## **PLAN OVERVIEW AND HISTORY**

The Transportation Disadvantaged Service Plan (TDSP) annual update is coordinated between the Broward Metropolitan Planning Organization (MPO), Community Transportation Coordinator (CTC), and Florida Department of Transportation (FDOT) with guidance and approval of the Local Coordinating Board (LCB). This collaboration facilitates delivery of transportation services to persons in Broward County, Florida who are transportation disadvantaged.

The Broward County Board of County Commissioners was officially designated as CTC of the Broward County service area on August 15, 1990, pursuant to Chapter 427, Florida Statutes (FS). In its role as CTC, the Board of County Commissioners has expanded access to transportation disadvantaged (TD) services by means of added programs and service capability. CTC reports performance information and service updates to the LCB at each meeting. The Florida Commission for the Transportation Disadvantaged (CTD) created LCBs to enhance local participation in the planning and delivery of coordinated transportation services.

This TDSP update, required by the CTD, contains a development, service, quality assurance, and cost/revenue allocation and rate structure justification components. The TDSP operates in accordance with legislative requirements of Rule 41-2, Florida Administrative Code (FAC), in conformance with the CTD's "Coordinated Transportation Contracting Instructions" dated June 1996 and incorporates TDSP criteria provided by the CTD.

## **I. DEVELOPMENT PLAN**

This component of the TDSP identifies the long term goals and objectives for the Broward County paratransit program. The data presented herein reviews the history, the current status, and the goals of the Broward County Transit (BCT) Paratransit Transportation **OPtionS** ([TOPS!](#)) program.

### **A. INTRODUCTION TO THE SERVICE AREA**

Delivery of transportation services in Broward County continues to evolve into a multi-provider, intermodal, intercounty, and coordinated system. The following background information provides an historical overview of the organization and development of the TD program at the local level.

#### **1. Background of the TD Program**

Broward County Government either purchases, subsidizes, or directly provides special transportation to eligible residents. The Board of County Commissioners, in its role as the CTC for Broward County, serves the needs of transportation disadvantaged persons. The County Commission has designated the Paratransit Services Section of the Transportation Department as the responsible agency for administering all contracts for paratransit services and the management of the CTC program. The Director of the Transportation Department is empowered to act for the County Commission in these matters.

The CTD Trust Fund subsidizes a portion of the transportation cost for those who are transportation disadvantaged, for trips not sponsored by an agency, and only with a cash or in-kind match. These non-sponsored transportation funds are for "...persons who because of physical or mental disability, income status, or age are unable to transport themselves or to purchase transportation..." and includes children at-risk as defined by FS 411.202.

The County also provides paratransit services in compliance with the [Americans With Disabilities Act](#) (ADA) of 1990. ADA/paratransit determinations are based on a functional disability that prevents an individual from accessing and/or navigating public transit. The ADA requires the Transportation Department/BCT to offer complementary service to persons with disabilities who are unable to use the fixed-route bus system. The ADA paratransit service offers a level of service comparable to that provided to persons without disabilities who use the fixed-route system.

The CTC maintains a complaint process to address service related complaints and a monitoring program to ensure compliance with applicable federal and state requirements and guidelines. The CTD maintains an [Ombudsman Program](#) through the CTD Helpline that is available and accessible to all registered Broward County consumers.

The LCB provides information, advice, and direction to the CTC on the coordination of TD services and development of service standards that are consistent with the needs and resources of the community. The LCB Chair shall appoint a Grievance Committee to hear and advise the Board on grievances by users of TD services.

The County provides transportation service under the Transportation Department Emergency Preparedness Plan for persons who are mobility impaired, frail, elderly, and wheelchair users needing round-trip transportation between their dwelling and a special needs shelter in the event of an ordered evacuation. The County also maintains a Special Needs Population Registry. Transportation service is coordinated through the Elderly and Veterans' Services Division and Substance Abuse and Health Care Services Division.

## **2. Designation Date/History**

The Transportation Department is the responsible contract administrator for the purchase of service and coordination of contracts providing specialized transportation in Broward County and, as appropriate, to the adjacent counties of Miami-Dade and Palm Beach. The Paratransit Services section of the Transportation Department provides immediate oversight, direction, and liaison with contracted and coordinated entities and consumers.

Specialized service is understood to mean door-to-door transportation, including assistance for persons who, due to age, functional disability or economic disadvantage, are unable to purchase, provide, or obtain their own transportation. For common understanding, specialized service in this report means paratransit service(s).

In 1989, FS Chapter 427 created a coordinated system of TD services in the State of Florida. The Board of County Commissioners, in its role as the CTC for Broward

County, serves the needs of persons who are transportation disadvantaged. Transportation funded by the CTD Trust Fund provides trips for “persons who because of physical or mental disability, income status, or age...” are considered transportation disadvantaged.

ADA Civil Rights Legislation requires BCT, as an operator of a fixed route bus system, to offer complementary service to eligible persons with disabilities who are unable to use the fixed route system. A complementary paratransit service operates at a level of service comparable that is provided to persons without disabilities who are able to use the fixed route system. Since 1996, Broward County Transit has been in full compliance with six service criteria established by the ADA. BCT continues to meet or exceed service requirements mandated in the ADA legislation. Coordinated service delivery with Miami-Dade and Palm Beach Counties is ongoing in order to meet the growing need for inter-county trips.

