# GUIDING PRINCIPLES

## **Our Mission**

To collaboratively plan, prioritize, and fund the delivery of diverse transportation options.

## **Our Vision**

Our work will have measurable positive impact by ensuring transportation projects are well selected, funded, and delivered.

# TRANSPORTATION IMPROVEMENT PROGRAM

## FY 2025 - 2029

The Transportation Improvement Program has been developed consistent with federal and state requirements and approved by the Broward MPO on July 11, 2024.

A handwritten signature in blue ink, appearing to read "Yvette Colbourne", is positioned above a horizontal line.

**MPO Chair, YVETTE COLBOURNE**

The preparation of this report has been financed in part through grants from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation, under the Metropolitan Planning Program, Section 104(f) of Title 23, U.S. Code. The contents of this report do not necessarily reflect the official views or policy of the U.S. Department of Transportation.

## **EXECUTIVE SUMMARY**

### **Introduction**

The Broward Metropolitan Planning Organization (MPO)'s Transportation Improvement Program (TIP) is a five-year program that prioritizes and documents the funding of transportation improvement projects the region expects to build over the next five years. The projects include reconstruction, maintenance, and operation of major highways, arterials, and intersections; maintenance and expansion of the public transit, aviation, and port systems; construction for bicycle paths, and improvements for pedestrians within the Broward region. The TIP is a tool to advance projects from Long Range Transportation Plan (LRTP) to a short-range five-year program through the Multimodal Priorities List (MMPL). All TIP projects are evaluated to assure consistency with the goals and objectives of the LRTP 2045. The LRTP 2045 is also known as Commitment 2045 Metropolitan Transportation Plan (2045 MTP).

The Broward MPO is the agency responsible for transportation planning, intergovernmental coordination, and transportation funding allocations in Broward County. Each year, the MPO updates the TIP to decide how to spend federal, state, and local transportation funds for capital projects. Guided by the Broward MPO's goals and objectives, the Broward MPO works with the public, planning organizations, government agencies, elected officials, and community groups to develop the TIP.

### **Federal Fiscal Years FY 2025-2029 TIP Overview**

Investments included in the TIP (excluding information only projects) with funding from federal (Federal Highway Administration (FHWA), Federal Rail Administration (FRA), and Federal Transit Administration (FTA)), state and local sources are in excess of \$5.7 billion, covering aviation, bicycle/pedestrian, highways, seaport, rail, and transit. The TIP funds a total of 441 projects. Figure ES-1 shows that five funding sources are used to implement projects in the TIP FY 2025-2029. Funding sources "State" account for about 37% of the TIP. Figure ES-2 shows how the investments for FYs 2025-2029 are distributed across transportation modes.

**FUNDING SUMMARY BY SOURCE**

**Figure ES-1 Funding Summary by Source**

**FUNDING SUMMARY BY MODE**

**Figure ES-2 Funding Summary by Mode**

Highways and bicycle/pedestrian projects worth about \$4.1 billion account for nearly 70% of the total funding amount programmed in the five-year period. Of this, \$3.5 billion is devoted to the Strategic Intermodal System (SIS) roadways.

The TIP provides the transit program with about \$372 million making up 7% of total programmed funding amount to address the capital needs prioritized by Broward County Transit (BCT), South Florida Regional Transportation Authority (SFRTA) and the City of Fort Lauderdale transit agencies. The transit program is predominantly dedicated to maintaining a state of good repair for all assets throughout the transit system and transit operation.

The TIP invests \$1.0 billion representing about 18% of total investments to support rail projects for studies, maintenance, operation, and capacity improvements.

The TIP programs \$257 million accounting for 4% of total investments to support facility preservation, capacity improvements, and operations for the four airports, Fort Lauderdale Executive, Fort Lauderdale/Hollywood International Airport, North Perry Airport, and Pompano Beach Airport.

The TIP includes \$48 million accounting for 1% of total investments to support the Port Everglades projects for maintaining, operating, and improving its facilities.

The TIP addresses all Federal required performance measures and targets including safety (PM1), bridge and pavement (PM2), system performance (PM3), transit asset management (TAM), and transit safety.

### **Broward MPO Attributable Funds**

During FYs 2025-2029, the Broward MPO plans to fund 59 projects with its attributable funds:

- 41 bicycle/pedestrian projects worth approximately \$83 million
- 6 major infrastructure projects worth approximately \$19 million
- 11 transportation planning projects worth approximately \$47 million
- 1 transit projects worth approximately \$9 million

### **Highlights of Projects and Programs**

The TIP includes details regarding projects that will be implemented during next five years. Some highlights includes:

#### **Projects**

- \$221 million to add lanes on SR-869/SW 10TH ST FROM FL TURNPIKE/SAWGRASS EXPRESSWAY TO W OF I-95
- \$331 million to interchange improvements on SR-9/I-95 from South of SW 10<sup>th</sup> Street to North of Hillsboro BLVD.
- \$1 billion to widen the Sawgrass Expressway from South of NW 8th to Powerline Road
- \$297 million to implement Broward Commuter Rail along the FEC corridor
- \$100 million for rolling stock for Tri-Rail

#### **Programs**

The TIP provides funds for projects in the Broward MPO Complete Street Master Plan and the Broward MPO Complete Streets and other Localized Initiatives Program (CSLIP) to improve bicyclist and pedestrian safety.

#### ***Broward MPO Complete Street Master Plan (CSMP) Program***

The TIP funds 11 projects in Broward MPO CSMP Program worth approximately \$51 million. The focus of the Program is to implement active transportation projects and guide them from the planning phase through design and construction. Projects under this program include bicycle and pedestrian facilities and other Complete Streets elements that further complement the goals and vision of the 2045 MTP and other initiatives such as Congestion Management Process (CMP) / Livability Planning (LP) corridor studies.

*Broward MPO Complete Streets Local Initiatives Program (CSLIP)*

The TIP invests about \$69 million to fund 32 projects from the program. The MPO’s CSLIP provides funding for small local transportation projects which improve the safety and mobility for all transportation users in Broward. This competitive grant program can fund projects such as complete streets, traffic calming and intersection improvements, ADA upgrades, mobility hubs, bike racks, and technology advancements such as transit signal priority and traffic control devices.

**Public Involvement**

The Broward MPO ensures compliance with the public involvement requirements outlined in 23 Code of Federal Regulations 450.316(b) (1) & 450.324(c) and Section 339.175(7), Florida Statutes. Public involvement for the development of the TIP is received through regularly scheduled meetings of the MPO Governing Board and its advisory committees. Table ES-1 shows critical meetings/steps in the TIP development process.

**Table ES-1 Important Dates in the TIP Development Process**

<b>Date</b>	<b>Activity</b>
<b>March 1, 2023</b>	Submitted the Draft FY 2024 MMPL to FDOT
<b>March 1, 2023</b>	Weekly meeting with FDOT to discuss the FY 2024 MMPL
<b>April 26, 2023</b>	TAC/CAC - Presentation for the FY 2024 MMPL
<b>May 11, 2023</b>	MPO Board - Presentation for the FY 2024 MMPL
<b>May 10, 2023</b>	Submitted the Draft MMPL to the TAC and CAC for review
<b>May 24, 2023</b>	TAC and CAC approved the FY 2024 MMPL
<b>May 25, 2023</b>	Submitted the Draft FY 2024 MMPL to the MPO Board for review
<b>June 8, 2023</b>	MPO Board approved the FY 2024 MMPL
<b>June 13, 2023</b>	Submitted the approved MMPL to District 4
<b>October 12, 2023</b>	Received the Draft Tentative Work Program FY 2025-2029
<b>October 25, 2023</b>	TAC/CAC approved the Draft Tentative Work Program FY 2025-2029
<b>November 2, 2023</b>	MPO Board approved the Draft Tentative Work Program FY 2025-2029
<b>April 9, 2024</b>	FDOT District 4 provided the FY 2025 TIP download files
<b>June 6, 2024</b>	Notice of public meetings and comment period
<b>June 6, 2024</b>	Makes the FY 2025 TIP available for public comment and uploads it on GAP

<b>Date</b>	<b>Activity</b>
<b>June 26, 2024</b>	TAC and CAC recommend MPO Board to approve the TIP
<b>July 11, 2024</b>	MPO Board approves TIP FY 2025-2029
<b>July 11 - 15, 2024</b>	Compile public feedback
<b>July 15, 2024</b>	The MPO Submitted the Approved TIP FY 2025-2029

**TIP Revision**

The TIP may be revised due to changes in project status, project cost, and/or available revenues. These changes can be either a TIP amendment or an administrative modification. Amendment(s) may be for the purpose of deleting projects, adding projects, advancing projects, revising the funding of projects, or modifying the scope or limits of projects. As the MPO Board adopts the amendments, these amendments are incorporated into the Interactive TIP and posted on the BMPO’s website at [www.BrowardMPO.org](http://www.BrowardMPO.org) under ‘What We Do’ tab, select ‘Core Products’, and select the ‘Transportation Improvement Program’ tab under ‘Amendments.’ An administrative modification is required if changes don’t satisfy the TIP amendment criteria. These administrative modifications are approved by the MPO Executive Director and incorporated into the TIP as well.

