Living as close to SW 10th as I do I use 10th St every morning and do not see the need to plan construction at this time. Actually there is sufficient space to add 2 lanes on south side of 10th, more median and we would lose at least 1 lane added on each side.

Bought my condo for over \$100,000. just before hurricane Wilma and after the value drop so so much. I am 69 years old and low income and now if you go on with your project my condo will be almost impossible to sell. Who is protecting the seniors. Government seem to help many many of those who are to lazy to work all there life and come here to abuse our system and who is helping us. It is very scary getting older. I would not want if you are building a tunnel and please do so.

We live in Century Village - We are a self contained community. We have sidewalks and bike trails - They mostly are setised and avoid commuter traffic. We travel 10th St. often and do not have a problem with 10th St. as it exists. In my opinion no matter what you propose there will still be noise. Most major roads such as Hillsboro - Powerline, Military etc will always have commuter backup. That inconvenience could be overwhelming for us. What we don't need is more taxes. If this goes through would the funding be available without new taxes or assessments to the homeowners?

Century Village is a self sustaining community. We have walkways, bike trails. We stay away from 10th Street @ 9am + 5pm. We see no need for noise walls, berms, sidewalks, there will always be traffic cars rush hour. We do not want bulldozers, dirt, more noise than we already have. We don't need overpasses, tunnels, and increased taxes.

I do not like this type of meeting. Please have others forum style, where we can go to a microphone + voice our opinions!

Would there be an assessment on us @ Century Village if construction is done

The fact that in 2016 we even have to discuss this is ridiculous!!
 * Extend the Sawgrass to I-95 and join the western suburbs to the east part of the county.

Build sound wall near the condos to help existing residents if that will help, but GET IT DONE!!

It's about time this is completed. It will now be more expensive than if it had been done at the original construction of the Sawgrass.

That more can be said. Newer residents of the condos need to step aside and let this happen. If they didn't like highways they shouldn't have purchased near a highway and then block

Progress

The need for an expressway from
Sawgrass to I95 is a ~~very~~ important
need for both residents & businesses.
~~OK~~ This is a need to factor in
the effect of the construction
and completion on local residents
Everyone must compromise but
this project must be completed.

① No mention of studying potential air quality or water quality impacts during (a) construction or (b) operation. ② Impacts to Quiet Waters Park.

I first contacted the MPO in Jan. 2015 trying to get on Citizens Advisory Comm. I have 25 years experience, working for Parsons Brinckerhoff, managing environmental impact studies for major transportation projects around the country. I am a resident of Independence Bay. It is extremely important that I be involved in reviewing future studies for the SW 10th St. corridor. I am extremely experienced, knowledgeable and highly motivated to be involved.

PLEASE CONTACT ME so I can be more actively involved.

This should have included a presentation by the MPO on the status, and proposed future steps for community involvement.

We believe that the construction of your project will be a hassle for many seniors living across the 10th Street Highway, in Century Village. Our apartment's Florida Room is facing the highway so it

Our apartment value will certainly decrease because of more dust, more noise and a lack of sun as a result of your project.

I have lived in Waterford Homes at Crystal Heights for 30 years. I have been an active top producer real estate agent for 37 years. I am getting calls from homeowners who are ready to sell. This will affect the value of homes in the area and lower the values!

THIS MEETING WAS A FARCE! AREA WAS SO LOUD THAT I COULD NOT HEAR DISCUSSIONS. MATERIAL PRESENTED WANTED PEOPLE TO PUT THEIR STAMP OF APPROVAL ON BASIC ITEMS WHILE NOT PRESENTING THE OPTIONS OF THE ROAD DESIGN ITSELF.

THE REAL PROBLEM THAT NEEDS TO BE RESOLVED IS ACCESS ENTERING + EXITING I-95. THIS IS WHERE THE MAJOR HOLD-UP IS. ADDRESS THAT ISSUE AND S.W. 10 ST. WILL BE AN EASIER SOLUTION SYNCHRONIZE LIGHTS, POSSIBLY WIDEN ROAD - FIX I-95 ACCESS FIRST + THEN SEE WHAT IS NEEDED ON 10th ST. YOU ARE GOING ABOUT THIS ASS BACKWARDS.

~~On~~ On behalf of the Coral Springs Chamber of Commerce
~~the area~~ it is imperative that the Sawgrass extends
to I 95. In order for our community to strive &
succeed we must have easier access from west to
east. There are many businesses that have employees
that have to travel that area to get to work, as
well as residents that need to ~~get~~ commute east
~~of~~ to work. We need to be able to
have connectivity to the eastern part of the
county to have a through business ~~or~~ ~~of~~
residential community in Coral Springs, Parkland,
& Coconut Creek!!

This road improvement is a must. traffic on SW 10th Street is bad all year during commuter hours, travel time for this 2.4 mile stretch can add 10 to 15 more min to travel time and added time on all cross roads do to traffic lights. I now avoid any travel on this road its time to make improvements. all people of coral village are part time residents for the most part and do not endure this traffic issue year round.

Before determining the physical configuration of a "10 st" expressway, I believe several other issues need to be explored. They include:

- 1) What will the I-95/10th Street interchange configuration look like? Ex. High Speed ramps, signalized, number of lanes etc.
- 2) What will the section of 10th St look like between west of Military Trail to the I-95 interchange
- 3) What will be the impact of the FL Turnpike improvements have on 10th St.?
Specifically, widening of the Turnpike from the Sawgrass Xway to Blades Rd and the addition of a new interchange at Palmetto Park Rd.
Will Sawgrass traffic be encouraged to use these new sections to access I-95?
- 4) What is causing the current traffic issues on 10th St. (i.e. - are the existing traffic signals being poorly maintained)

The tunnel to connect Sawgrass to I-95 is the best idea to please all municipalities affected by it.

Whatever final concept is recommended to improve + improve traffic flow to get to 95 from Sawgrass, just make it happen this time.

A lot of money has been wasted in the past trying to accomplish this project.