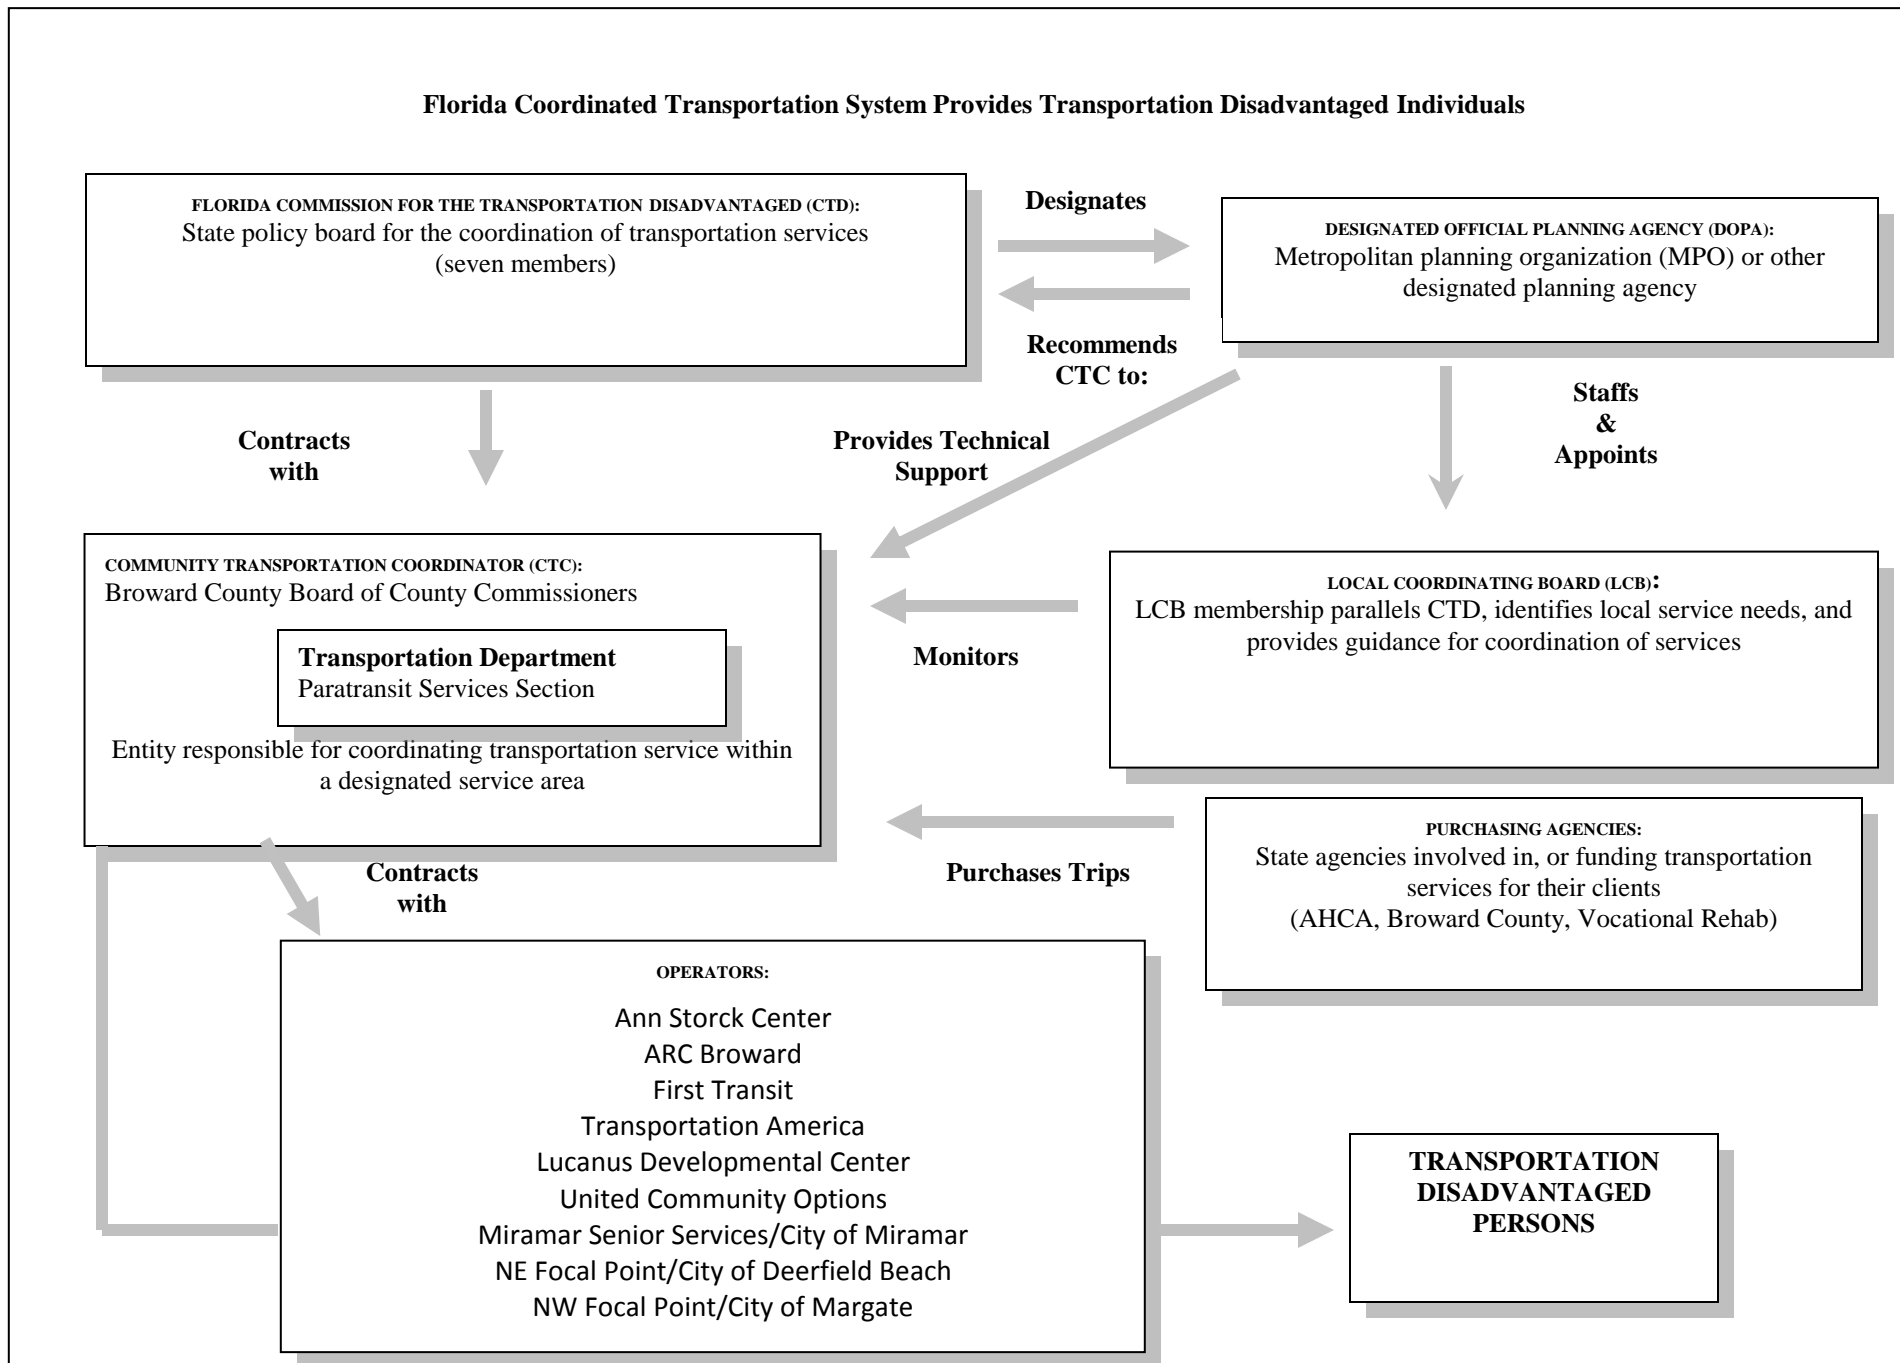

There are 2,510 registered customers with TOPS! TD door-to-door paratransit service. 3,693 are registered with the TD Bus Pass Program. There are 12,756 eligible ADA customers registered with TOPS! paratransit service. BCT’s Paratransit Services Section staff processed 9,669 applications and approved 7,230 applications for ADA and TD paratransit service.

Broward County paratransit is funded by the Broward County Board of County Commissioners and the State of Florida’s Transportation Disadvantaged Trust Fund (TDTF). The existing program implementation is through strict application of eligibility criteria, periodic reassessment of consumer eligibility and availability of free travel training in all aspects of utilizing the accessible fixed route system.

According to Center of Urban Transportation Research (CUTR) forecasts (found in Table 10), the TD population of Broward currently consists of 589,404 individuals. It is anticipated that this number will increase to 610,481 by the year 2023.

The LCB assists the CTC to identify local service needs and provides information, advice and direction on the coordination of services to the transportation disadvantaged. The LCB Chair shall appoint a Grievance Committee and establish procedures, as required by 41-2 FAC, to serve as a mediator to hear and investigate complaints from agencies, users, potential users, and the CTC, and make recommendations for service improvements. The membership of the LCB is established by law and rule (Chapter 427 FS/41-2 FAC) and appointed by the Designated Official Planning Agency (DOPA).

#### 4. Consistency Review of Other Plans

This section documents the mandated and adopted process for the development of TD plans in Broward County. The TD planning process is an integral part of the overall transportation planning process. The planning process is established by federal regulations in 23 Code of Federal Regulations (CFR), Part 450 and 49 CFR, Part 613, which mandate that an MPO function as the agency responsible for transportation planning functions in the urbanized area.

The MPO participates in the review of the Transportation Element of the Comprehensive Plan. The Transportation Department, operating as BCT, is responsible for the countywide public transportation system. It prepares the Federal Transit Administration (FTA) capital and operating grant applications and implements system changes as outlined in the Transit Development Plan (TDP). BCT maintains and updates the records of the transit system. The MPO works with BCT in the analysis of transit issues and in the preparation of technical reports.

The development of the Broward County Comprehensive Plan, Metropolitan Transportation Plan (MTP), TDP, and Transportation Improvement Program (TIP) is based on a well-established process for the planning and programming of transportation/transit system improvements. The process includes adhering to the established transportation/transit goals and policies, monitoring and evaluating existing service and service needs, developing improvements, and involving the public in the transportation planning process. The following is a brief summary of the plans that the TDSP maintains consistency with:

a. The **Broward County Comprehensive Plan** contains 14 elements. The Transportation Element sets levels of service for the implementation of multimodal transportation improvements for the roadway network, mass transit, port and airport. The development of the Transportation Element's goals, objectives, and policies is to comply with concurrency requirements specified in legislation and regulations. In addition, the incorporation of monitoring and updating procedures helps to evaluate the adequacy of the infrastructure in meeting planned growth.

b. **The Strategic Regional Policy Plan** for South Florida examines the trends and conditions affecting the South Florida Region (including Broward, Miami-Dade and Monroe Counties). The South Florida Regional Planning Council (SFRPC) has a Strategic Regional Policy Plan (SRPP) that includes the review of institutional roles and activities, and the identification of potential challenges as well as opportunities facing the Region. The trends and conditions analysis also provides a basis, along with input from the regional community, for constructing a regional vision. Regional planning consists of processes to define an overall regional vision for South Florida to become a livable, sustainable and competitive community. Four (4) priority issues guide and focus planning efforts to support the values of the overall regional vision.

The priorities include affordable housing, school facilities, transportation, natural resources, and are addressed in the context of the SRPP's supporting values: Sustainability, Connectivity, and Responsibility.

c. The **Broward County Transit Development Plan (TDP)** is a ten-year mid-range strategic operating and capital financial plan for Broward County's (Mass) Transit System. This includes an assessment of alternatives to improve and expand transit service, a review of current and future multimodal options and land use codes. State and federal requirements for transportation services for the disadvantaged, including the ADA Act of 1990, is also addressed. The development of this document is part of a comprehensive, cooperative and continuing planning process and is consistent with the Broward County Comprehensive Plan, the Broward MPO MTP, the South Florida Regional Transportation Authority (SFRTA) plan, and other related transit agencies' plans. It also supports the five-year TIP. Preparation of the TDP is by BCT of the County's Transportation Department.

d. The **Commission for the Transportation Disadvantaged 5Yr/20Yr Plan** sets forth goals, objectives, and a plan of action for the CTD. The action plan consists of two sections; immediate actions to be completed in the next five years and actions to be completed over the long term (20 years). Also included is an overview of the Florida Coordinated Transportation System that provides projections of the number of persons eligible or potentially eligible for TD service, as well as projections of the unmet demand for TD trips. A description of the vision statements adopted by the Commission for five-year and long-term planning horizons includes a new set of goals and objectives designed to measure the accomplishments of the TD Program.

e. The **Broward MPO's 2040 Long Range Transportation Plan (LRTP)** guides the expenditure of federal, state and local transportation funds. The Plan addresses transportation system (pedestrians, bicyclists, transit and highways) planning needs for a 20-year horizon. Primary LRTP tasks include identification of goals and objectives, estimation of financial resources, identification of the future transportation system needs, development of the Cost Feasible Plan, and the public involvement process in support of plan development. This ensures that planning is taking place far enough in advance to protect transportation resources and design facilities that will satisfy needs for a reasonable length of time once implemented. The Plan is the primary source for identifying projects to consider for inclusion in the TIP.

f. The **Broward MPO's Transportation Improvement Program (TIP)** is a five-year program that prioritizes and documents the funding of transportation improvement projects the region expects to build over the next five years. The projects include reconstruction, maintenance, and operation of major highways, improvements, maintenance and operation of arterials and intersections, maintenance and expansion of the public transit, aviation and port systems, construction for bicycle paths, and improvements for pedestrians. The TIP is a tool to advance projects from Long Range Transportation Plan (LRTP) to a short-range five-year program through the Multimodal

Project List (MMPL). All TIP projects are evaluated to assure consistency with the goals and objectives of the (LRTP). Each year, the MPO updates the TIP to decide how to spend federal, state and local transportation funds for capital projects. Guided by the Broward MPO's goals and objectives, the Broward MPO works with the public, planning organizations, government agencies, elected officials, and community groups to develop the TIP. The Transportation Improvement Program (TIP) is authorized through the federal Fixing America's Surface Transportation Act (FAST Act) legislation, signed into law December 4, 2015 and Florida Statutes.

g. The **Broward MPO's Public Participation Plan (PPP)** provides guidelines for achieving optimum public participation with assessment tools to evaluate effectiveness of the program. Exemplary public participation begins early in the planning process and continues throughout each of the planning states, helping to avoid, minimize and mitigate project impacts while providing the best solutions. The Broward MPO's policy on public participation is to create opportunities for all segments of the public to learn and become informed about issues and proposals under its consideration, particularly those affected by the outcomes or with special needs. The plan and policy are fundamental to ensuring the public is an important key player and participant in the planning and decision-making process.

The MPO maintains public involvement opportunities for transportation plans and projects for impacted communities through a wide range of methods including, but not limited to: advisory committees, public meetings and workshops, public workshops on special interest issues, community meetings to reach specific neighborhoods or groups of people, transportation fairs, community events, visits to elementary schools and universities, continuous public comment opportunities at MPO and committee meetings, media stories, press releases, user satisfaction surveys, displays, periodic mailings including a transportation newsletter, press kits, website pages and email blasts.

One of the primary goals of the Broward MPO for public involvement is to ensure that transportation plans reflect community input and benefit all segments of the community equitably. The goals of the Broward MPO's PPP are to:

1. Inform the Public of transportation meetings, issues and other relevant events. The public needs to be aware of their role in the transportation planning and decision-making.
2. Involve the public by providing opportunities throughout the transportation planning and decision-making process.
3. Include all communities in the planning area to inform and involve, with special emphasis on those communities with people who have been underrepresented and/or underserved.
4. Improve the public participation process by identifying and incorporating new tools and strategies.

The MPO's [Speak Up Broward](#) initiative continues to encourage active participation online through an active social media presence.

The MPO regularly assesses the effectiveness of its public participation techniques to develop strategies for improving and making greater progress in public involvement.

### a. Land Use

Under the Broward County Charter, the Broward County Land Use Plan is the official land use plan within the County and is effective within all jurisdictions. With respect to Land Use and Transportation, the Plan's goals, objectives and policies are written to address both the requirements of the Charter and Chapter 9J-5, FAC.

b. Population/Composition

Broward County is one of the largest counties in the state of Florida in terms of population and employment. Broward County has a large senior citizen population, making up 14.7 percent of the population age 65 or older. This is higher than the national average of 13.7 percent. These conditions are key indicators of transit/paratransit use, as are vehicle availability, income, traffic, urban growth and land use/site planning. All of these factors contribute to the need for public transit in Broward County.

c. Employment

Broward County is one of the major areas of employment in the state of Florida. The pattern of employment density is similar to that of population density, with higher densities in the east-central and southeast sectors of the County. The highest pocket of employment is in downtown Fort Lauderdale, while significant concentrations also exist to the north (Cypress Creek area) and west (Sawgrass Mills area). Many major employment centers and/or attractions receive direct service with fixed route service into these locations. Similarly, residential areas with high concentrations of transit users are often directly served by transit routes.