## 2. NARRATIVE

### 2.1 Purpose

The **Transportation Improvement Program (TIP)** is authorized through the federal **Infrastructure Investment and Jobs Act (IIJA)** legislation, signed into law November 16, 2021 and Florida Statutes as follows:

- 23 United States Code (U.S.C.) 134 (j) and (k)(3) and (4) (*Transportation Improvement Program*)
- 23 U.S.C. 204 (*roads on federal lands to be included in the TIP where applicable*)
- 49 U.S.C 5304 (*Transportation Improvement Program*)
- 23 C.F.R. [Code of Federal Regulations] 450.320, 450.324, 326, 328, 330, and 332 (*Transportation Improvement Program*)
- 23 C.F.R. 500.109, 500.110, and 500.11 (*Congestion Management System, Public Transportation Management System, and Intermodal Management System, respectively*)
- Subsection 339.175(5) and (7), Florida Statutes (F.S.) (*Transportation Improvement Program*)
- Subsection 339.135(4) (c) and (4) (d), F.S. (*Work Program*)
- Subsection 427.015(1), Florida Statutes (*Transportation Disadvantaged*)
- Subsection 334.30(9), Florida Statutes (*Public Private Partnerships*)

The TIP provides a prioritization of projects covering a five-year period that is consistent with the Broward MPO 2045 MTP [23 C.F.R. 450.104]. It contains all transportation-related projects to be funded by Title 23 and Title 49 funds and regionally significant projects proposed for implementation in the next five years. Regionally significant projects are projects for which FHWA or FTA approval is required whether or not the projects are to be funded through Title 23 and 49, U.S.C. and per Title 40, Code of Federal Regulations, Part 93 (without federal funds). The TIP is adopted by the Broward MPO and covers the state fiscal years (FY) 2025 to 2029 (that is, July 1, 2024 - June 30, 2029). As required by federal regulations, projects receiving federal funds in the TIP follow the federal fiscal calendar which begins October 1 and ends September 30. As a result, the TIP FY 2025-2029 takes full effect on October 1, 2024. The state and federally funded projects listed within the TIP are in accordance with the Florida Department of Transportation's (FDOT's) Five-Year Work Program. Listed TIP projects include:

- Transit capital improvements and operating expenses, including transportation disadvantaged programs and services,
- Roadway and bicycle/pedestrian improvements and maintenance,
- Commuter rail improvements and operating expenses,
- Airport and seaport improvements;

Section 2.5.2 includes the lists of Multimodal Priority projects covering the different modes of transportation used to develop the TIP. These lists contain projects that are to be included in the future TIPs as additional funds become available. The Broward MPO's TIP is multimodal in nature, addresses both local and regional concerns, and was developed through the input and involvement of the following governmental agencies: FDOT, Broward County, South Florida Regional Transportation Authority (SFRTA), Southeast Florida Transportation Council (SEFTC), the municipalities within Broward County, and Broward County Urban Planning and Redevelopment, Transit, Aviation, and Port Everglades, just to name a few. All projects are listed in alphabetical order by project name.

## **2.2 Financial Plan**

The TIP is financially constrained for each year, and the federal- and state-funded projects in this document can be implemented using current and proposed revenue sources based on the FDOT Final Tentative Work Program for FY 2025-2029 and locally dedicated transportation revenues. The MPO develops the TIP in cooperation with the State and the transit operators who provide the MPO with estimates of available federal and state funds in order for the MPO to develop its financial plan [23 C.F.R. 450.326(a) and Subsections. 339.175(8), F.S.]. A comprehensive Summary of Funds is displayed in Chapter 4 demonstrating that there are sufficient funds to implement the transportation system improvements [23 C.F.R.450.326 (k), 23 C.F.R. 450. 326 (j), and S. 339. 175 (8)(c)(3) F.S]. Funds are presented in Year of Expenditure (YOE) dollars (adjusted for inflation from present time to the year of construction for a more accurate cost estimate). The Broward MPO will continue to pursue opportunities where funds might be added to enhance transportation for all users. Innovative financing resources such as the Public Private Partnership, which is evolving in Florida, is also considered as an alternative funding source to fund and accelerate project delivery.

## **2.3 Project Selection**

Projects in the TIP are selected for implementation from the MMPL (Multimodal Transportation Priorities list), in accordance with Title 23 of the United States Code (USC), section 134, as amended by the (IIJA) legislation, and Title 23 of the Code of Federal Regulations, Section 450.332(b). As a region with a population of over 200,000 individuals, Broward County is part of the Miami Urbanized Area (UZA). This UZA is also known as a Transportation Management Area (TMA). The MPO selects all 23 U.S.C and 49 U.S.C. Chapter 53 funded projects for implementation in consultation with FDOT and public transit operators (except projects on the National Highway System and Tribal Transportation Program). Tribal Transportation Program, Federal Lands Transportation Program, and Federal Lands Access Program projects are selected by the appropriate federal agencies in cooperation with FDOT and the MPO. Projects within this area that are on the National Highway System are selected by the FDOT in cooperation with the MPO. The Bridge Program, State Strategic Intermodal System (SIS) and Interstate Maintenance Program are selected for implementation by the State of Florida, in cooperation with the MPO. Additionally, the MPO focuses its prioritization of projects on those that are transit-focused, compatible with the livable communities concept, regionally significant, and those that are part of or connected with the SIS.

## 2.4 Consistency with other Plans

The TIP is consistent with the Broward MPO's *Commitment 2045* Metropolitan Transportation Plan (MTP) [23 C.F.R.450.326(n)(1)] and crosses reference projects with corresponding MTP projects by providing MTP page numbers [s.339.175(8)(c)(7)]. The TIP is also consistent to the maximum extent feasible, with the Seaport Master Plan, the Airport Master Plans, the Broward County Comprehensive Plan, public transit development plan, and local government comprehensive plans [s. 339.175(8)(a) F.S.].

This consistency is achieved through the Multimodal Priorities List (MMPL) that is updated annually by the Broward MPO. The MMPL serves as a bridge between the MTP and the TIP containing the prioritized projects for inclusion in TIP. The MTP is the primary source for identifying priority projects for inclusion in MMPL list. The MTP provides a coordinated planning effort to mitigate traffic congestion, minimize reconstruction of existing facilities, and allow for adjustment of growth management policies and transportation strategies. The plan is developed in conjunction with the strategic planning factors identified in federal legislation [23 U.S.C. 134(d)]. The MTP identifies improvements in pedestrian, bicycle, transit, roadway, and freight movement networks. The MTP is coordinated with the State Transportation Plan, Regional Transportation Plan, Broward County Comprehensive Plan, Transit Development Plans, Bicycle Plan, Pedestrian Plan, Greenways Plan, Seaport Master Plan, and Airport Master Plans. In this way, it is the Broward MPO Governing Board that sets project priorities to be programmed by the State into the Work Program and reflected in the TIP.

The MTP guides the expenditure of federal, state, and local transportation funds. Once separate, the urbanized areas in Miami-Dade, Broward, and Palm Beach counties were merged to form the Miami UZA/TMA as reflected in the 2020 U.S. Census. The Miami UZA/TMA extends along the east coast from Miami-Dade County to the southeast corner of Martin County. In January 2005, the Southeast Florida Transportation Council (SEFTC) was created by the Miami-Dade, Broward, and Palm Beach MPOs to specifically address and coordinate regional transportation issues on behalf of the residents of Southeast Florida. One of SEFTC's primary responsibilities is the development of a Regional Transportation Plan (RTP). An essential element of the RTP is the designation of a Regional Transportation Network. All projects that are on the Regional Transportation Network are eligible for State Transportation Regional Incentive Program (TRIP) funding.

As required by federal law, the Broward MPO completed its MTP update with a horizon year of 2045 and the Broward MPO Board adopted the 2045 MTP, on December 12, 2019. The 2045 MTP is intended to continue the vision set in the 2040 LRTP. The plan was developed to facilitate multi-modal travel opportunities in Broward County other than single occupant vehicle. The Plan is conceptual in nature and based on travel demand modeling procedures that do not address details of individual projects being considered for implementation. The 2045 MTP Cost Feasible Plan (Map 2-1 and 2-2) shown in the 2045 Roadway and Transit Cost Feasible Plan includes projects and programs for which a reasonable expectation of funding has been identified. The 2045 MTP also includes illustrative projects that under current funding conditions are not financially feasible. Once additional funds become available, the Plan may be amended to include these projects in the cost feasible plan. For additional information on the 2045 MTP, please visit

<http://browardmpo.org/index.php/commitment-2045-metropolitan-transportation-plan> .

