

NEEDS ASSESSMENT – FUTURE PROJECT LIST

Commitment 2040 identifies a variety of regionally significant projects that have been determined to be financially feasible, for which Federal funds will be sought. The plan also lists a number of regionally significant projects that cannot yet be funded. In addition, Broward MPO has conducted significant outreach with area communities in identifying where transportation needs exist but for which further research and vetting is necessary. This needs assessment is further discussed below.

A substantial number of potential projects were identified in Broward MPO's prior LRTP, *Transformation 2035*, relative to bicycle, pedestrian, greenway, non-regional transit, roadway, ITS, and Broward County Transit improvements. Since that time, Broward MPO has conducted additional outreach with the various communities and stakeholders in the Broward planning area to solicit feedback on the projects and their feasibility. As a result, some additional projects were identified while others have since been omitted from the 2035 plan list.

It should be noted that over the last number of months of the *Commitment 2040* development, Broward MPO has continued to process eligible projects from the 2035 project list and moved them into its Transportation Improvement Program (TIP) process. The TIP is a comprehensive list of federal, state and locally funded transportation projects. Florida DOT's Work Program is used to produce the Broward MPO's five-year TIP. Many improvements identified in the 2035 plan have progressed and moved into the existing TIP as mobility projects. As a result, certain projects may have been removed from the 2040 list referenced below.

BICYCLE IMPROVEMENTS LIST

Source	Project Name	From/To	Project Cost 2012 \$	Provided Feedback
Fort Lauderdale	CITY-WIDE SECONDARY Rd BIKE ACCOMMODATIONS	CITY-WIDE SECONDARY Rd BIKE ACCOMMODATIONS (CITY-WIDE to CITY-WIDE)	\$ 28,596,000