## C. SERVICE ANALYSIS

### 1. Forecasts of TD Population

Circumstances affecting transportation provision occurring in Broward County include migration, natural increase, and aging of the current population. As the coordinated system evolves, the CTC, along with MPO staff, will evaluate existing conditions and trends of the TD population. The Broward County market segment TD forecast was developed with the assistance of a forecasting tool developed by CUTR. Forecasts of Broward County's TD population for 2017-2023 are reflected in Table 10.

**TABLE 10 GENERAL TD POPULATION FORECAST**

## **2. Needs Assessment**

As mentioned previously, Broward County is one of the largest counties in the state of Florida in terms of population and employment. Broward County has a large senior citizen population, with 14.7 percent of the population age 65 or older. This is higher than the national average of 13.7 percent. These conditions are key indicators of transit/paratransit use, as are automobile availability, income, traffic, urban growth and land use/site planning. All of these factors contribute to the need for public transit in Broward County.

Based on Table 10 above, those considered transportation disadvantaged currently comprise 32% of Broward's population. As the "Baby Boomers" continue to get older, that percentage will rise, as will the demand for TD services. Transportation alternatives must be readily available and accessible. Florida's population is estimated to reach 25.6 million by the year 2040.

Major challenges include:

- ◆ Cost of Service
- ◆ Funding; proper allocation of funding
- ◆ Keeping up with demand
- ◆ Regionalization

The unmet needs of the economically disadvantaged and low-income individuals include jobs that will provide income and benefits, and transportation. The historical patterns of high vehicle ownership, low provision of public transportation and suburban sprawl have combined to create an environment in which not owning a car is a serious barrier to employment and economic self-sufficiency. The vast majority of Broward County's workers drive to work not only because the car is more convenient and flexible but also because public transportation headways are long, and routes do not offer direct connections to where the jobs are.

BCT offers a transportation disadvantaged bus pass program for Broward County residents not able to afford traditional fixed-route service. The TD Bus Pass program provides transportation disadvantaged individuals the opportunity to access Broward County's robust fixed-route service. The free 31-day Broward County Transit (BCT) bus pass is issued to qualifying individuals at no charge and is distributed via mail only. In order to be considered eligible for the TD Bus Pass program, an applicant must qualify under the current Federal Poverty Level Guidelines at the 225% level, based upon total household income and the number of household members. During this reporting period 14,850 adult, 9,324 senior and 125 youth 31-day BCT bus passes were distributed to TD Bus Pass program eligible Broward County residents.

## **3. Barriers to Coordination**

The identification of barriers is important to the establishment and operation of an efficient

system of TD services. Barriers to coordination and accessibility identified for the Broward County service area include:

- a. The fragmentation inherent in a service area encompassing 31 municipalities.
- b. How information is collected, retained, and reported among providers, municipalities, and agencies.
- c. Regional coordination.
- d. Lack of funding.

BCT is responsible for the county-wide fixed route and paratransit transportation services. BCT works closely with Broward MPO in the development of plans and the analysis of transit issues. The process includes adhering to the established transportation/transit goals and policies, monitoring and evaluating existing service and service needs, developing improvements, and public review.

BCT also provides paratransit services (TOPS!) for individuals that meet ADA or TD (must be disabled and economically disadvantaged) eligibility requirements, in addition to regular fixed route and community bus services.

Furthermore, the CTD is a primary resource for information, guidance, oversight and legislative advocacy on behalf of the statewide coordinated system.

#### **D. GOALS, OBJECTIVES, AND STRATEGIES**

TDSP goals and objectives (presented on pages 19 to 30) are consistent with Florida legislative and administrative requirements and support CTD goals. The TDSP is consistent with the Broward MPO's MTP, BCT's ten-year TDP and simultaneously supports other planning efforts. Every effort is made to address regional issues outlined in the SRPP for South Florida produced by SFRC.

TOPS! is one of the nation's largest and most effective paratransit programs. Enhanced service standards, responsiveness to customer input and partnerships with local community agencies contribute to continuing improvement in delivery of services.

#### **E. IMPLEMENTATION PLAN**

The implementation plan for the goals, objectives, and strategies is included on the following pages (pages 19 to 30).

Drivers refrain from sounding a horn. When customer boards the vehicle, driver shall update the automated system indicating the successful pick-up.

## **Cancellations and “No-Show” Policies**

A trip is a “no-show” if customer calls to cancel a trip less than two hours before scheduled pick-up time, places a request for service but does not meet the ride upon arrival or is not ready to board within five minutes after arrival of the ride during the pick-up window and vehicle departs without them. An excessive accumulation of “no-shows” may result in suspension of service.

When assigned provider fails to pick-up a customer for a scheduled trip, it is considered a missed trip. A missed trip is an arrival of the vehicle by more than one hour after scheduled pick-up time.

## **Procedures for Dispatching Backup or After-Hours Service**

## **8. Natural Disaster/Emergency Preparedness**

As a primary agency (Broward County Emergency Service Function #1), BCT, including the Paratransit Services Section, maintains a special needs transportation capability by means of contractual arrangement with transportation contractors to transport persons with special needs to/from designated shelters. Individuals are required to pre-register with Broward County Elderly & Veterans' Services Division. The rider's fare is waived under such emergency circumstances. Individuals may have the option to contact their service provider for trips. (Appendix F, "Paratransit Emergency Transportation Plan")

In order to address issues pertaining to the operation of special needs shelters during emergencies and to prepare for future emergency needs of special needs shelter customers, Broward County's Human Services Department initiated the Special Needs Task Force (SNTF). Bus Your Bike service is one multimodal service BCT provides, allowing passengers to take bicycles on the bus as a secondary transportation option. Racks are located in the front of all BCT buses to afford riders an opportunity to store their bicycles during transport.

BCT has partnerships with Tri-Rail, Transportation Management Associations (TMAs) and community buses. Using these different forms of transportation, County residents may assist in reducing traffic congestion and environmental pollution.

### **III. QUALITY ASSURANCE**

Chapter 427, FS; Rule 41-2, FAC; and the Local Coordinating Board and Planning Agency Operating Guidelines prescribe the CTC evaluation process that summarizes the CTC's strengths and weaknesses over the past year in terms of implementing Chapter and Rule, Memorandum of Agreement (MOA) and goals and objectives in the TDSP. The LCB has the responsibility to conduct the evaluation of the CTC. Staff to the LCB completes the evaluation process utilizing CTD-approved criteria. A copy of the evaluation is provided to the MPO and the CTD. The FY 2016-2017 CTC Evaluation (Appendix H, "CTC Evaluation Workbook") received LCB approval on May 21, 2018, MPO approval on June 14, 2018, and it was submitted to the CTD on July 3, 2018. The CTD approved the evaluation recommended by the LCB for the Broward County Board of County Commissioners / Transportation Department to continue as the CTC for Broward County.

The LCB recommended the re-designation of the Broward County Board of County Commissioners as the CTC. The CTD approved the MOA with the CTC for five years effective July 1, 2017 – June 20, 2022.

#### **A. PARATRANSIT CONTRACTURAL SERVICE STANDARDS**

See Appendix G, "Solicitation and Addenda 1-4, Paratransit Transportation Services"

#### **B. LOCAL COMPLAINT AND GRIEVANCE PROCEDURES/PROCESS**

Complaint and grievance procedures provide the TD population and the general public a forum to address complaints and grievances relative to contract non-compliance.

Posting of the complaint and grievance rights of the user is visible to sighted customers and are periodically explained verbally to sight-impaired customers.

#### **COMPLAINT PROCEDURES**

1. The customer or customer's advocate contacts the Call Center 1-866-682-2258 or, using the telephone number posted in the vehicles, and expresses dissatisfaction with the service citing a date and time and the reason for the complaint. If the complaint is related to matters of policy, the CTC explains that the service provided was within the CTC's scope of service and closes the matter.
2. If the complaint is not about a matter of policy, the Call Center records the complaint in the Computerized Transportation Management System (CTMS). The CTMS assigns

a tracking number to the complaint.

a) After taking the complaint, the call center will ask the customer if they want the tracking number and to be advised of the resolution outcome.

b) If the customer says yes, the call center must note the request on the complaint form that is sent to the CTC; CTC will follow up with the customer.

c) If a customer says no, then the complaint is tracked and documented in the usual manner.

3. The CTC forwards the complaint to the appropriate contractor who is required to respond to safety complaints immediately and other complaints within 24 hours.

4. The contractor responds to the complaint, either acknowledging that the complaint is valid, or disputing the complaint with documentation showing that the contractor was in compliance with its contract. If the contractor determines that the complaint is valid, the contractor also informs the CTC that it is taking corrective action.

5. The CTC determines whether or not the documentation is sufficient or that the complaint is valid.

6. The customer is contacted by the CTC and advised of the resolution of the complaint and, if valid, the corrective action taken by the contractor.

If the customer is not satisfied with the CTC's explanation of the complaint resolution, the CTC should inform the customer that it will look further into the matter if the customer is willing to forward a written explanation. The following Grievance Procedures would then apply:

## **SECTION 1: CREATION**

1.1 There is hereby created a formal complaint/grievance procedure for the transportation disadvantaged program as specified by the Commission for the Transportation Disadvantaged (CTD) pursuant to Chapter 427, Florida Statute and Rule 41-2.012, Florida Administrative Code, hereinafter referred to as the Grievance Process. The following rules and procedures shall constitute the grievance process to be utilized in the coordinated community transportation disadvantaged system for Broward County.

## **SECTION 2: DEFINITIONS**

2.1 As used in these rules and procedures the following words and terms shall have the meanings assigned therein. Additional program definitions can be found in Chapter 427, Florida Statutes and Rule 41-2, Florida Administrative Code.

(a) **Community Transportation Coordinator (CTC):** A transportation entity recommended by a Metropolitan Planning Organization (MPO), or by the appropriate designated official planning agency, as provided for in Section 427.015(1), Florida Statutes, in an area outside the purview of a MPO and approved by the CTD, to ensure

that coordinated transportation services are provided to serve the transportation disadvantaged population in a designated service area. The current CTC for the County is the Broward County Commissioners (BCC), the official body or agency designated by the Commission to fulfill the functions of transportation disadvantaged planning in areas not covered by a MPO. The MPO shall serve as the Designated Official Planning Agency (DOPA) in areas covered by such organization. The Broward MPO is the DOPA for Broward County.

(b) **Transportation Disadvantaged (TD) user:** Those persons, who because of physical or mental disability, income status, or age or who for other reasons are unable to transport themselves or to purchase transportation and are, therefore, dependent on others to obtain access to health care, employment, education, shopping, social activities, or other life-sustaining activities, or children who are handicapped or high-risk or at-risk as defined in Section 411.202, Florida Statutes.