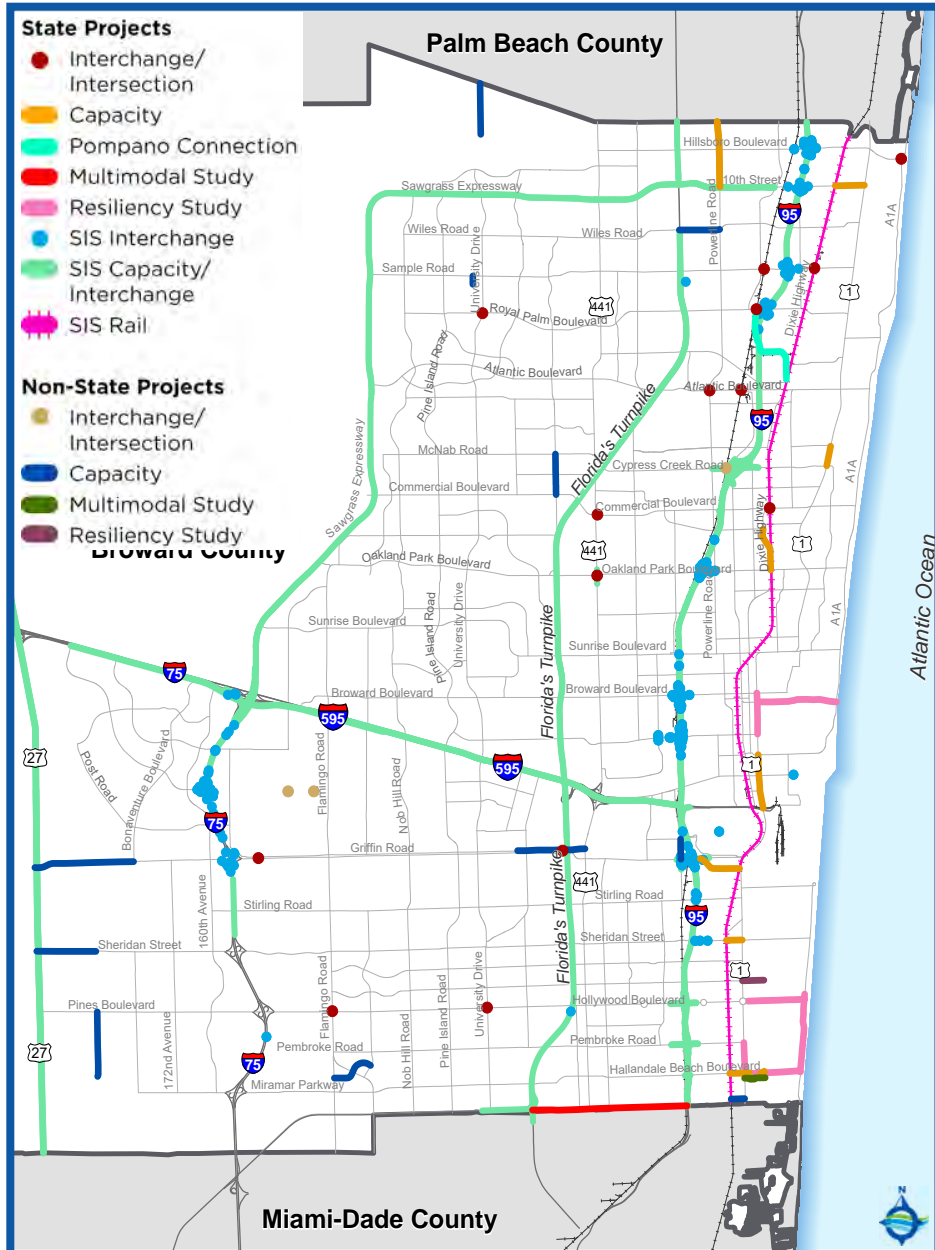

The 2045 MTP's Vision is to “transform transportation in our planning area to achieve optimum mobility with emphasis on mass transit while promoting economic vitality, protecting the environment, and enhancing quality of life.” Key features of the 2045 MTP include incorporating complete streets, bicycle, and pedestrian needs as a cornerstone in our efforts to plan a transportation system that provides multi-modal options for all of our residents. Through the Complete Streets and other Localized Initiatives Program, as outlined in the MTP, an active approach to promote and implement the 2045 MTP recommendations is taken. These efforts emphasize the integration of transit and land use to alleviate multi-modal congestion.

The MTP was amended by the Broward MPO Board on January 28, 2021.  
The MTP was amended by the Broward MPO Board on March 10, 2022.  
The MTP was amended by the Broward MPO Board on February 9, 2023.  
The MTP was amended by the Broward MPO Board on February 8, 2024.

# 2045 MTP Cost Feasible Plan

## Map 2-1: 2045 Cost Feasible Roadway Plan

## Map 2-2: 2045 Cost Feasible Transit Plan

These maps are for informational purposes. For complaints, questions, or concerns about civil rights or nondiscrimination; or for special requests under the Americans with Disabilities Act, please contact Carl Ema at (954) 876-0052 or emac@browardmpo.org.

## 2.5 Project Priorities

Projects selected for inclusion in the TIP are consistent with federal requirements [23 C.F.R 450.322(b)] and the FDOT Adopted Work Program. These projects are financially feasible for the appropriate funding category and represent the MPO's project priorities. The projects in the Multimodal Priorities list are evaluated and ranked based upon a screening process that identifies projects that are most important or most significant.

The Broward MPO's Multimodal Priorities List contains projects, in a priority order, that are to be considered for the TIP when funding becomes available. The Multimodal Priorities List is based on the priorities set in the Cost Feasible Plan (CFP) component of the 2045 MTP. The 2045 MTP established the methodology for prioritizing projects in the Multimodal Priorities List.

### 2.5.1 Methodology Overview

The 2035 LRTP established a new paradigm to provide a balanced transportation system with greater investments toward alternative modes such as transit, bicycle and pedestrian facilities, and smart growth policies. Both the 2040 MTP and the 2045 MTP follow this set standard. In order to guarantee transportation investments are balanced among the transportation modes, the MTP established six funding programs including Roadway, Transit, Systems Management/Safety, CSLIP, CSMP, and Mobility Hubs. Percentages agreed upon in the MTP 2045 by the MPO Board (during the MTP's development) were used to distribute MPO attributable revenue among the six programs. These percentages are presented in the Table 2-1 Program and Funding Allocation. Projects within each program were prioritized according to criteria established for each individual program. The following describes the prioritization process for each of the six programs.

**Table 2-1 Program and Funding Allocation**

<b>Program</b>	<b>Percentage</b>
Roadway	20%
System Management/Safety	15%
Transit	10%
CSLIP	20%
Mobility Hubs	10%
CSMP	25%

**Complete Streets and Localized Initiatives Program (CSLIP)** - CSLIP provides funding for small local transportation projects that will improve safety and mobility for all transportation users. The MPO facilitates an annual competitive grant program to fund projects such as Complete Streets projects, traffic calming and intersection improvements, ADA compliance upgrades, bike racks, and technology advancements (e.g., transit signal priority and traffic control devices). Projects funded through this program are generally around \$3 million each.

CSLIP uses an objective tool to evaluate and rank the application submitted. This tool was developed with direction from the Board and uses several geographic datasets to score the projects. Evaluation criteria weights are 20% for safety, 20% for accessibility, 17% for equity, 17% for mobility, 13% for economic vitality, and 13% for environmental stewardship. For details, please visit the CSLIP policies link at:

[https://browardmpo.org/images/WhatWeDo/CSLIP/Round\\_8\\_Policies.pdf](https://browardmpo.org/images/WhatWeDo/CSLIP/Round_8_Policies.pdf) and the evaluation chart at:  
[https://www.browardmpo.org/images/WhatWeDo/CSLIP/CSLIP\\_Evaluation\\_Criteria\\_Table.pdf](https://www.browardmpo.org/images/WhatWeDo/CSLIP/CSLIP_Evaluation_Criteria_Table.pdf).

**Complete Streets Master Plan (CSMP)** – Complete Streets are built for all users, emphasizing the safe and efficient movement of people including motorists, pedestrians, bicyclists, and transit riders. The MPO developed a CSMP to guide future investments by creating a prioritized list of projects based on technical, data-driven analysis, selected criteria and community and local partner input. It prioritizes investment based on equity and demand analysis, ensuring the mobility needs of historically disenfranchised and underrepresented communities are clearly included in the Plan, Funding is allocated to this program based on the prioritized order established in the CSMP. Projects funded through this program are generally greater than \$2 million.

Prioritization is a process of scoring and ranking the Complete Streets projects and Super Connectors based on identified criteria or variables. The criteria is consistent with the goals and objectives established in the Commitment 2040 LRTP, continues in the Commitment 2045 MTP, and builds upon the format and content of the CSLIP evaluation criteria. The criteria between the two differ slightly but fit within the same theme. For the CSMP prioritization criteria, please refer to link at:  
[http://www.browardmpo.org/images/CSMP/CSMP\\_prioritization\\_criteria.pdf](http://www.browardmpo.org/images/CSMP/CSMP_prioritization_criteria.pdf)

**Roadway Program/Transit Program** – Funding for the roadway program is allotted to transportation improvements that increase roadway capacity by building new roadways, adding lanes to existing roadways, or building/expanding interchanges and major intersections. Funding may also be allocated to concept studies, preliminary engineering, and design to support the development of roadway capacity projects. The transit funding program includes transit capital investments such as transit vehicles, transit technology investments (e.g., fare collection equipment, automatic passenger counters, vehicle location, etc.), and roadway improvements designed to serve as exclusive lanes for transit services (for which operating funding has been identified).

Projects in the Roadway Program and Transit Program follow the same prioritization process established in the MTP 2045. The prioritization criteria is based upon the MTP's Goals and Objectives, adopted by the MPO Board on May 10, 2018, and the Performance Measures developed to ensure consistency with the FAST Act. These six measures, which are referred to as planning factors, were identified as best representing the MTP's Goals and Objectives and are: (1) Mobility: Providing high speed and reliable travel between major activity centers and destinations. The focus of mobility is to get from one place to another as quickly as possible and typically is characterized by longer trips. (2) Accessibility: Providing access and circulation within higher-density, mixed-use places; tend to be shorter trips. (3) Safety: Reducing the number and severity of crashes. (4) Equity: Ensuring that benefits and impacts are shared among Broward's population. (5) Environmental Stewardship: Protecting the natural and built environment. (6) Economic Vitality: Supporting economic activity and businesses.

Each of the six planning factors were given a weighted value to align it with its importance to the community. The weighting values were determined through an interactive polling process with the Technical Advisory Committee (TAC), the Citizens' Advisory Committee (CAC), and the MPO Board. The values obtained were averaged and resulted: Mobility – 20.5, Accessibility – 20.7, Safety – 18.7, Equity – 14.3, Environmental Stewardship – 12.8, and Economic Vitality – 13.0.

Six matrixes with prioritization criteria were developed for each planning factor respectively. These matrixes include evaluation criteria, assessment scoring, and scoring guidelines. Through several discussions with the TAC and CAC, the prioritization criteria were revised and shown in tables 1 through 6 in the MTP Technical Report Project Prioritization Process. Several key changes that resulted from this process were:

- The inclusion of additional Safety criteria to better reflect the importance of this issue;
- The addition of a positive criteria for projects that may improve environmental conditions;
- Clarifications to several criteria to ensure that both roadway and transit projects were evaluated; and
- Adjustments to the Sea Level Rise Mitigation criteria to account for projects that improve the resiliency of infrastructure to extreme weather, regardless of the project's location in a defined vulnerability area.

It is important to note that whereas this process has been developed for the 2045 MTP, these prioritization criteria and planning factor weightings can change over time as the Emphasis Areas stressed by the federal and state government change and local stakeholder preferences change. Future MTPs will address these changes with adjustments to these factors. In addition to an overall process, the Broward MPO project prioritization criteria were developed with the following considerations:

- Projects are to be evaluated regardless of their mode (roadway, transit, Transportation Systems Management and Operations (TSM&O), etc.).
- Scores are to be normalized to account for variance in maximum points awarded in each planning factor group.

- An initial recommendation of rounding negative scores to 0 was reconsidered at the TAC's request to better reflect the potential negative impacts of a project. Thus, negative scores are carried through.

