

DESCRIPTION

Bundle B is located in the northeast portion of Broward County and within the City of Pompano Beach. The future land use is primarily commerce with residential and a few community areas. There are a handful of schools, libraries, and parks which helps communities become more attractive for residents and visitors to work, live, and play. The City of Pompano Beach amended the Broward County Comprehensive Plan at the intersection of MLK Blvd and Dixie Hwy as Downtown Pompano Transited Oriented Corridor (DPTOC). This was due to the future passenger rail system along the FEC corridor, which will provide improved transit service to the area. Twelve proposed projects were identified within Bundle B.