(c) **Agency:** An official, officer, commission, authority, council, committee, department, division, bureau, board, section, or any other unit or entity of the state or of a city, town, municipality, county, or other local governing body or a private nonprofit entity providing transportation services as all or part of its charter.

(d) **Transportation Operator:** One or more public, private for profit or private nonprofit entities engaged by the CTC to provide service to TD persons pursuant to a Transportation Disadvantaged Service Plan (TDSP).

(e) **Service Complaint:** Incidents that may occur on a daily basis and are reported to the CTC involved with the daily operations, and are resolved within the course of a reasonable time period suitable to the complainant. Local service complaints are driven by the inability of the CTC to meet local service standards established by the CTC and LCB. All service complaints should be recorded and reported by the CTC to the LCB.

(f) **Formal Grievance:** A written complaint to document any concerns or an unresolved service complaint regarding the administration of TD services by the CTC, DOPA, or LCB.

(g) **Administrative Meeting of the Grievance Committee Process:** Chapter 120, Florida Statute.

### **SECTION 3: OBJECTIVES**

3.1 The objective of the grievance process shall be to process, investigate, and make recommendations, in a timely manner on formal written complaints/grievances that are not resolved between individual agencies/entities and the customer. 3.3 All documents pertaining to the grievance process will be made available, upon request, in a format accessible to persons with disabilities.

If the customer does not supply the above information to substantiate the grievance, no further action will be taken.

In addition, the written response shall advise grievant of the existence of the Ombudsman helpline and provide grievant with the helpline's toll-free telephone number.

6.7 **Step Three:** If mediation with the CTC is not successful, the CTC or customer may file an official complaint with the Broward MPO TD Program Administrator.

6.8 **Step Four:** The Broward MPO TD Program Administrator will make every effort to resolve the grievance by arranging a meeting between the involved parties in an attempt to assist them in reaching an amicable resolution. The meeting shall take place within ten (10) working days of receipt of all evidence regarding the grievance. The Broward MPO TD Program Administrator shall prepare a report regarding the meeting outcome. The report shall be sent to the customer and the Grievance Committee within ten (10) working days of the date of the meeting.

6.9 **Step Five:** If the Broward MPO TD Program Administrator is unsuccessful at resolving the grievance through the process outlined in 6.8 above, the customer may request, in writing, that their grievance be heard by the Grievance Committee. This request shall be made within ten (10) working days of receipt of the report prepared as a result of the mediation meeting arranged under Section 3 above and sent to the Broward MPO TD Program Administrator.

6.10 **Step Six:** Upon receipt of the written request for the grievance to be heard by the Grievance Committee, the Broward MPO TD Program Administrator shall have fifteen (15) working days to contact Grievance Committee members and set a meeting date and location. The customer and all parties involved shall be notified of the meeting of the Grievance Committee date and location at least ten (10) working days prior to the meeting date by certified mail, return receipt requested.

If the grievance has not been resolved as outlined in these grievance procedures, the customer may exercise their adjudicative rights, use the Administrative Hearing Process outlined in Chapter 120, Florida Statutes, or request that their grievance be heard by the CTD through the Ombudsman program established herein and the CTD's Grievance Process outlined in Section 7.

## **SECTION 7: CTD GRIEVANCE PROCESS**

7.1 If the LCB Grievance Process does not resolve the grievance, the customer will be informed of his/her right to file a formal grievance with the CTD. The customer may begin this process by contacting the CTD through the established Helpline at 1-800-983-2435 or by mail to: Florida Commission for the Transportation Disadvantaged, 605 Suwannee Street MS-49, Tallahassee, FL 32399-0450 or by email at [CTDOmbudsman@dot.state.fl.us](mailto:CTDOmbudsman@dot.state.fl.us) or [www.dot.state.fl.us/ctd](http://www.dot.state.fl.us/ctd). Upon request of the customer, the CTD will provide the customer with an accessible copy of the CTD's Grievance Procedures. If the CTD is unable to resolve the grievance, the customer will be referred to the Office of Administrative Appeals or other legal venues appropriate to the specific nature of the grievance. All of the steps outlined in Section 6 and Section 7(1) and (2) must be attempted in the listed order before a grievance will move to the next step. The customer should be sure to try and have as many details as possible, when filing a complaint, such as date, times, names, vehicle numbers, etc. There is an Ombudsman Program, provided by the CTD, which is available to anyone who requests assistance in resolving complaints/grievances. The Ombudsman Program may be reached through the toll free Helpline at 1-800-983-2435 or by email at [CTDOmbudsman@dot.state.fl.us](mailto:CTDOmbudsman@dot.state.fl.us) or [www.dot.state.fl.us/ctd](http://www.dot.state.fl.us/ctd). By requesting assistance of the Ombudsman Program in resolving complaints, the complaint will still follow, in order, all of the established steps listed in Sections 6 and 7 above. The Ombudsman will document each complaint and upon the request of the customer, file the complaint with the local CTC on the customer's behalf, to begin the local complaint process. If the customer has already filed the grievance locally and remains unsatisfied, the Ombudsman will assist the customer with the next step in the complaint or grievance process. The customer has the right to file a formal grievance with the Office of Administrative Appeals or other venues appropriate to the specific nature of the complaint.

## **C. EVALUATION PROCESSES**

Several evaluation processes are utilized by Broward County to ensure quality of service is being obtained and that it is being provided in the most cost effective, efficient, unduplicated, and seamless manner.

### **CTC Monitoring Procedures of Providers and Coordination Contractors**

## **Operators:**

- a. Providers are required to provide BCT with updated Driver Rosters by the 20<sup>th</sup> calendar day of each month. Each roster shall indicate driver's name, date of hire, training dates, last drug and alcohol test, Motor Vehicle Record review date and date of latest criminal record check. Providers are required to maintain updated Driver Rosters in CTMS.
- b. Providers must provide BCT with evidence that all drivers have completed the training program offered by BCT prior to the driver providing service and must attend a refresher class or repeat new driver training a minimum of once every two years. This training shall be included as part of the monthly operating summary package. Additionally, drivers are required to participate in driver-training developed by BCT. Providers must require all personnel providing transportation to possess the following: current, valid County Chauffeur's Registration in accordance with the requirements of Chapter 22-1/2, Broward County Code of Ordinances. It is also the provider's responsibility to ensure a copy of the above is filed with BCT.
- c. BCT requests State of Florida Motor Vehicle Reports for provider's drivers on a periodic basis. If a report shows evidence of violations, BCT will promptly notify Provider and Taxi Section of County Permitting, Licensing and Consumer Protection Division. Providers must have procedures to review periodically their drivers' Motor Vehicle Reports. BCT staff monitors compliance.
- d. The training program includes methods for measuring effectiveness of training in developing skill and improving performance. Use methods based on performance indicators that measure proficiency and not solely the provider meeting minimum training hours required. Provide measurement procedures to BCT upon request.
- e. BCT performs annual evaluations of providers, ensuring compliance with the System Safety Program Plan, locally approved standards, CTD standards, and FDOT standards, annual operating data and insurance requirements.
- f. BCT's direct involvement in day-to-day operations of service includes, but is not limited to: on-street monitoring of drivers and vehicles, inspections of equipment, customer service functions, contract compliance oversight and quality control. The providers will cooperate fully with BCT's monitoring programs. Providers provide full access to all driver records at operating facilities. Providers are required to make available a work station, desk, telephone and chair for use by BCT representative, if so requested. BCT's on-street monitoring shall include, but is not limited to: on-time performance, knowledge of service area and routing, driver assistance, manifest accuracy and completeness, driver appearance, vehicle appearance, wheelchair lift condition and operation,

wheelchair securement systems condition and use, safety equipment, driving habits, and compliance with Florida Motor Vehicle Regulations.

- g. Providers provide BCT with service data, via summary reports generated by CTMS, and a bi-weekly invoice for each component of service for previous bi-weekly billing period by close of business each Wednesday. This information shall include, but is not limited to, the following: number of one-way passenger trips by type of trip; total hours of vehicle service, copies of daily reports for driver activity or other daily reports showing starting and ending times and starting and ending mileage for each vehicle used by each driver, copies of trip tickets, log sheets or driver manifests, weekly reimbursement charges for services rendered the previous week and denied trips requests. BCT operates with a zero trip denial rate. Providers must keep separate denial forms/logs, by component, of all requests for service that cannot be accommodated. Providers shall fill out all information required on the log. A cumulative denial form/log is used that shows all rides denied for the week and shall be included as part of the monthly service summary submitted to BCT.
- h. Pursuant to the FTA's standards for precision, accuracy and accountability, BCT is required to report data to the National Transit Database (NTD). As required by FTA, or BCT, providers shall collect NTD data and other "service supplied" information or "service consumed" information, as terms are defined in Section 15 of the Federal Transit Administration Regulations. Providers are responsible for collection of financial and operational data, including on-board operational and passenger-related data, for transmittal to BCT on BCT approved forms as follows:
  - a. operational and passenger-related data shall be submitted to BCT no less than weekly,
  - b. financial data shall be submitted to BCT no less than quarterly,
  - c. and designated "service supplied" data shall be submitted to BCT 30 days prior to the termination of BCT's fiscal year.

All source documents for Section 15 filings is subject to audit and shall be maintained by providers for five years following final payment under their agreement with BCT.

- i. Providers must provide written monthly reports to BCT by the 20<sup>th</sup> day of the month following month of service. Collect and report all required information individually for each funding component of service. Reports shall be submitted on a form developed by provider and approved by BCT, and shall include, but not limited to the following:
- j. Brief Narrative: Brief narrative highlighting month's activities, unusual events, trends and other noteworthy observations.

- k. Ridership: Number of one-way passenger trips, Personal Care Attendants, and Companions on a day-by-day basis, for each funding and fare entity and category.
- l. Miles and Hours: Total hours of service and vehicle miles on a day-by-day basis.
- m. Cost of Service: Total service revenue based upon contracted rates, collected fares and net revenue to provide service (total revenue less imputed fares).
- n. Service Quality Measures: On-time performance data, trips completed, missed trips and trip denials with an explanation.
- o. Efficiency Measures: Appropriate measures to include passengers per mile, hour or vehicle trip.
- p. Fleet Data: Updated fleet listings and status of all vehicles.
- q. Other: Accident/Incident reports/briefs/findings, training activities/certifications, including sensitivity training and education, key personnel changes and suggested improvements.
- r. BCT staff inspect all vehicles, wheelchair lifts or ramps and wheelchair securement devices annually. All vehicles must be approved, inspected and display an inspection sticker issued by BCT prior to providing service. Any complaints received concerning a vehicle or equipment, vehicle must report to BCT's facility the next business day for inspection. Any vehicle found in violation of any contractual standard is removed from service until violation is remedied.
- s. BCT reserves the right, through its agreements with the providers, in its sole discretion, at any time, to inspect vehicles and maintenance facilities during normal working hours and review provider's maintenance records.