For details, please refer to 2045 MTP Project Prioritization Technical Report at:

<http://www.browardmpo.org/index.php/mtp-documents>

**Systems Management/Safety Program** – Funding allocated to this program is to be focused on Transportation Systems Management and Operations (TSM&O), a program based on actively managing the multimodal transportation network, measuring performance, streamlining and improving the existing system, promoting effective cooperation/collaboration, and delivering positive safety and mobility outcomes to the traveling public. Example projects funded in this program include signal timing/coordination and major safety improvements. Funding in this program is also set aside to support studies to identify, prioritize, and implement safety improvements. TSM&O projects on-state highway system were selected and prioritized by the FDOT. Safety improvement study projects were selected and prioritized according to the severity index as part of the Commitment 2045 MTP countywide safety analysis of roadway segments and intersections both on and off the state highway system. The severity index is a measure that looks at total crashes and crash severity. It uses a weighted average (higher score for incapacitating and fatal crashes) to develop an index that ranks locations in terms of their importance for future safety analysis and improvements. Safety studies are proposed at intersections and on roadway segment based on the identified crash severity in order identify short- and long-term safety improvement projects. These projects will be eligible for funding allocated to the Systems Management/Safety Program, as discussed previously. MPO staff have developed an annual Roadway Safety Audit (RSA) process and are coordinating with FDOT District 4 and other local partners to lead these studies. For Systems Management/Safety details, please refer to 2045 MTP at: <http://www.browardmpo.org/index.php/mtp-documents>.

**Mobility Hubs Program** – The Mobility Hubs Program provides funding for projects that are near frequent service transit, in areas with high development potential, and are at a critical point for travel demand or transfers within the transit system. Mobility Hubs integrate different modes of transportation (walking, bicycling, transit, and automobiles) with investments in infrastructure that maximize first- and last-mile connectivity and help provide the physical framework for private investment in the redevelopment of surrounding properties. They emphasize pedestrian accessibility, support mixed-use development, and improve multimodal transportation connections that increase access to transit and decrease dependence on private automobiles. The MPO facilitates a biannual competitive grant program to fund studies and capital projects that have included pedestrian access and ADA compliance upgrades, bus shelters, bike infrastructure, and technology advancements. Projects funded through this program are around \$2 million each.

The Mobility Hubs Program uses an objective tool to evaluate and rank the applications submitted. This tool was developed in 2021 with direction from the Board and uses several geographic datasets to score the projects. For details, please visit the Mobility Hub link at: <https://www.browardmpo.org/funding-programs/mobility-hubs> .

### 2.5.2 Priorities List

The MMPL was presented to the MPO Board last year for consideration and approval. The MPO Board approved the MMPL at their June 8, 2023 meeting. For details, please refer to 7.1 Appendix A and the following link:

[https://www.browardmpo.org/images/WhatWeDo/TIP/2024\\_MMPL/Final\\_FY\\_2024\\_MMPL\\_9-14-2023.pdf](https://www.browardmpo.org/images/WhatWeDo/TIP/2024_MMPL/Final_FY_2024_MMPL_9-14-2023.pdf).

### 2.6 Implemented Projects – Annual Listing of Obligated Projects (ALOP)

The IIA [23 C.F.R. 450.334 and s.339.175 (8) (h), F.S.] requires the Broward MPO to publish the ALOP Report and to make it available for public review, on annual basis, no later than 90 calendar days following the end of the program year. In responding to the FAST Act directive, the FDOT prepared a listing of highway projects (including investments in pedestrian walkways and bicycle transportation facilities), and the MPO, working cooperatively with public transportation providers, developed a listing of transit projects, for which federal funds under 23 U.S.C or 49 U.S.C Chapter 53 were obligated during federal fiscal year 2023 (FFY23) between October 1, 2022 and September 30, 2023. A public notice for the release of the ALOP Report was published in the South Florida Times. The ALOP Report is presented in 7.2 Appendix B. A hard copy of the report is available at the Broward MPO and an electronic copy of the report is available at the BMPO's web site at:

[https://www.browardmpo.org/images/WhatWeDo/TIP/2024\\_TIP/FY\\_2023\\_ALOP.pdf](https://www.browardmpo.org/images/WhatWeDo/TIP/2024_TIP/FY_2023_ALOP.pdf).

### 2.7 Public Involvement and Interagency Consultation

The Broward MPO ensures compliance with the public involvement requirements outlined in 23 Code of Federal Regulations 450.316(b) (1) & 450.324(c) and Section 339.175(7), Florida Statutes. As part of its ongoing public involvement process, in November 2023, the Broward MPO Board reviewed FDOT's District 4 and Turnpike Enterprise Draft Tentative Work Programs, FY 2025-2029. Comments and concerns were forwarded to FDOT for entry into the records of FDOT's Public Hearing. The Technical Advisory Committee (TAC) and Community Advisory Committee (CAC) also reviewed FDOT's District 4 and the Turnpike Enterprise's Tentative Work Program at their October 2023 meetings.

A 30-day comment period was initiated on June 6, 2024 with a newspaper advertisement in the Broward Times, as well as Telemundo and Sun-Sentinel. A notice and an electronic copy of the TIP were posted to the Broward MPO website at: [www.browardmpo.org](http://www.browardmpo.org) under “What We Do” tab, “Core Produces”, and **Transportation Improvement Program (TIP)** tab or directly at <https://www.browardmpo.org/core-products/transportation-improvement-program-tip>.

As part of Public Participation Plan, the Broward MPO places Notice of Public Meeting for FY 2025-2029 TIP in the eight regional libraries in Broward County. The MPO also has made the TIP document available to the public for review at the Broward MPO office

and on the Broward MPO website. Prior to the adoption of the TIP on July 11, 2024 the Broward MPO also held public meetings during regularly scheduled meetings, providing the public with three opportunities to submit comments. The comment period closed at noon on July 11, 2024.

- ❑ **Technical Advisory Committee on Wednesday, June 26, 2024 at 2:30 p.m.**
- ❑ **Citizens Advisory Committee on Wednesday, June 26, 2024 at 6:00 p.m.**
- ❑ **Broward MPO Board on Thursday, July 11, 2024 at 9:30 a.m.**

The Interactive TIP Tool software is being utilized for TIP development and is a web-based interactive tool. This tool enhances opportunities for the general public to find information and comment on projects in the area, through the MPO's website.

The Broward MPO produced a fact sheet explaining the TIP process in both English and Spanish. The fact sheets are available as 7.3 Appendix C of this document, on the MPO's website, in the eight regional libraries, and distributed to our agency's e-mail database.

## **2.8 Certification**

The Broward MPO participates in a Federal TMA certification review process with the FHWA and FTA every four years. The MPO's planning process was reviewed at a site visit conducted by the FHWA and FTA on April 11, 2023. The certification review produced eight noteworthy practices, no corrective actions, and five recommendations. Of these, one recommendation related to the adopted TIP document and process. This recommendation from the Federal Review Team addressed a discrepancy between Federal and State guidance and stressed that all projects added to the TIP must come from the current MTP and cannot be added later to the MTP after a six-month period as currently allowed under State guidance. Going forward, with the support of our Federal funding partners, the MPO has committed to reinforcing the Federal guidance on this matter and continuing to work closely with FDOT to ensure planning consistency. Based on the overall findings from the TMA certification review in 2023, the FHWA and FTA jointly certified that the transportation planning process of the entire Miami Urbanized Area TMA, which includes the Broward MPO, substantially meets Federal planning requirements. The 2023 certification will remain in effect until August 2027. The full 2023 Certification Report can be found on our website at <https://browardmpo.org/federal-state-certifications>. The next TMA certification review will take place four years from now, in 2027.

The Broward MPO also participates in a State Joint Certification process that is conducted annually by FDOT District Four. The results from the most recent Joint Certification are anticipated to be available in the summer of 2024. Once available, the document containing the results of the Certification will be available at the bottom of the webpage at <https://browardmpo.org/federal-state-certifications>. As part of the last Joint Certification, the FDOT recommended that the MPO continue coordinating with them to streamline processes and

for increased regional coordination to take place between regional partners (specifically between the Broward MPO and FDOT District Four, the Palm Beach Transportation Planning Agency, and Miami-Dade Transportation Planning Organization) on regional activities within the UPWP and on invoice processing.

## **2.9 Congestion Management Process (CMP)**

The CMP is a structured process for analyzing congestion issues using an objectives-driven, performance-based approach as required in [23 CFR 450.320(a)(b)] Metropolitan Transportation Planning, Final Rule, and [S 339.175(6)(c)(1),F.S.]. The CMP identifies solutions to congestion problems on the state highway system and arterials on the local transportation network. It places emphasis on providing additional transportation alternatives to road capacity improvements wherever possible. As federally required, the CMP continually evaluates the transportation network, identifies congested areas, and recommends operational strategies and capital improvements using the following steps:

1. Identify the network
2. Develop regional objectives
3. Develop multimodal performance measures
4. Collect data / monitor system performance
5. Analyze congestion problems and needs
6. Identify and assess CMP strategies
7. Program and implement CMP strategies
8. Evaluate strategy effectiveness

The Broward MPO's CMP includes strategies beyond road widening to manage congestion including safety, mobility through multiple transportation modes (i.e., transit, bicycle, and pedestrian use, etc.), and reducing single occupancy vehicle (SOV) travel. The CMP advances analysis of the inter-relationship of multi-modal transportation and land use, leading to recommendations that take a comprehensive approach to implementing the Broward MPO's MTP. The annual development of the MPO's Multimodal Priorities List takes the results and recommendations of the CMP process into consideration as part of the TIP development process.

## **2.10 Transportation Disadvantaged (TD)**

Services for people who are transportation disadvantaged, located in Chapter 5.12 of this TIP, are developed pursuant to Subsection 427.015(1) F.S., and Rule 41-2.009(2) of the Florida Administrative Code (F.A.C.). In Broward County, federal, state and Broward County government funds will be spent on capital and operating expenses over the next five years to provide both TD and Americans with Disabilities Act (ADA) transportation services. Through these funds, people who qualify for either the Florida's TD program or the federal ADA are eligible to receive specialized transportation services. The Designated Official Planning Agency (DOPA) is the Broward MPO. It coordinates annually with the service provider, Broward County Transit, to update the Transportation Disadvantaged

Service Plan.

