the public, planning organizations, government agencies, elected officials, and community groups to develop transportation plans. I feel rush hour is the main concern & that ~~pro~~ adding lanes to S.W. 10th Street and synchronizing traffic lights would suffice. Since the military trail traffic light ~~is~~ is in close proximity to I95 - some ~~type~~ <sup>type</sup> of elimination (underpass?) of this intersection could help.

with regards to widening 10th street perhaps adding lanes, like on 595 which switch directions during rush hour, corresponding with the traffic pattern, would decrease use of precious land.

I love my neighborhood of 37 years & would love to see the ~~at~~ least intrusive change possible

Telephone: \_\_\_\_\_

Representing:  Homeowner Association  Business  Other Resident - Waterford

- Noise reduction a must! Barrier wall like I95  
- I believe creating a freeway between I95 &  
- Sawgrass a must! However - needs limited  
access service road for adjacent  
communities only! to reduce additional <sup>neighborhood</sup> traffic  
- Military Trail entrance @ SW 15 St  
will need a traffic light ←

- Synchronized lights would help  
- It would also be ok with me to eliminate  
SW 28 Ave entrance to SW 10 St however

Change is eminent however less impact of  
local residents needs to be considered