BCT's Complaint Procedure conducts day-to-day monitoring. All complaints are referred to BCT's Paratransit Customer Service. The Call Center will input all such complaints in CTMS and assign each complaint to the provider for resolution. Complaints must be documented and investigated by the provider, which shall include, but not be limited to, the review of available video footage from on-board cameras, a phone interview, and appropriate corrective action taken promptly. All complaint responses are to be reviewed, approved and signed by the Contract Administrator prior to issuance to the customer. The provider shall notify the customer and CTC of the disposition of the complaint in writing within five calendar days of receipt of said complaint. The CTC reserves the right to change the complaint procedures. Complaints of a safety, security and/or of a severe nature require a response within 24 hours. The County requires that providers treat all customer concerns related to performance as

complaints. Complaints are tallied each month, indicating total number of complaints and type of complaints for each provider. The standard for complaint standard is at 2.9 complaints per 1,000 trips monthly.

- a. BCT works closely with CTD's Ombudsman Program to resolve all service complaints and inquiries. BCT investigates each item as described above, contacts all concerned parties and sends CTD's Ombudsman Program a report on resolution of the complaint/inquiry.

**Coordination Contractors:** BCT performs annual evaluations of Coordination Contractors ensuring CTD standards, annual operating data, drug and alcohol testing programs, vehicle inspections and insurance requirements.

### **PARATRANSIT EMERGENCY TRANSPORTATION PLAN**

## **PARATRANSIT SERVICES SECTION EMERGENCY TRANSPORTATION PLAN**

### **I. PURPOSE**

To prescribe duties and responsibilities, establish lines of authority, and provide administrative procedures for the provision of special needs transportation in the event of hurricanes or other natural disaster, or when the Broward County Emergency Action Plan is implemented.

### **II. DUTIES AND RESPONSIBILITIES**

Paratransit Services, a section within the Transportation Department (ESF-1), is responsible for:

- A. Maintaining a special needs transportation capability through contractual arrangement with transportation operator(s) for persons with special needs (PSNs) who, because of a disability or medical condition, are unable to transport themselves, arrange private transportation, or use regular mass transportation to/from a shelter site.
- B. Notifying and mobilizing all assigned staff necessary to implement this Emergency Action Plan. Designating and assigning staff to appropriate facilities in which special needs transportation emergency activities may be conducted.
- C. Coordinating special needs transportation requests received from the Human Services Department (ESF-8 and ESF-18), or received through the Communications Center (ESF-2) by telephone or other referral process in accordance with prescribed standards.
- D. Identifying to competent authority all resource segments required to perform assigned functions which are in excess of Paratransit Services Section capabilities.
- E. Performing special needs transportation coordination duties appropriate to each alert phase described below, and/or as directed by The Department Director of the Transportation Department.

### **III. PHASE I - WATCH STATUS**

Upon notification of a Phase I Watch Status alert by the Director of the Transportation Department, it will be the responsibility of the Transit Manager, Paratransit Services Section to activate Phase I of this Emergency Transportation Plan. Activation of a Phase I Watch Status consists of the following action steps:

- A. Notifying the Paratransit Services staff, utilizing the alert assignment list (included as Attachment I), that a Phase I Watch Status has been declared. Ensure Paratransit Services Section staff is informed they are considered essential to emergency operations during Phases I, II, and IV, and they should immediately report to work bringing personal supplies sufficient for a 96-hour period. In the event family members wish to spend Phase III at a Broward County Government facility, bring necessary changes of clothing, blankets, medications and other personal supplies, etc. It is expected that full staffing will be accomplished within 120 minutes of a Phase I alert notification.
- B. Maintaining a sufficient staff presence at the Emergency Operations Center, 201 NW 84th Avenue, Plantation, Communications Center, and other staff as required

implementing this Emergency Transportation Plan. A staffing profile is contained in Attachment I.

C. Reviewing emergency transportation procedures with Paratransit Services staff, Transportation Department staff, and other Emergency Operations Center/Communications support personnel involved with emergency transportation operations.

D. Providing necessary technical support as required by the Emergency Operations Center staff for evaluating and monitoring the provision of special needs transportation activities.

E. Coordinating the orderly suspension of regular Paratransit services with the transportation operator(s), in accordance with the Americans with Disabilities Act of 1990 and Title 49, Subtitle A, Subpart A, Section 37 of the Code of Federal Regulations (49CFR37) and providing for the implementation of emergency transportation procedures, following telephone notification of an emergency evacuation situation.

1. If Phase I occurs during or extends into normal business hours, already scheduled Paratransit services shall continue to be provided until such time as the Emergency Operations Center directs that regular fixed-route and Paratransit operations are suspended. At this time, the transportation operator(s) will be notified that emergency evacuation procedures will commence. If the Phase I alert occurs after hours, Paratransit Services staff will immediately take position at their designated stations and set up a communications capability with the transportation operator(s), who will notify its staff of the imminent requirement to initiate emergency evacuation transportation.

2. Upon notification by Paratransit Services staff that emergency evacuation procedures have commenced, the transportation operator(s) will inform its drivers by radio to return all passengers home and begin to implement the transportation operator's emergency evacuation plan.

3. Transportation operator staff will telephone clients who have transportation scheduled for the remainder of the day or expected duration of the emergency situation that regular Paratransit services are being temporarily suspended. The clients will additionally be informed that should they require special needs transportation to the nearest available shelter they should call (866) 682-2258 or (954) 831-4000 (8:30 A.M. – 5:00 P.M.).

4. Transportation operators will be notified that an evacuation list is being prepared and they should take appropriate steps to schedule the appropriate number of vehicles and drivers, including the appropriate number of accessible and lift/ramp equipped vehicles. The evacuation list is comprised of two parts:

a. Part One is a list, prepared by the Broward County Elderly and Veterans Services, of clients who require evacuation transportation to a designated Special Needs Shelter by a Paratransit service vehicle. This list shows the total number of persons to be transported, including the clients, Personal Care Attendants, service animals, other companions, such as family, and any necessary aids. A copy is provided to the Paratransit Services Section for use in coordinating the overall evacuation program and for subsequent billing purposes.

b. Part Two is a Paratransit Services Section-prescribed form completed by other ESFs during Phase I operations, with one copy forwarded by fax or courier to a transportation operator(s) and the other copy retained by the Paratransit Services Section for record-

keeping purposes and for subsequent billing purposes. These forms are usually completed by staff at ESF-2 (Communications), ESF-8 (Health and Medical), and ESF-18 (Special Needs Shelters). These forms identify those disabled and frail elderly individuals that have contacted the EOC and require Paratransit transportation services to Special Needs Shelters, Red Cross Shelters, hospitals, or other safe havens.

5. When directed by the Department Director of the Transportation Department, the Paratransit Services Section Manager will authorize emergency transportation of PSN's and will continue to coordinate the overall provision of special needs transportation.

6. Remain active under the Emergency Operations Center direction until such time as properly relieved, when all known requests for transportation have been satisfied, or when otherwise directed by the Department Director of the Transportation Department or the Emergency Operations Center.

#### **IV. PHASE II - WARNING STATUS**

Upon notification of a Warning Status alert by the Director of the Transportation Department, it will be the responsibility of the Paratransit Services Section Manager to activate Phase II of the plan. Activation includes:

A. Upon the specific direction of the Transportation Department Director, notifying the transportation operator(s) to suspend special needs transportation operations.

B. Stationing a minimum of one accessible vehicle and driver at each shelter listed in Attachment II for accommodating the need for inter-shelter transfers of PSN's, non-emergency and non-stretcher transport of PSN's to hospitals, and for other special needs transportation requirements.

C. Securing transportation logs, computer diskettes and other records in safe storage areas of the facility.

D. With clearance from the Emergency Operations Center, releasing Paratransit Services Section personnel staff deemed nonessential for Phase III emergency activities.

#### **V. PHASE III - EVENT**

Upon notification of a Phase III alert by the Director of the Transportation Department, operation of transportation services will cease. Efforts at this time will be to provide for the safety and security of staff personnel. During Phase III, the Paratransit Services Section Manager will remain cognizant of Emergency Operations Center activities and receive directions or instructions from the Department Director of the Transportation Department or Emergency Operations Center staff.

A. An "Evacuation Kit" containing office supplies required to continue Paratransit service operations in another location is stored in the supply area of the Emergency Operations Center and available at Transportation Department administration. If the need to relocate staff operations to an alternative site is considered necessary, personnel will use the telephone system's "Call Forwarding" feature to ensure incoming calls will be received at the alternate locations.

B. If the Emergency Operations Center has not been activated and an evacuation order is received during regular working hours, telephones will be forwarded to an extension provided by ESF-2.

- C. If the emergency occurs during non-working hours and the Emergency Operations Center has not been activated, forward telephones to ESF-2, or as otherwise instructed. Calls will be forwarded to the Emergency Operations Center once operational.
- D. In the event of an electrical power disruption, Paratransit Services Section staff will remain at their telephone stations and answer calls even though no lights may be operating on the telephone instrument. Should telephone service be interrupted, a staff person should stand by and continue related clerical assignments until communications are reestablished.

#### **VI. PHASE IV - RECOVERY**

Upon conclusion of the emergency and when directed by the Director of the Transportation Department, the Paratransit Services Section Manager will commence Phase IV recovery operations as follows:

- A. Consult with the Director of the Transportation Department to determine when to implement a return movement of evacuees.
- B. Establish a specific time as to when return movement of evacuees is to commence.
- C. Direct Paratransit Services Section staff to designated facilities in order to reestablish communication links, field inquiries, schedule return transportation for PSN's, and perform special needs transportation related recovery duties as assigned.
- D. During recovery operations, maintain close and continuing liaison with a transportation operator(s) and maintain appropriate records and logs to document return transportation operations.
- E. Process transportation operator's billings for transportation services provided during Phases I, II, and IV.
- F. Notify transportation operators to restore routine Paratransit service operations and schedules to coincide with the resumption of fixed-route bus service

#### **VII. LOCATION AND COMMUNICATIONS INFORMATION**

Paratransit Services Section operational activities during a Phase I alert will relocate to the Emergency Operations Center, 201 NW 84th Avenue, Plantation, or as otherwise noted.

A. The Paratransit Services Section Manager (or designated alternate) will take up an appropriate position at the Emergency Operations Center, a Paratransit Service Section supervisor (s) will be posted inside the Emergency Operations Center as a liaison between the Paratransit Service Section Manager and the Communications Center staff, and the remaining Paratransit Services Section staff will report to either the Communications Center, or as assigned. Staff will generally remain in place during Phases II and III. Phase IV staffing is contingent upon accessibility following the emergency action and/or as directed by the Paratransit Services Section Manager.

B. The following telephone numbers are designated for accessing Paratransit Services staff and staff operations.

Transportation Requests: 866-682-2258 or 954-831-4000

Paratransit Services Section Manager: 954-357-8321 or 954-553-4287

Paratransit Service Section Supervisor: 954-357-8328 or 954-357-8478

Emergency Operations Center (EOC) 954-831-4000

C. Telephone calls requesting evacuation transportation, or general information concerning emergency Paratransit service requirements which arrive at the Emergency Operations Center or other staff offices should be transferred or directed to 866-682-2258 or 954-831-4000. Do not transfer calls to Paratransit Administration or any other extension. These telephone numbers must be left open so that Paratransit Services staff may remain in contact with its transportation operator(s) and with the Emergency Operations Center.