Broward County Government either purchases, subsidizes, or directly provides special transportation to eligible residents. Broward County, in its role as the Community Transportation Coordinator (CTC) for Broward County, serves the needs of transportation disadvantaged persons. The County Commission has designated the Paratransit Division of the Transportation Department as the responsible agency for administering all contracts for paratransit services and the management of the CTC program. The Director of the Transportation Department is empowered to act for the County Commission in these matters.

The Commission for the Transportation Disadvantaged (CTD) Trust Fund subsidizes a portion of the transportation cost for those who are transportation disadvantaged, for trips which are not sponsored by an agency, and only with a cash or in-kind match. These non-sponsored transportation funds are for "...persons who because of physical or mental disability, income status, or age are unable to transport themselves or to purchase transportation..." and includes children handicapped or at-risk as defined by FS 411.202.

The County also provides paratransit services in compliance with the Americans with Disabilities Act (ADA) of 1990. ADA/paratransit determination is based on a functional disability that prevents an individual from accessing and/or navigating public transit. The ADA requires the Transportation Department/BCT to offer complementary service to persons with disabilities who are unable to use the fixed-route bus system. The ADA paratransit service offers a level of service comparable to that provided to persons without disabilities who use the fixed-route system.

The LCB provides information, advice, and direction to the CTC on the coordination of TD services and development of service standards that are consistent with the needs and resources of the community.

## **2.11 Environmental Justice Analysis**

### **What is Environmental Justice?**

“Environmental Justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. This goal will be achieved when everyone enjoys:

- The same degree of protection from environmental and health hazards, and
- Equal access to the decision-making process to have a healthy environment in which to live, learn, and work.” – U.S. Environmental Protection Agency.

### **Background**

- [Executive Order \(E.O.\) 12898](#) mandates Federal agencies incorporate environmental justice (EJ) analyses into their policies, programs, and activities. Building from the framework of Title VI of the Civil Rights Act of 1964, which ensures nondiscrimination in Federal programs, EJ directives address how low-income and minority populations are affected by the actions of the Federal government with the goal of achieving environmental protection for all communities. E.O. 12898 directs Federal agencies to:
  - Identify and address the disproportionately high and adverse human health or environmental effects of their actions on minority and low-income populations, to the greatest extent practicable and permitted by law.
  - develop a strategy for implementing environmental justice.
  - promote nondiscrimination in Federal programs that affect human health and the environment, as well as provide minority and low-income communities access to public information and public participation.

Properly implemented, EJ principles and procedures improve all levels of transportation decision-making. It enhances the public-involvement process, strengthens community-based partnerships and provides minority and low-income populations with opportunities to learn about and improve the quality and usefulness of transportation in their lives. Further, EJ assists to avoid disproportionately high and adverse impacts on minority and low-income populations and mitigates avoidable negative impacts by identifying concerns early in the planning phase.

Federal EJ directives mandate fair and equitable processes and outcomes, and an effective EJ program has both a participatory component and a technical component. This report summarizes multiple analyses, outcomes, and activities that have been conducted as part of the planning process in accordance with EJ.

**Public Outreach (Participatory)**

*Public Participation Plan (PPP)*

Broward MPO’s current PPP sets forth specific measures to heighten public education and responsiveness in the transportation planning process. The Broward MPO recognizes that optimum participation begins early in the planning process and continues throughout. The public participation strategies in the PPP help to avoid, minimize, and mitigate project impacts by allowing the Broward MPO to identify issues while providing the best solutions. For additional information, the Broward MPO’s PPP document can be found at:

<https://www.browardmpo.org/core-products/public-participation-plan-ppp> .

*Limited English Proficiency (LEP) Plan*

The Broward MPO’s Limited English Proficiency (LEP) Plan identifies populations with limited English proficiency in our service area and provides guidelines for MPO staff to help ensure that information and services are accessible to LEP persons. A copy of the Broward

MPO's LEP Plan (as part of the Title VI Program) can be found at <https://www.browardmpo.org/title-vi-dbel>.

### *Speak Up Broward*

Initiated in February 2013, Speak Up Broward is the MPO's grassroots public awareness initiative designed to promote awareness about regional transportation planning projects, engage the community to become more involved in the planning process, and solicit feedback that will help us improve our efforts toward providing Broward County residents with a safe, convenient, and efficient multimodal transportation system. For more information, please visit <https://www.browardmpo.org/major-initiatives/speak-up-broward>.

### *Advisory Committees*

MPO staff continue to update its Citizens' Advisory Committee (CAC) membership to ensure that it represents Broward County's demographics. Several agencies on the CAC represent persons with disabilities and traditionally underserved communities, including minorities and LEP persons. The CAC provides community feedback on major MPO planning efforts and projects. In addition, major MPO projects and efforts are presented for input and feedback to the MPO's Transportation Disadvantaged Local Coordinating Board, of which many members represent persons with disabilities.

### *Interactive TIP Tool*

As part of the TIP process, the MPO has an Interactive TIP Tool ([Broward MPO TIP - Home Page \(dtstiptool.com\)](http://dtstiptool.com)). The tool enhances information about projects by providing project location maps and detailed financial information features not available prior to the implementation of this interactive software.

Whenever the MPO attends events in diverse locations and communities across Broward, staff are sure to highlight the TIP tool. Distributing TIP informational flyers in English and Spanish where possible and conducting live demonstrations via a laptop or other device at booths or tables at these events/meetings, are also used as a strategy to increase public awareness about the MPO's products. Furthermore, given the variety of cultural backgrounds of the MPO staff, the team can translate or interpret information in multiple languages (such as Spanish, German, Mandarin, and American Sign Language) in-house.

### *Training*

Finally, the Broward MPO actively seeks additional Title VI training opportunities for both MPO staff and transportation partner agencies and municipalities. The MPO works closely with its representatives at the Florida Department of Transportation, the Federal Highway Administration, and the Federal Transit Administration to seek opportunities to provide training in the Southeast Florida region.

### **Transportation Planning Equity Assessment Methodology**

In addition to the TIP tool described above, the Broward MPO uses Geographic Information Systems to visualize data. The MPO makes sure the data used is available and accessible from standard, easily-obtainable, and frequently-updated sources such as the U.S. Census, the American Community Survey (ACS), etc. All selected indicators are data obtained from the ACS Five-Year Estimates. With these data sets, the MPO compared individual Block Groups with Broward County averages to locate “equity areas” with higher concentrations of the following core indicators: Racial Minority, Ethnic Minority, Youth (10-17 years), Older Adults (65+ years) Population below Poverty, LEP Population, and Population with a Disability. In addition, the MPO has developed an Equity Assessment in the form of a map in the TIP. This map overlays the TIP projects on top of the equity areas to display how and where projects are being programmed among the identified equity areas. This functions as a form of “checks and balances” that can be used to influence future priorities. Prior to the Equity Assessment, multiple maps and data sets were used to convey the equity evaluation process. The Equity Assessment has eliminated the need for the duplication of efforts and provides very important data in a clear and visually concise format.

Map 2-3 shows the composite score for all block groups within Broward County based on the core indicators identified above. By reviewing the map, it is evident that the predominant concentrations of equity indicators generally cluster in the central, northern, western, and southeastern portions of the County. This clustering of equity areas has been taken into consideration during the implementation of the TIP.

### **Findings**

In order to increase non-motorized mobility in Broward, the MPO actively programs bicycle and pedestrian projects as part of the TIP. These projects were originally identified through the MPO’s LRTP, and later through corridor studies and the Complete Streets Master Plan. The intent is to serve residents who may not be able to afford to drive a vehicle or choose not to drive a vehicle. Through this Equity Assessment the Broward MPO found that similar to the previous year, a majority of these projects provided connections to areas that contained high concentrations of Equity indicators. This is shown on Map 2-3.

Additionally, the MPO works with its local partners to provide funding for locally-needed projects through its CSLIP and Mobility Hub programs. These projects are submitted by local governments and ranked by the MPO using an objective ranking criteria which includes metrics related to Equity. The MPO will continue to work with its local partners to fund these projects and refine the ranking criteria to provide the most local benefit.

The MPO also conducts on-going corridor studies which seek to positively impact transportation mobility in Broward, particularly as it relates to Equity communities. The purpose of corridor studies is to identify solutions in order to provide connectivity and enhance mobility along major transit corridors in Broward. These corridor studies apply livability principles (enhanced access to transit, health care centers, regional destinations, pedestrian accessibility, etc.) to identify recommendations which include safety improvements at

intersections, bicycle and pedestrian facility construction, and mobility hubs. All corridor studies and their associated recommendations take into consideration Equity as an important factor in determining priorities.

The TIP includes projects that are part of the regional SIS managed by the FDOT. The SIS network is designed to increase long-range mobility and increase freight movement throughout the region. Projects on the SIS intend to increase economic vitality by promoting the movement of goods and services and increase connectivity among the region's industries and populations. Many of these improvements provide direct and indirect benefits to Equity communities. FDOT develops Project Development and Environmental (PD&E) studies for the SIS projects to determine impacts and provide mitigation strategies.

The State's maintenance program represents approximately 31% of the TIP projects, including the bridge maintenance projects. These projects reduce congestion and delays (e.g., ITS / Advanced Traffic Management System (ATMS) maintenance and repairs) and improve safety to the system (e.g., install and repair guardrail and handrails, signing and pavement markings, bridge maintenance). These projects should not impose burdens to Equity communities and should positively impact these communities.

The transit section of the TIP managed by Broward County Transit (BCT) is required by federal regulations to conduct its own Equity Assessment and Title VI analysis. More information on BCT's Equity Assessment to ensure transit investment and service is provided in a non-discriminatory way can be found in the link provided below: <http://www.broward.org/BCT/Pages/TitleVI.aspx>

## 2.12 Federal Discretionary Grants

When an entity in the State of Florida receives a discretionary award through a response to a Notice of Funding Opportunity (NOFO), there are generally three potential project delivery options summarized as follows:

- Delivery by a local agency as direct recipient: The local agency submits a grant application through Grants.gov and receives an award directly from the federal agency.
- Delivery through the FDOT Local Agency Program (LAP): The local agency receives an award and FDOT agrees to reimburse the local agency through the FDOT LAP program, the local agency would be a subrecipient to FDOT. This option is only available to FDOT LAP Certified entities. Local agencies must coordinate with FDOT prior to applying to the competitive discretionary grant program.
- Delivery by FDOT (FDOT Administered): FDOT is the applicant or the local agency requests FDOT to administer the project on their behalf through a local resolution, then FDOT would be the direct recipient.