D. If emergency evacuation of the Paratransit Services office becomes necessary, the Paratransit Services Section Manager will designate an alternate site after first coordinating relocation with the Emergency Operations Center. Telephone service will continue uninterrupted, using the call-forwarding feature, prior to moving to the alternate site.

8. The following information is provided in response to questions received for subject solicitation:

	Question	Answer
1.	What is the cost per vehicle supplied by the County to provide service, so insurance Company can price Insurance?	The cost per Vehicle is \$84,917.00.
2.	[Company] respectfully requests an extension of an additional two weeks.	Refer to # 1 of this Addendum 2.
3.	[Company] We would like to recommend the date be changed to July 23 , 2014.	Refer to # 1 of this Addendum 2.
4.	CBE Clarification – if the new CBE goal is 11% on sections 1-4 (excluding wages and fringes), what percent of the total dollar amount does the County estimate the percent of work the CBE will do. Wages are a majority of the cost in this contract, so the overall CBE utilization could end up as a much smaller figure.	The 11% CBE goal for each contract applies to the approximate 35% (\$15.75M) of the projected contract amount on non-direct labor expenses. 11% of the estimated \$15.75M equates to approximately \$1,732,500 in CBE participation dollars per awarded contract. Vendors must review and commit to participation goals based on their own price proposals.
5.	What technique was used to come up with the 11% CBE goal?	The Project Manager identified the breakdown of the scope of work for the project. All portions of the scope of work were included for purposes of assessing overall relative availability of CBE-eligible firms by NAICS code. In this case, portions of the scope of services were identified which present an opportunity for CBE involvement. These portions of the scope of services were totaled to arrive at the CBE goal for the project.
6.	Are any specific CBE types of businesses required for this Contract, or can all certified CBE's be used? We ask this because this is a paratransit contract, and there is only one CBE certified for paratransit.	There are no "required" types of business. Participation of CBE's will be based on the needs of the transportation Service providers. Additionally, OESBD can provide information on what types of businesses may participate as a CBE. It should be noted however, direct labor i.e. administrative, personnel and driver, wages and fringes are not included in the eligible categories for CBE work. The 11% applies only to "non-direct labor".  Refer to responses to Questions # 4 and # 5 of this Addendum 2.

	Question	Answer
7.	Please provide more information as to the definition of 'Agency Trips.' Does this include dialysis trips, nutrition, mental health, and adult day care?	Agency Trips may include but is not limited to Trips for dialysis, nutrition, mental health and adult day care. Agency facilities with high trip volumes at common start and end times will be grouped into static routes for higher efficiency i.e. "school bus" style routing.
8.	Are Agency Trips mostly subscription trips?	Yes, historically Agency Trips have been Subscription Trips.
9.	What is the status of the Contract(s) for outsourcing the 200,000 trips to outside agencies that are currently being done under the TOPS program?	Contracts have not been awarded at this time. The County intends to have the Agency Coordination Transportation (ACT) program in place for January 1, 2015, start.
10.	Excessive Trip Length – please provide more information as to when will a trip be considered 'extreme long distance', and at what point is the trip not extreme. In other words, what is the mileage benchmark?	Rides provided where client ride time exceeds ninety (90) minutes, except in cases of extreme long distance, are deemed excessive. The County will compare travel time to a one-way trip travelled by fixed route bus service. There is no specific mileage benchmark for "extreme long distance", however each instance where ride time exceeds ninety (90) minutes is evaluated independently on a case by case basis.
11.	Late Trip – if a passenger is picked up 'on time' (within the window of the requested arrival), but arrives after his or her appointment time, is this considered a late trip? Meaning, if the pickup time is not reasonable to get to the appointment on time, and complaint results, is the provider still responsible?	The Call Center does not negotiate Trip requests but instead utilizes a batch scheduling method. The CTMS scheduling engine generates a "promise window" based on the request time requested by the customer. The travel time is calculated based on the priority of the Trip either being a "pick up anchored trip" or "drop off anchored trip" expressed by the customer at the time of reservation. A Trip will be assessed one penalty, if it meets the definition of a Late Trip on either the pickup and/or drop off. In the event that a complaint results, the reasonableness of travel time will be assessed on a case by case basis.
12.	Service Level – please provide more information as to how the County will be divided in half (50% to each provider). Is one provider to get the North, and one the South. Or, is each to cover the entire County overlapping each other?	Both Service providers will cover the entire County Service Area allowing the CTMS scheduling engine to assign Trips to the most efficient and logical route available.
13.	Provision of Service (page 77) VIII 3., are ETA's to be given by the Provider, or by the Call Center?	Refer to # 3 of this Addendum 2.  Call Center agents will provide an estimated time of arrival (ETA) to the customer, but the Call Center may ask the transportation Service provider for an ETA if the Vehicle AVL is not reporting.
14.	Pre and Post Trip, Page 84, 20 – can the pre and post trip inspection be kept on the same page of paper?	Yes.
15.	Please provide us with the TOPS policies and procedures (is not included in the RFP).	Refer to: <a href="http://www.broward.org/BCT/Documents/TOPSGuide2013.pdf">http://www.broward.org/BCT/Documents/TOPSGuide2013.pdf</a>

	Question	Answer
16.	MIS, email, page 100, B2, will the agency consider allowing the use of non-Broward.org email addresses? Many employee already have existing emails that may help with the transition, etc.	Contractors may use existing private or corporate email accounts however, only Broward County email will be accessible on County computers.
17.	Page 101, Human Resources MIS – would the agency accept digital record keeping of employee files and related information for this requirement?	Digital record keeping of employee files is acceptable as long as it includes a searchable master employee matrix.
18.	Page 101, 6, iii, DBE Compliance – is reporting on DBE compliance a requirement even if there is no goal?	Refer to # 5 of this Addendum 2. Additionally, refer to # 6 of Addendum 1 and Section 8 of the CAF agreement. <a href="http://www.broward.org/Purchasing/Documents/caf101.pdf">http://www.broward.org/Purchasing/Documents/caf101.pdf</a>
19.	Page 102, Communication Systems, 2, is a digitally recorded system necessary for this bid? If the Call Center takes reservations and ETA calls, and the Provider uses radios for dispatcher communication, the agency could save money by removing this requirement as it may not be necessary.	Specification is not revised; a digital system is required.
20.	Page 104, D 4, would the agency provide remote access to managers or other staff as required, remote access to the ADEPT system. This would allow 24/7 access to the system for reporting or research when key staff are not in the office.	The CTMS is only accessible via a secure VPN connection from outside the County network. VPN access can be requested, along with justification of need, to be approved by the County.

### **Scope of Service**

The County is seeking proposals for qualified transportation service vendors to provide Americans with Disabilities Act (ADA) paratransit and Transportation Disadvantaged (TD) transportation services within the service area of Broward County. The County shall provide the awarded vendors with Vehicles and propane fuel for daily operations. The vendor will be responsible to provide all other necessary services, facilities, equipment and supplies as per **Exhibit "1" – Detailed Scope of Work**.

Vendors will be paid based on fixed monthly expense for administrative and overhead plus fixed trip rate. **Refer to Attachment "T" Pricing Sheets.**

At the time of the Evaluation Committee appointment (which is typically prior to the advertisement of the solicitation document) in this RFP process, a Cone of Silence will be imposed. Section 1-266, Broward County Code of Ordinances as revised, provides that after Evaluation Committee appointment, potential vendors and their representatives are substantially restricted from communicating regarding this RFP with the County Administrator, Deputy and Assistants to the County Administrator and their respective support staff, or any person appointed to evaluate or recommend selection in this RFP process. For communication with County Commissioners and Commission staff, the Cone of Silence allows communication until the Initial Evaluation Committee Meeting. After the application of the Cone of Silence, inquiries regarding this RFP should be directed to the Director of Purchasing or designee.

The Cone of Silence terminates when the County Commission or other awarding authority takes action which ends the solicitation.

### **Demonstrations**

Although there are no presentations being requested, at any committee meeting, the Evaluation Committee members may ask questions, request clarification, or require additional information of each Vendor's submittal. It is not mandatory for Vendors to attend committee meetings, however it is highly recommended Vendors attend to answer any committee questions (if requested). Vendor provided answers may impact evaluation (and scoring, if applicable). Upon written request to the Purchasing Agent prior to the meeting, a conference call number will be made available for Vendors to participate via teleconference. Only Vendors that are found to be both responsive and responsible to the requirements of the solicitation are requested to participate in a committee meeting.

Failure to timely submit a completed Pricing Sheet may result in the Vendor being determined non-responsive.

### **Negotiation and Award**

The Purchasing Negotiator, assisted by County staff, will attempt to negotiate a contract with the two highest ranked firms. If an impasse occurs, the County will cease negotiation with either firm and begin negotiations with the next-ranked firm. ### **Copyrighted Materials**

Copyrighted material will be accepted as part of a submittal only if accompanied by a waiver that will allow the County to make paper and electronic copies necessary for the use of County staff and agents. It is noted that copyrighted material is not exempt from the Public Records Law, Chapter 119, Florida Statutes. Therefore, such material will be subject to viewing by the public, but copies of the material will not be provided to the public.

### **Local Preference**

Except where otherwise provided by federal or state law or other funding source restrictions, a local Vendor whose submittal is within 5% of the highest total ranked Vendor outside of the preference area will become the firm with whom the County will proceed with negotiations for a final contract.

Local business means the vendor has a valid occupational license issued by the county within which the vendor conducts their business at least one year prior to bid or proposal opening, that authorizes the business to provide the goods, services or construction to be purchased and a physical address located within the limits of said county, in an area zoned for the conduct of such business, from which the vendor operates or performs business on a day-to-day basis that is a substantial component of the goods or services being offered. Post Office Boxes are not verifiable and shall not be used for the purpose of establishing a physical address.

### **State and Local Preferences**

If the solicitation involves a federally funded project where the fund requirements prohibit the use of state and/or local preferences, such preferences contained in the County's Local Preference Ordinance and Procurement Code will not be applied in the procurement process.

### **Right of Appeal**

Pursuant to Section 21.83 of the Broward County Procurement Code, any vendor that has a substantial interest in the matter and is dissatisfied or aggrieved in connection with the Evaluation Committee's determination of responsiveness may appeal the determination pursuant to Section 21.120 of the Code.

The appeal must be in writing and sent to the Director of Purchasing within ten (10) calendar days of the determination by the Evaluation Committee to be deemed timely.

### **Responsibility Criteria**

#### **Definition of Responsible Proposer**

In accordance with Broward County Procurement Code Section 21.8.b.65, a Responsible Proposer or Offeror means an offeror who has the capability in all respects to perform the contract requirements, and the integrity and reliability which will assure good faith performance.

The Evaluation Committee will recommend to the awarding authority a determination of a firm's responsibility. At any time prior to award, the awarding authority may find that an offeror is not responsible to receive a particular award. The following criteria shall be evaluated in making a determination of responsibility:

#### **1. Financial Information**

All firms are required to provide Broward County the firm's financial statements at the time of submittal in order to demonstrate the firm's financial capabilities. Failure to provide this information at the time of submittal may result in a recommendation by the Director of Purchasing that the response is non-responsive. Each firm shall submit its most recent two (2) years of financial statements for review. The financial statements are not required to be audited financial statements.