Projects that are required to be included in the local Transportation Improvement Program (TIP) and Statewide Transportation Improvement Program (STIP) TIP/STIP:

- Federal discretionary grants that fund capital projects under Title 23 or Title 49, US Code typically must be in the TIP/STIP before executing a grant agreement with USDOT and/or the appropriate Operating Administration (e.g.: FHWA, FTA, FRA, etc.) or FDOT.
- If the project is programmed in the FDOT Tentative Five-year Work Program before July (or earlier if the MPO uses an extract from an FDOT snapshot to build their TIP), then the project will be included in the TIP/STIP that becomes effective October 1.
- TIP/STIP Amendments are required if the project is not in the current TIP/STIP, and the grant agreement must be executed before October.
- TIP/STIP Amendments are also required if the project is programmed after July and the grant agreement must be executed before October in the same year.
- Regionally significant projects that require Federal action by FHWA or FTA, regardless of funding source, must be in the TIP/STIP. Additionally, for information and conformity purposes, the TIP/STIP shall include all regionally significant projects proposed to be funded with Federal funds other than those administered by the FHWA or the FTA, as well as all regionally significant projects to be funded with non-Federal funds.

When applicable, a TIP/STIP Amendment must be processed using the STIP Amendment application. Consistency with the MPO's TIP and long-range transportation plan (LRTP) is required to process a STIP Amendment. Additional guidance on STIP Amendments

may be found in the Work Program Instructions (Part IV).

Projects that are not required to be included in the TIP/STIP:

- Federal discretionary grants that are not funded under Title 23 (USDOT/FHWA) or Title 49 chapter 53, US Code (Federal Transit Administration), unless it's a regionally significant project.
  - Examples of grants not funded under Title 23 include Safe Streets for All (SS4A) Comprehensive Safety Action Plan Grants.
  - SS4A Implementation Grants may need to be included in the TIP/STIP if they are determined to be regionally significant.
- Regionally significant projects:
  - Regionally significant projects are transportation projects that are on a facility that serves regional transportation needs (such as access to and from the area outside the region; major activity centers in the region; major planned developments such as new retail malls, sports complexes, or employment centers; or transportation terminals) and would normally be included in the modeling of the metropolitan area's transportation network.
  - At a minimum, this includes projects on all principal arterial highways and all fixed guideway transit facilities that offer an alternative to regional highway travel. Projects that may be grouped in the TIP/STIP or projects exempt from transportation conformity are not considered regionally significant.

Including Federal Discretionary Grant Projects in the FDOT Work Program for TIP/STIP purposes. There are generally three methods that FDOT may consider when including the discretionary project in the FDOT's Tentative Work Program for TIP/STIP purposes or if the Department has agreed to help administer the project.

- Direct Recipients of Federal Discretionary Funds:  
Once a direct recipient is notified of the grant award by the Federal agency, i.e. USDOT and/or the appropriate Operating Administration (e.g.: FHWA, FTA, etc.), the local agency should contact the District Work Program Office and District MPO Liaison to discuss steps for programming the project. If the direct recipient administers the project directly with the Federal agency, the FDOT District will only need to program the project for incorporation into the TIP/STIP as a non-budgeted informational item.
- Local Agency Delivery through the FDOT LAP Program:  
If the local agency requests FDOT assistance administering the project or administers the project through the Local Agency Program (LAP), the FDOT District will program the project as budgeted. The local agency would then become a subrecipient to FDOT and the SUBR item group should also be programmed. See the Work Program Instructions (WPI) for additional details if a budgeted project needs to be amended into current year of the adopted work program if the change meets the

criteria as provided in Section 339.135(7), F.S. (see WPI, Part III, Chapter 3, Amendments).

- Delivery by FDOT (FDOT Administered):  
When FDOT is the applicant or the local agency requests FDOT to administer the project on their behalf through a local resolution, then FDOT would be the direct recipient.

The Broward MPO will collaborate with municipalities, county, and public transit providers to incorporate projects funded by Federal discretionary grants into the TIP through regular TIP updates or necessary TIP amendments.

### **2.13 Projects in FDOT 23 CFR Part 667 Report**

The Broward MPO staff has reviewed the [FDOT 23 CFR Part 667 Report](#) Periodic Evaluation of Facilities Repeatedly Requiring Repair and Reconstruction Due to Emergency Events. Currently there are no projects from the TIP that are in the report.

### **3. PERFORMANCE MANAGEMENT**

Transportation Performance Management (TPM) is a strategic approach to connect transportation investment and policy decisions to help achieve performance goals. Performance measures are quantitative expressions used to evaluate progress toward goals. Performance targets are quantifiable levels of performance to be achieved within a time period. Federal transportation law requires state departments of transportation (DOT), MPOs, and public transportation providers to conduct performance-based planning by tracking performance and establishing data-driven targets to assess progress toward achieving goals. Performance-based planning supports the efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes related to seven national goals established by Congress:

- Improving Safety;
- Maintaining Infrastructure Condition;
- Reducing Traffic Congestion;
- Improving the Efficiency of the System and Freight Movement;
- Protecting the Environment; and,
- Reducing Delays in Project Delivery.

Federal law requires FDOT, the MPOs, and public transportation providers to coordinate when selecting performance targets. FDOT and the MPOAC developed the TPM Consensus Planning Document to describe the processes through which these agencies will cooperatively develop and share information related to transportation performance management and target setting.

#### **3.1 Highway Safety Measures (PM1)**

The first of FHWA's performance management rules establishes measures to assess fatalities and serious injuries on all public roads. The rule requires state DOTs and MPOs to annually establish targets and report performance and progress toward targets to FHWA for the following safety-related performance measures:

1. Number of Fatalities;
2. Rate of Fatalities per 100M Vehicle Miles Traveled (VMT);
3. Number of Serious Injuries;
4. Rate of Serious Injuries per 100M VMT; and
5. Number of Non-motorized Fatalities and Serious Injuries.

### 3.1.1 Highway Safety Targets

#### 3.1.1.1 Statewide Targets

Safety performance measure targets are required to be adopted on an annual basis. In August of each calendar year, FDOT reports targets to FHWA for the following calendar year. On August 31, 2023, FDOT established statewide safety performance targets for calendar year 2024. Table 3-1 presents FDOT’s statewide and MPO safety targets.

**Table 3-1 Statewide Highway Safety Performance Targets**

Safety Performance Measure	Calendar Year 2024 Statewide Targets	Calendar Year 2024 Broward MPO Targets
<b>Number of Fatalities</b>	0	0
<b>Number of Serious Injuries</b>	0	0
<b>Fatality Rate per 100 million VMT</b>	0	0
<b>Serious Injury Rate per 100 million VMT</b>	0	0
<b>Total Number of non-motorized Fatalities and non-motorized serious injuries</b>	0	0

Source: FDOT 2023 FHWA Performance Measures per MPO

FDOT adopted a vision of zero traffic-related fatalities in 2012. This, in effect, became FDOT’s target for zero traffic fatalities and quantified the policy set by Florida’s Legislature more than 35 years ago (Section 334.046(2), Florida Statutes, emphasis added):

*“The mission of the Department of Transportation shall be to provide a safe statewide transportation system...”*

FDOT and Florida’s traffic safety partners are committed to eliminating fatalities and serious injuries. As stated in the Safe System approach promoted by the FHWA, the death or serious injury of any person is unacceptable. [The Florida Transportation Plan](#) (FTP), the state’s long-range transportation plan, identifies eliminating transportation related fatalities and serious injuries as the state’s highest transportation priority. Therefore, FDOT has established 0 as the only acceptable target for all five of the federal safety performance measures.

#### 3.1.1.2 MPO Safety Targets

MPOs are required to establish safety targets annually within 180 days of when FDOT established targets. MPOs establish targets by

either agreeing to program projects that will support the statewide targets or establish their own quantitative targets for the MPO planning area.

The Broward MPO, along with FDOT and other traffic safety partners, shares a high concern about the unacceptable number of traffic fatalities, both statewide and nationally. As such, on November 2nd, 2023, the Broward MPO agreed to support FDOT’s statewide safety performance targets for calendar year 2024, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. The safety initiatives within this TIP are intended to contribute toward achieving these targets.

### 3.1.2 Safety Trends in the MPO Area

#### **Baseline Conditions**

After FDOT set its Safety Performance Measures targets in 2018, both FDOT and the Broward MPO established 2017 Baseline Safety Performance Measures. To evaluate baseline Safety Performance Measures, the most recent five-year rolling average (2018-2022) of crash data and VMT were utilized. Table 3-2 presents the Baseline Safety Performance Measures for Florida and Broward MPO.

**Table 3-2 Baseline Safety Performance Measures (2017)**

Performance Measure	Florida	Broward MPO
<b>Number of Fatalities</b>	2,685.6	206.6
<b>Number of Serious Injuries</b>	20,830.0	1,663.8
<b>Fatality Rate per 100 million VMT</b>	1.3	1.2
<b>Serious Injury Rate per 100 million VMT</b>	10.2	9.8
<b>Total Number of non-motorized Fatalities and non-motorized serious injuries</b>	3,253.0	333

Source: FDOT 2017 FHWA Performance Measures per MPO.

#### **Trends Analysis**

The MPO uses crash data tracking fatalities and serious injuries in Broward County to analyze past trends and identify regional safety issues. Tracking these measures will help to estimate the effectiveness of future MPO transportation investment, as reflected in the TIP. Table 3-3 shows the changes in Safety Performance Measures for Broward MPO from 2018 through 2022. The measures shown in Table 3-3 were calculated by following the same methodology as that used to calculate the baseline conditions.

**Table 3-3 Trends of Broward Safety Performance Measures 2018-2022**

<b>Performance Measure</b>	<b>2014-2018</b>	<b>2015-2019</b>	<b>2016-2020</b>	<b>2017-2021</b>	<b>2018-2022</b>
Number of Fatalities	211.8	225.4	235.4	243.0	254.2
Number of Serious Injuries	1,483.6	1,365.8	1,285.0	1,216.0	1,155.4
Fatality Rate per 100 million VMT	1.239	1.276	1.394	1.475	1.559
Serious Injury Rate per 100 million VMT	8.718	7.758	7.552	7.305	7.034
Total Number of non-motorized Fatalities and non-motorized serious injuries	319.0	312.2	293.8	296.8	288.8
VMT (100 MVMT)	170.704	197.598	151.269	156.096	164.106

Source: FDOT 2022 FHWA Performance Measures per MPO.

### **3.1.3 FDOT Safety Planning and Programming**

#### **3.1.3.1 Florida’s Strategic Highway Safety Plan**

[Florida’s Strategic Highway Safety Plan](#) (SHSP), published in March 2021, identifies strategies to achieve zero traffic deaths and serious injuries. The SHSP was updated in coordination with Florida’s 27 MPOs and the MPOAC, as well as other statewide traffic safety partners. The SHSP development process included review of safety-related goals, objectives, and strategies in MPO plans. The SHSP guides FDOT, MPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the state.

Florida’s transportation safety partners have focused on reducing fatalities and serious injuries through the 4Es of engineering, education, enforcement, and emergency response. To achieve zero, FDOT and other safety partners will expand beyond addressing specific hazards and influencing individual behavior to reshaping transportation systems and communities to create a safer environment for all travel. The updated SHSP calls on Florida to think more broadly and inclusively by addressing four additional topics, which are referred to as the 4Is: information intelligence, innovation, insight into communities, and investments and policies. The SHSP also embraces an integrated “Safe System” approach that involves designing and managing road infrastructure to keep the risk of a mistake low and to ensure that when a mistake leads to a crash, the impact on the human body does not result in a fatality or serious injury. The five Safe System elements together create a holistic approach with layers of protection: safe road users, safe vehicles, safe speeds, safe roads, and post-crash care.

The SHSP also expands the list of emphasis areas for Florida’s safety programs to include six evolving emphasis areas, which are high-

risk or high-impact crashes that are a subset of an existing emphasis area or emerging risks and new innovations, where safety implications are unknown. These evolving emphasis areas include work zones, drowsy and ill driving, rail grade crossings, roadway transit, micromobility, and connected and automated vehicles.

#### 3.1.3.2 Florida's Highway Safety Improvement Program

While the FTP and the SHSP both highlight the statewide commitment to a vision of zero deaths, the Florida Highway Safety Improvement Program (HSIP) Annual Report documents statewide performance and progress toward that vision. It also lists all HSIP projects that were obligated during the reporting year and the relationship of each project to the SHSP.

As discussed above, in the 2023 HSIP Annual Report, FDOT reported 2024 statewide safety performance targets at “0” for each safety performance measure to reflect the vision of zero deaths. Annually, FHWA determines whether Florida has met the targets or performed better than baseline for at least four of the five measures. If this does not occur FDOT must submit an annual implementation plan with actions it will take to meet targets in the future.

On April 20, 2023, FHWA reported the results of its 2021 safety target assessment. FHWA concluded that Florida had not met or made significant progress toward its 2021 safety targets, noting that zero had not been achieved for any measure and that only three out of five measures (number of serious injuries, serious injury rate, and number of non-motorized fatalities and serious injuries) were better than baseline. Subsequently, FDOT developed an HSIP Implementation Plan to highlight additional strategies it will undertake in support of the safety targets. [The HSIP Implementation Plan](#) was submitted with the HSIP Annual Report to FHWA on August 31, 2023. Consistent with FHWA requirements, the HSIP Implementation Plan focuses specifically on implementation of the HSIP as a core federal-aid highway program and documents the continued enhancements planned for Florida's HSIP to better leverage the benefits of this program. However, recognizing that FDOT already allocates all HSIP funding to safety programs - and building on the integrated approach that underscores FDOT's safety programs – the HSIP Implementation Plan also documents how additional FDOT and partner activities may contribute to progress toward zero. Building on the foundation of prior HSIP Implementation Plans, the 2023 HSIP Implementation Plan identifies the following key commitments:

- Improve partner coordination and align safety activities.
- Maximize HSIP infrastructure investments.
- Enhance safety data systems and analysis.
- Implement key safety countermeasures.
- Focus on safety marketing and education on target audiences.
- Capitalize on new and existing funding opportunities.

Florida conducts extensive safety data analysis to understand the state's traffic safety challenges and identify and implement successful

safety solutions. Florida’s transportation system is evaluated using location-specific analyses that evaluate locations where the number of crashes or crash rates are the highest and where fatalities and serious injuries are most prominent. These analyses are paired with additional systemic analyses to identify characteristics that contribute to certain crash types and prioritize countermeasures that can be deployed across the system as a whole. As countermeasures are implemented, Florida also employs predictive analyses to evaluate the performance of roadways (i.e., evaluating results of implemented crash modification factors against projected crash reduction factors).

FDOT’s State Safety Office works closely with FDOT Districts and regional and local traffic safety partners to develop the annual HSIP updates. Historic, risk-based, and predictive safety analyses are conducted to identify appropriate proven countermeasures to reduce fatalities and serious injuries associated with Florida’s SHSP emphasis areas, resulting in a list of projects that reflect the greatest needs and are anticipated to achieve the highest benefit. While these projects and the associated policies and standards may take years to be implemented, they are built on proven countermeasures for improving safety and addressing serious crash risks or safety problems identified through a data-driven process. Florida continues to allocate all available HSIP funding to safety projects. [FDOT’s HSIP Guidelines](#) provide detailed information on this data-driven process and funding eligibility.

Florida received an allocation of approximately \$156 million in HSIP funds for use during the 2023 state fiscal year from July 1, 2021 through June 30, 2023, and fully allocated those funds to safety projects. FDOT used these HSIP funds to complete projects that address intersections, lane departure, pedestrian and bicyclist safety, and other programs representing the remaining SHSP emphasis areas. This year’s HSIP allocated \$128.7 million in infrastructure investments on state-maintained roadways and \$27.5 million in infrastructure investments on local roadways. The remaining \$7.2 million included supporting activities such as transportation safety planning, preliminary engineering, traffic engineering studies, transportation statistics, and public information or education. A list of HSIP projects can be found in the [HSIP 2023 Annual Report](#).

Beginning in fiscal year 2024, HSIP funding will be distributed among FDOT Districts based on statutory formula to allow the Districts to have more clearly defined funding levels for which they can better plan to select and fund projects. MPOs and local agencies coordinate with FDOT Districts to identify and implement effective highway safety improvement projects on non-state roadways.

### 3.1.3.3 Additional FDOT Safety Planning Activities

In addition to HSIP, safety is considered as a factor in FDOT planning and priority setting for projects in preservation and capacity programs. Data is analyzed for each potential project, using traffic safety data and traffic demand modeling, among other data. The [Florida PD&E Manual](#) requires the consideration of safety when preparing a proposed project’s purpose and need, and defines several factors related to safety, including crash modification factor and safety performance factor, as part of the analysis of alternatives. Florida design and construction standards include safety criteria and countermeasures, which are incorporated in every construction project. FDOT also recognizes the importance of the American Association of State Highway Transportation Official (AASHTO) Highway

Safety Manual (HSM). Through dedicated and consistent training and messaging over the last several years, the HSM is now an integral part of project development and design.

FDOT holds Program Planning Workshops annually to determine the level of funding to be allocated over the next 5 to 10 years to preserve and provide for a safe transportation system. Certain funding types are further analyzed and prioritized by FDOT Central Offices, after projects are prioritized collaboratively by the MPOs, local governments, and FDOT Districts; for example, the Safety Office is responsible for the HSIP and Highway Safety Program (HSP) and the Systems Implementation Office is responsible for the Strategic Intermodal System (SIS). Both the Safety and SIS programs consider the reduction of traffic fatalities and serious injuries in their criteria for ranking projects.

### **3.1.4 Safety Investment in the TIP**

#### **The Safety Performance-Based Planning and Programing (PBPP) Projects/Activities**

The Broward MPO continues to incorporate Performance-Based Planning and Programing (PBPP) into planning process to meet Federal requirement meanwhile to improve MPO decision-making.

The Broward MPO, in conjunction with FDOT, is devoted to make roads safer for all users in Broward County and to meet safety performance targets. Many safety PBPP activities in the TIP, LRTP, and UPWP, such as Complete Streets and other Localized Program (CSLIP), Broward MPO Bicycle and Pedestrian Safety Action Plan, System Management and Safety Program, and the Mobility Hub Program, are dedicated to improve overall safety of transportation system in Broward County. These programs/plans are consistent with the SHSP emphasis areas, and involving extensive partner input.

#### **Transportation Improvement Program (TIP)**

The MPO considers safety as a planning factor in the project selection process. One goal of the 2045 MTP is to reduce accidents, injuries, and fatalities. The MTP strengthened the connection between its spending and safety performance by continuing the CSMP, the CSLIP, and introduced the TSMO and safety program, which aim to improve safety of the transportation system. For example, Safety accounts for 20% of the CSLIP selection criteria. As part of the MTP and TIP, the MPO allocates a large portion of its discretionary funds to these programs. Projects identified in these programs have been funded through the TIP.

The TIP includes specific investment priorities that support all of the MPO's goals including safety, using a prioritization, and project selection process established in the MTP. This process evaluates projects that have an anticipated effect of reducing both fatal and injury crashes. The MPO's goal of reducing fatal and serious injury crashes is linked to this investment plan and the process used in prioritizing the projects is consistent with federal requirements. The TIP prioritization process uses stakeholder input as a criterion to evaluate projects that have an anticipated effect of reducing both fatal and injury crashes. The MPO's goal of reducing fatal and serious injury crashes is linked to the TIP and the process used in prioritizing the projects is consistent with federal requirements.