Although the review of a vendor's financial information is an issue of responsibility, the failure to either provide the financial documentation or correctly assert a confidentiality claim pursuant the Florida Public Records Law and the solicitation requirements as stated in the Evaluation Criteria and Public Record and Exemptions sections may result in a recommendation of non-responsive by the Director of Purchasing.

#### **2. Litigation History**

The County will consider a vendor's litigation history information in its review and determination of responsibility. All vendors are required to disclose to the County all "material" cases filed, pending, or resolved during the last three (3) years prior to the solicitation response due date, whether such cases were brought by or against the vendor, any parent or subsidiary of the vendor, or any predecessor organization. If the vendor is a joint venture, the information provided should encompass the joint venture (if it is not newly-formed for purposes of responding to the solicitation) and each of the entities forming the joint venture.

Although the review of a vendor's litigation history is an issue of responsibility, the failure to provide litigation history as required in the Evaluation Criteria may result in a recommendation of non-responsive by the Director of Purchasing.

County shall retain title to the CTMS and no right, title, or interest in the CTMS shall pass to Contractor except as expressly set forth in the contract. Contractor shall not remove any markings, and shall affix to the CTMS any markings requested by County, to evidence County's ownership interest. Contractor recognizes and agrees that use of the CTMS is limited to transportation operations involving individuals determined by County to be eligible for such County assisted Paratransit Services.

Contractor further agrees that Contractor shall not use CTMS for its own business operations unrelated to the above. Usage of CTMS for non-County functions or operations may result in the termination of the agreement.

2. **Delivery and Installation of CTMS:** County shall deliver the CTMS at a time and location to be agreed upon by the parties. At the time of delivery of the CTMS to Contractor's site, the parties shall execute a written schedule setting forth the components; the serial numbers where applicable of the CTMS delivered; and date of delivery. Contractor shall use its best efforts to ensure that all Contractor's personnel and all other persons afforded access to the Licensed Programs by Contractor protect the Licensed Programs as trade secrets and confidential information and refrain from any use or disclosure in any manner not expressly permitted by the contract. These restrictions shall not apply to information: (1) generally known to the public or obtainable from public sources; (2) previously in the possession of Contractor or subsequently developed or acquired without reliance on the licensed programs; or (3) approved by County for release without restriction. The programs, data-base information, and user materials included in the Licensed Programs may not be decompiled, reverse engineered, reprinted, transcribed, extracted, or reproduced, in whole or in part, without the prior written consent of County. ## **COMPLIANCE WITH CHAPTER 427, F.S.**

**Review the CTC monitoring of its transportation operator contracts to ensure compliance with 427.0155(3), F.S.**

***“Review all transportation operator contracts annually.” See TDSP, Pages 38-41; Appendix E***

### **WHAT TYPE OF MONITORING DOES THE CTC PERFORM ON ITS OPERATOR(S) AND HOW OFTEN IS IT CONDUCTED?**

1. Contractors are required to provide CTC with updated Driver Rosters by the twentieth (20) calendar day of each month. Roster shall indicate driver's name, date of hire, training dates, last Drug and Alcohol test, Motor Vehicle Record (MVR) review date and date of latest criminal record check. Contractors are required to maintain updated Driver Rosters in the Computerized Trip Management System (CTMS)
2. Contractors must provide CTC with evidence all drivers have completed the training program offered by CTC prior to any driver providing service and must attend a refresher class or repeat new driver training a minimum of once every two (2) years. Classes include Defensive Driver, Passenger Assistance Technique, Responding to Client Incidents, SUNsational Service and other training required by Provider.
3. Training information shall be included in the monthly operating summary package. Additionally, drivers are required to participate in a driver training program developed by CTC. Contractors must require all personnel providing transportation to possess the following, which shall be filed with CTC prior to personnel providing paratransit service: current, valid Broward County Chauffeur's Registration in accordance with requirements of Chapter 22-1/2, Broward County Code of Ordinances. Provider ADEPT driver roster is submitted weekly to Broward County Risk Management department. They verify daily for driver license violations which would require driver removal from operating a vehicle. Driver Training Program shall include a minimum of eighty (80) hours of training prior to driving a service vehicle. This shall include the following: Passenger Assistance Technique; Defensive Driver; Responding to Client Incidents; Vehicle breakdown, Vehicle and/or Passenger Accidents; Vehicle Orientation; Trip Scheduling; and biannual refresher classes.
4. CTC requests MVRs for Contractor's drivers on a periodic basis. When a report shows evidence of violations, CTC will promptly notify Contractor and Taxi Section of Broward County's Division of Consumer Affairs. Contractor must have procedures to periodically review drivers' MVRs. Compliance is monitored by CTC staff. Per Contract "County may request and review State of Florida MVRs for Contractor's drivers on a monthly basis".
5. Training program includes methods for measuring effectiveness of training in developing skill and improving performance. Methods shall be based on performance indicators which measure proficiency and not solely on Contractor meeting minimum training hours required. Such measurement procedure shall be provided to CTC upon request.
6. CTC performs annual evaluations of Contractors ensuring compliance with the

System Safety Program Plan, locally approved standards, FCTD and FDOT standards, annual operating data and insurance requirements.

7. CTC's direct involvement in day-to-day operations of service includes but is not limited to: on-street monitoring of drivers and vehicles, equipment and customer service inspections, contract compliance and quality control. Full cooperation is provided by Contractors CTC for monitoring programs. Contractors provide full access to all driver records at operating facilities. Contractors are required to make available: work station, desk, telephone and chair if so requested.
8. CTC's on-street monitoring shall include but is not limited to: on-time performance, knowledge of service area and routing, driver assistance, manifest accuracy and completeness, driver and vehicle appearance, wheelchair lift condition and operation, wheelchair securement systems and use, safety equipment, driving habits and compliance with Florida Motor Vehicle Regulations. Language from Contractor Service Agreement (See page 6, #3).
9. Contractors provide CTC with service data via summary reports generated by CTMS and a bi-weekly invoice for each component of service for previous bi-weekly (Monday through Sunday) period. This information shall include but is not limited to the following: number of one-way passenger trips by type of trip; total hours of vehicle service; copies of daily reports for driver activity or other daily reports showing starting and ending times; starting and ending mileage for each vehicle; copies of trip tickets, log sheets or driver manifests; weekly reimbursement charges for services and denied trips requests.
10. CTC operates with zero trip denial rates. If one provider is unable to perform a requested trip due to capacity constraints another provider performs the trip.
11. Pursuant to Federal Transit Administration's (FTA) standards for precision, accuracy and accountability, CTC is required to report data to the National Transit Database (Section 15 data). As required by FTA, or CTC, Contractors shall collect Section 15 data and other "service supplied" information or "service consumed" information, as terms are defined in Section 15 of FTA regulations. Contractors are responsible for collection of financial and operational data, including on-board operational and passenger-related data and for transmittal to CTC on CTC approved forms as follows: operational and passenger-related data shall be submitted to CTC no less than weekly, financial data shall be submitted to CTC no less than quarterly and designated "service supplied" data shall be submitted to CTC thirty (30) days prior to termination of CTC's fiscal year. All source documents for Section 15 filings shall be subject to audit and shall be maintained by Contractors for five (5) years following final payment under their agreement with CTC.
12. Contractors must provide written monthly reports to CTC by the twentieth (20th) day of the month following the month of service. All required information shall be collected and reported individually for each funding component of service. Reports shall be submitted on a form developed by Contractor and approved by CTC and shall include, but not be limited to the following:
  - Brief Narrative: Brief narrative highlighting month's activities, unusual events,

trends and other noteworthy observations.

- Ridership: Number of one-way passenger trips, PCAs and Companions on a day-by-day basis for each funding and fare entity and category.
- Miles and Hours: Total hours of service and vehicle miles on a day-by-day basis.
- Cost of Service: Total service revenue based upon contracted rates, collected fares and net revenue to provide service (total revenue less imputed fares).
- Service Quality Measures: On-time performance data, trips completed, missed trips and trip denials with an explanation.
- Efficiency Measures: Appropriate measures to include passengers per mile, hour or vehicle trip.
- Fleet Data: Updated fleet listings and status of all vehicles.
- Other: Accident/incident reports/briefs/findings, training activities/certifications, including sensitivity training and education, key personnel changes and suggested improvements.

13. All vehicles, wheelchair lifts or ramps and wheelchair securement devices are inspected annually by CTC staff. All vehicles must be approved, inspected and display an inspection sticker issued by CTC prior to providing service. Complaints received concerning any vehicle or its equipment, at CTC's discretion, may require vehicle to report to CTC's facility. If the complaint is related to safety issues, vehicle must report to the CTC immediately. Any vehicle found in violation of any contractual standard must be removed from service until violation is remedied.

14. CTC reserves the right through its agreements with Contractors, in its sole discretion, at any time, to inspect vehicles and maintenance facilities during normal working hours and to review Contractors' maintenance records.

Day-to-day monitoring is also conducted through CTC's Complaint Procedure. All client complaints shall be referred to CTC's Paratransit Customer Service. All complaints are entered into CTMS. Complaint will be forwarded to Contractor for written or electronic response. Contractor's responses shall be made within three (3) business days of receipt of complaint. Complaints of more serious nature such as injury, driver misconduct and client safety shall be responded to by the end of that business day. Complaints are tallied each month, indicating total number of complaints and type of complaints, for each Contractor. The complaint standard is established at 0.2% of trips delivered in a calendar month.

15. CTC works closely with CTD's Ombudsman Program to resolve all service complaints and inquiries. CTC investigates each item as described above (see #15), contacts all concerned parties and sends CTD's Ombudsman Program a report on the resolution of the complaint/inquiry.

<p><b>Review the TDSP to determine the utilization of school buses and public transportation services [Chapter 427.0155(4)]</b>  <b><i>“Approve and coordinate the utilization of school bus and public transportation services in accordance with the TDSP.”</i></b></p>
---

HOW IS THE CTC USING SCHOOL BUSES IN THE COORDINATED SYSTEM?        N/A

School bus joint use program is not used in Broward County. Expense of liability insurance is a major concern raised by the School Board. In addition, lack of seat belts and air conditioning on school buses is a problem for TOPS clients. However, there is an agreement between Broward County Transit (BCT) and the School Board to provide emergency transportation services for residents to designated shelters in the event of a hurricane or other natural disaster. School Board services could be used for backup for assisted living facilities, mobile home parks and other congregate living sites.

<p><b>Rule 41-2.012(5)(b):</b> <i>“As part of the Coordinator’s performance, the local Coordinating Board shall also set an annual percentage goal increase for the number of trips provided within the system for ridership on public transit, where applicable. In areas where the public transit is not being utilized, the local Coordinating Board shall set an annual percentage of the number of trips to be provided on public transit.”</i></p>
--

**HOW IS THE CTC USING PUBLIC TRANSPORTATION SERVICES IN THE COORDINATED SYSTEM?**         N/A

BCT is dedicated to improving its fixed-route bus system on an ongoing basis and has

completed the following improvements to enhance accessibility:

- Currently **3,790** bus stops are ADA compliant (280 bus stops cannot meet ADA requirements due to space/easement limitations) out of **4,574** bus stops which may be ADA accessible. There are ADA accessible bus stops on all routes. All bus drivers provide assistance upon request.
- All buses are equipped with voice annunciation systems which provide on-board automatic voice announcements in English, Spanish and Creole. They announce bus stops, major transfer points and safety advisories.
- All signage, both inside buses and at bus stops, complies with ADA regulations.

Clients requesting transportation services are directed to fixed-route service provided by BCT. Those unable to use fixed-route service are encouraged to apply for TOPS! paratransit service. Disabled clients who can use fixed-route bus service for some trips are granted ADA/TD conditional eligibility and use paratransit service only for trips where bus service is not accessible or navigable.

To help clients navigate fixed-route bus service, Paratransit Services offers a free Travel Training Program. A professional instructor provides personal and group lessons to teach riders how to use County buses. Paratransit eligible riders may call 954-357- 8405 and make an appointment.

BCT provides service to 410 square miles within Broward County. BCT fixed-route buses connect with Palm Beach and Miami-Dade transit systems and Tri-Rail. BCT's fleet has 343 fixed-route buses (all BCT buses are wheelchair accessible and our bus operators provide assistance upon request) providing service on 44 weekday routes and 66 community buses operated in partnership with 19 municipalities. BCT transports 35.1 million passengers annually (114,761 daily) with an annual service mileage of 17.5 million miles. 44 BCT Routes and 54 Community Bus Routes provide service on Saturdays and 29 BCT Routes and 8 Community Bus Routes provide service on Sundays. There are **4,574** designated bus stops and 1,082 have shelters.

BCT provides service into Miami-Dade and Palm Beach Counties.

Fixed-route service into Palm Beach County includes Route 19 to Sandalfoot and Route 10 to Mizner Park.

Fixed-route service into Miami-Dade County includes Route 18, 441 Breeze and University Breeze to Golden Glades; Route 2, 207th Street and University Drive; and Route 1, 28 and US 1 Breeze to Aventura Mall and 95 & 595 Express Buses from various Park & Rides to downtown Miami.

BCT provides free Wi-Fi on the 441 Breeze, US 1 Breeze, University Drive Breeze, all 6 express routes and the Broward Central Terminal. BCT operates 67 40' hybrid buses, 29 articulated diesel buses, 19 hybrid articulated buses and 14 MCI Over the Road Coaches.

## **Transit Technology**

Computer Aided Dispatch/Automatic Vehicle Locator (CAD/AVL)

This computerized bus tracking technology locates buses in service. It allows real time monitoring of bus movements, better control of bus headway, closer schedule adherence tracking and ability to direct maintenance crews faster in the event of vehicle breakdown or loss of communication. This technology allows BCT to improve dispatch efficiency and reliability of bus service. In addition, extensive information is collected for planning purposes.

**Status:** CAD/AVL uses cellular communications to provide frequent location reports from the bus and provides more reliable voice communications. CAD/AVL also allows real-time bus tracking information to be shared via website, mobile application, and passenger advisory signs located at bus stops and terminals. BCT is currently installing a new CAD/AVL system in fixed-route and community BCT is currently installing CAD/AVL systems in fixed-route and community busses.

#### Automatic Passenger Counters (APC)

APCs count passengers when they board and exit buses. This technology enables BCT to develop or refine bus schedules and collect information for planning purposes. APCs reduce the cost of collecting ridership information. It increases the amount and quality of information obtained and permits continuous sampling of stop-by-stop ridership. APCs can be used to meet National Transit Database data reporting requirements for tracking ridership data, improving system on-time performance and to maximize operational efficiencies.

**Status:** BCT is exploring options to replace its existing Automatic Passenger Counter (APC) system with newer technology that will result in greater data quality and reliability. A new APC system will interface with the new CAD/AVL system currently being installed.

### Real Time Transit Information

This technology provides better customer service by disseminating timely and accurate service information about projected bus arrival and departure times, disruptions and delays, transfers and other transportation services at select locations. It also provides customers other travel related information: date and time, transportation related security information, updates during emergencies and public service announcements. Access to information is provided through media including Passenger Advisory Signs (PAS), smart phones, mobile devices, internet, and dynamic message signs strategically located at bus shelters, transit centers, major office buildings and shopping centers. Riders use real time information to choose how they travel (bus, car or rail), which route and when. This technology ties into BCT's primary function – to give the best customer service by helping travelers make efficient use of time while waiting for a bus. Knowing when a bus will arrive or depart helps reduce traveler anxiety.

**Status:** The CAD/AVL system enables BCT to disseminate and provide bus arrival and departure times, delays and other traveler related information to provide improved customer service. CAD/AVL project scope includes PASs at three (3) major transfer locations and real-time information delivered through Interactive Voice Response (IVR), website, email, text messaging and mobile phone apps.

### Traffic Signal Priority System (TSP)

TSP is an ITS strategy providing buses preference at traffic signals when they arrive at intersections or under certain conditions. BCT expects this technology to reduce bus delays and maintain schedules with minimum impact on cross street traffic. TSP will improve mobility, reliability and efficiency.

**Status:** BCT is actively collaborating with its regional partners such as FDOT and Broward MPO, as well as Broward County Traffic Engineering to determine its' potential application and benefits. Transit Division will begin testing this technology with the traffic light system once the CAD/AVL system is fully operational.

### Smart Cards

Smart Cards are replacing magnetic stripe cards as the fare collection system of choice. Smart Cards look similar to credit cards and are equipped with a programmable memory chip that performs several functions: holding instructions-value, self-monitoring and creating an electronic bill record. BCT is currently investigating mobile device ticketing options and Smart-Card technology, which allows more flexibility for payments to be accepted by several transit systems in the region using a variety of payment methods.

**Status:** New technologies and a wider array of payment methods are currently under review. BCT issues photo identification cards for fixed-route users deemed eligible for reduced fare based on age and/or disability. Presenting the photo ID to bus drivers and/or bus pass vendors enables users to purchase reduced fare passes.

BCT Bus Pass is a credit-card size fare card with a magnetic swipe. It is a cost-savings pass for daily, unlimited travel for a specific period of time:

Passengers who prefer online trip planning assistance for travel on BCT buses can log on to Google Transit™ at [www.google.com/transit](http://www.google.com/transit). BCT offers riders online trip planner as an alternative to driving directions. Passengers start by entering the starting and ending destination and expected departure or arrival time. Google Transit™ will provide up to three (3) suggested trip plans featuring trip maps, transfer instructions, and estimated arrival times.

Bus passengers and authorized vendors can purchase bus passes online after creating an "Access Broward" account. Visit [www.broward.org/bct](http://www.broward.org/bct) and click on "Fares," then select "Bus Pass Purchase." Broward County Transit (BCT) bus passes can be ordered online by making an electronic payment. Transit riders can order only 10-Ride, 7-Day, 31-Day Adult, 10-Ride Premium and 31-Day Premium bus passes. Reduced fare bus passes (Youth/Senior/Disabled/Medicare/College Student) must be purchased in person at the main terminal or authorized vendor locations as valid I.D. is required for age, student status and/or disability verification. Authorized bus pass vendors are able to purchase all bus passes online with the exception of the All-Day bus pass which can only be purchased onboard the bus.

When an online purchase is made, the customer will be sent an e-mail confirming the order. Standard shipping via the U.S. Postal Service (USPS) is free. Authorized bus pass vendors have the option of bus passes being shipped for free by USPS or by secure delivery for a graduated rate.

Online orders are usually processed within three business days. For orders shipped within the U.S., please allow 7-10 business days to receive your bus pass.

Online transaction information is processed using a 128-bit “Secure Socket Layer” (SSL) certificate. This protection makes it extremely difficult – if not impossible – for anyone to intercept personal or credit card information.

All online bus pass purchases are final; bus passes cannot be exchanged or refunded. BCT does not assume responsibility or liability for bus passes that are lost during shipping. Under Florida law, e-mail addresses are public records. If customers do not want their account registered email addresses released in response to a public records request, they should not register to purchase bus passes online.

BCT’s Customer Relations and Communications Section develops and implements marketing, advertising and public relations programs to provide the public with information about current, new and enhanced bus service, special projects and events and benefits of riding public transportation. This section responds to a myriad of client inquiries and provides personal trip planning through the client information telephone center and Google Transit™ accessible on BCT’s web site.

Improvements are ongoing at [www.broward.org/bct](http://www.broward.org/bct). Its redesign and more user-friendly layout have resulted in continued increases of monthly visits. Enhancements include “Transit Flash,” a monthly e-newsletter sent to a client e-mail database with up-to-date information online bus pass purchasing and translation from English to Spanish and Creole.

Certification – How are individual certifications and registrations coordinated for local TD transportation services?

TD Trips - Pursuant to Chapter 427 Florida Statutes, Broward County as the CTC under direction from CTD and in cooperation with the LCB, developed local eligibility guidelines. CTC requires a written application for TD eligible clients, of whom there were 1,762 registered clients with TOPS! Door to door paratransit service and 1,674 registered TD Bus Pass Program. CTC and LCB have an established eligibility appeal process for clients. CTC, in cooperation with the LCB, established a five (5) member review committee appointed by the LCB for TD eligibility appeals if so desired by the applicant. Applicant may request a review of the application by CTC program manager. TOPS! performed over 82,801 TD trips.

Eligibility Records – What system is used to coordinate which individuals are eligible for special transportation services in the community?

**ADA:** ADA Eligible Trips - BCT is responsible for providing complementary paratransit services under the Americans with Disabilities Act of 1990. Clients under this service are eligible based upon Federal ADA Rules and Regulations. There were 9,517 eligible ADA clients registered with TOPS! paratransit service. TOPS! Performed 509,848 ADA trips.

ADA eligibility is determined by applicant's functional limitations in demonstrating ability to use a fixed-route bus and/or navigate the fixed-route system. Applicants complete a written application. A physician of the applicant's choice completes the medical section. Completed applications are reviewed by a third-party BCT-contracted medical functional assessment facility. Those applicants not receiving presumptive approval are sent for an assessment to determine appropriate service - ADA paratransit or fixed-route bus service. Assessments are conducted by a team of specifically trained professionals including physical and occupational therapists and comprise functional, cognitive, visual and respiratory evaluations. When determined applicant is not eligible for ADA paratransit service and fixed-route service is indicated, travel training is offered at no cost to applicant. Applicants who qualify and are enrolled in ADA paratransit service must apply for re-certification every three (3) years. CTC has established an eligibility appeals board that meets as needed. BCT's Paratransit Services Section staff processed 10,470 applications and approved 6,927 applications for ADA and TD paratransit service this reporting period.

## Origin to Destination Service

Door-to-Door service is the standard transportation option for all passengers. Riders are escorted over the first threshold of the main entrance to the destination. Drivers are not to go upstairs, into houses, nursing homes or doctor's offices, etc. to locate riders. If the pick-up address is located inside a gated community or requires special access, it is the rider's responsibility to arrange entry for the vehicle. If a vehicle is unable to enter the pick-up area and the rider fails to meet the vehicle, the trip is considered "No-Show" (see "No-Show" section).