The program of projects identified through this process are anticipated to contribute toward achievement of the safety targets. The safety infrastructure investments are targeted at specific opportunities to improve safety. For example, additional roadway lighting at intersections will improve pedestrian visibility to drivers. In addition to the specific safety programs included in the TIP, other programs also consider safety as a key factor. Safety impacts are considered in the evaluation of proposed preservation, capacity, and operations projects, including projects on Florida's Strategic Intermodal System as well as regionally significant facilities identified in the MTP.

The TIP FY 2025 to 2029 includes 117 projects that improve safety conditions County-wide, totaling \$364 million. These projects fall in the following categories. The MPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives.

1. Bike lane/Sidewalk
2. Lighting
3. Traffic control devices/system
4. Safety projects
5. Push button
6. Corridor improvements
7. Add turning lanes
8. Signing and pavement markings

### The 2045

The MTP is the primary source for identifying priority projects for inclusion in the TIP. There are many projects included in the 2045 MTP that focus on improving safety of the Broward county transportation systems. For the complete list of projects, refer to the plan at <https://browardmpo.org/core-products/commitment-2045-mtp>.

The MTP consolidates eligible classes of localized projects into one overall program, CSLIP. The MPO's CSLIP provides funding for small local transportation projects which improve the safety and mobility for all transportation users in Broward. This competitive grant program can fund projects such as (but not limited to): complete streets projects, traffic calming and intersection improvements, ADA upgrades, mobility hubs, bike racks, and technology advancements such as transit signal priority and traffic control devices. These projects are ranked based on the projects ability to address connectivity, mobility, safety, and economic development. The ranking is conducted objectively based on these categories to ensure an equal and fair distribution of funding.

The MTP set aside 15% discretionary funds to the Systems Management and Safety program, and proposes to utilize 10% of the available federal and state funding included in the "Other Roads" program for off-system safety projects (consistent with the published guidance provided by FDOT in the *2045 Revenue Forecast – Broward MPO/Broward Metropolitan Area*). One goal of the Systems Management

and Safety program is to identify, prioritize, and implement safety improvements at locations with high fatality and serious injuries. High priority crash locations are included in the MMPL for future safety study and capital project funding. A new off-system Road Safety Audit (RSA) process has also been developed to expedite safety studies and safety construction projects on off-system roadways.

### *Broward MPO Complete Streets Initiative*

The MPO understands the importance of creating a transportation system that addresses the needs of all users of the road, including the needs of people who walk, bike, drive, and take transit. Health, safety, and economic development benefits have been directly attributed to roads planned, designed, and operated for all users. To ensure that this is firmly embedded into our transportation planning process, the Broward MPO developed the Complete Streets Initiative. This program, guided by the Complete Streets Advisory Committee (CSAC), with the main intent to provide the necessary tools to our local governments in implementing Complete Streets in their respective communities. The Complete Streets Initiative also serves as a platform to move forward active transportation projects identified in our plans, initiatives, and studies from the planning to design and ultimately to construction through the MPO's CSMP.

Because safety is inherent in so many FDOT and Broward MPO programs and projects, and because of the broad and holistic approach FDOT is undertaking with its commitment to Vision Zero, the program of projects in this TIP is anticipated to support progress towards achieving the safety targets.

## **3.2 Pavement and Bridge Condition Measures (PM2)**

FHWA's Pavement and Bridge Condition Performance Measures Final Rule, which is also referred to as the PM2 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

1. Percent of Interstate pavements in good condition;
2. Percent of Interstate pavements in poor condition;
3. Percent of non-Interstate National Highway System (NHS) pavements in good condition;
4. Percent of non-Interstate NHS pavements in poor condition;
5. Percent of NHS bridges (by deck area) classified as in good condition; and
6. Percent of NHS bridges (by deck area) classified as in poor condition.

For the pavement measures, five pavement metrics are used to assess condition:

- International Roughness Index (IRI) - an indicator of roughness; applicable to asphalt, jointed concrete, and continuous concrete pavements;
- Cracking percent - percentage of pavement surface exhibiting cracking; applicable to asphalt, jointed concrete, and continuous concrete pavements;

- Rutting - extent of surface depressions; applicable to asphalt pavements only;
- Faulting - vertical misalignment of pavement joints; applicable to jointed concrete pavements only; and
- Present Serviceability Rating (PSR) – a quality rating applicable only to NHS roads with posted speed limits of less than 40 miles per hour (e.g., toll plazas, border crossings). States may choose to collect and report PSR for applicable segments as an alternative to the other four metrics.

### 3.2.1 Pavement and Bridge Condition Targets

#### 3.2.1.1 Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for the bridge and pavement condition measures. On December 16, 2022, FDOT established statewide bridge and pavement targets for the second performance period ending in 2025. These targets are identical to those set for 2019 and 2021, respectively. Florida’s performance through 2021 exceeds the targets. The two-year targets represent bridge and pavement condition at the end of calendar year 2023, while the four-year targets represent condition at the end of 2025. Table 3.4 presents the statewide targets.

**Table 3-4 Statewide Pavement and Bridge Condition Performance Targets**

Performance Measure	2022 Statewide Conditions	2023	2025
		Statewide Target	Statewide Target
Percent of Interstate pavements in good condition	73.4%	60.0%	60.0%
Percent of Interstate pavements in poor condition	0.2%	5.0%	5.0%
Percent of non-Interstate NHS pavements in good condition	48.8%	40.0%	40.0%
Percent of non-Interstate NHS pavements in poor condition	0.6%	5.0%	5.0%
Percent of NHS bridges (by deck area) in good condition	58.2%	50.0%	50.0%
Percent of NHS bridges (by deck area) in poor condition	0.6%	10.0%	10.0%

Source: 2022 Statewide Conditions [fdotsourcebook.com](https://fdotsourcebook.com).

In determining its approach to establishing performance targets for the federal pavement and bridge condition performance measures, FDOT considered many factors.

FDOT is mandated by Florida Statute 334.046 to preserve the state's bridges and pavement to specific state-defined standards. To adhere to the statutory guidelines, FDOT prioritizes funding allocations to ensure the current transportation system is adequately preserved and maintained before funding is allocated for capacity improvements. These state statutory guidelines envelope the statewide federal targets that have been established for pavements and bridges.

In addition, FDOT developed a [Transportation Asset Management Plan](#) (TAMP) for the state NHS bridge and pavement assets. The TAMP must include investment strategies leading to a program of projects that would make progress toward achievement of the State's targets for asset condition and performance of the NHS. FDOT's current TAMP was submitted on December 30, 2022 and recertified by FHWA on February 23, 2023.

Further, the federal pavement condition measures require a data collection methodology that is a departure from the methods historically used by FDOT. For bridge condition, performance is measured in deck area under the federal measure, while FDOT programs its bridge repair or replacement work on a bridge-by-bridge basis. As such, the federal measures are not directly comparable to the methods that are most familiar to FDOT.

FDOT collects and reports bridge and pavement data to FHWA each year to track performance and progress toward the targets. The percentage of Florida's bridges in good condition is slowly decreasing, which is to be expected as the bridge inventory grows older. Reported bridge and pavement data through 2021 exceeded the established targets. Based on anticipated funding levels, FDOT believes the previous targets are still appropriate for 2023 and 2025.

FHWA determined that FDOT made significant progress toward the 2021PM2 targets; FHWA's assessment of progress toward the 2023 targets is anticipated to be provided in 2024.

#### 3.2.1.2 MPO Targets

MPOs must set four-year targets for the six pavement and bridge condition measures within 180 days of when FDOT established targets. MPOs can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for the MPO's planning area for one or more measures.

On December 8<sup>th</sup>, 2022, the Broward MPO agreed to support FDOT's statewide pavement and bridge performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

### **3.2.2 Pavement and Bridge Investments in the TIP**

The Broward MPO TIP was developed and is managed in cooperation with FDOT, BCT, and the South Florida Regional Transportation Authority (SFRTA). It reflects the investment priorities established in the 2045 MTP. The TIP includes specific investment priorities that support all of the MPO's goals including maintaining infrastructure, using a prioritization and project selection process established in the MTP. The TIP devotes a significant amount of projects that will maintain pavement and bridge condition performance. The TIP includes 96 projects that address bridge and pavement conditions. This reflects an overall investment of \$147 million for bridges, and \$2.9 Billion for resurfacing. A subset of those 96 projects is shown below:

- SR-838/SUNRISE BLVD OVER INTRACOASTAL WATERWAY BRIDGE, BRIDGE REPAIR REHABILITATION FY 2025
- SR-842/LAS OLAS BLVD OVER ICWW - BROWARD COUNTY, BRIDGE REPAIR REHABILITATION FY 2025
- BRIDGE REPAIR ON DAVIE BLVD BRIDGE OVER SOUTH FORK NEW RIVER, BRIDGE REPLACEMENT, CST FY 2026
- SR-838/SUNRISE BLVD FROM SR-817/UNIVERSITY DRIVE TO NW 56TH AVE, RESURFACING FY 2026
- SR-844/NE 14TH ST FROM SR-5/US-1 TO A1A, RESURFACING FY 2026

The projects included in the TIP are consistent with FDOT's Five Year Work Program, and therefore to FDOT's approach to prioritize funding to ensure the transportation system is adequately preserved and maintained. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to pavement and bridge projects, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide pavement and bridge condition performance targets.

### **3.3 System Performance, Freight, & Congestion Mitigation & Air Quality Improvement Program (PM3)**

FHWA's System Performance/Freight/CMAQ Performance Measures Final Rule, which is referred to as the PM3 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

#### **National Highway Performance Program (NHPP)**

1. Percent of person-miles traveled on the Interstate system that are reliable
2. Percent of person-miles traveled on the non-Interstate NHS that are reliable;

#### **National Highway Freight Program (NHFP)**

3. Truck Travel Time Reliability index (TTTR);

**Congestion Mitigation and Air Quality Improvement Program (CMAQ)**

4. Annual hours of peak hour excessive delay per capita (PHED);
5. Percent of non-single occupant vehicle travel (Non-SOV); and
6. Cumulative 2-year and 4-year reduction of on-road mobile source emissions (NOx, VOC, CO, PM10, and PM2.5) for CMAQ funded projects.

Because all areas in Florida meet current national air quality standards, the three CMAQ measures do not apply in Florida. A description of the first three measures is below.

The first two performance measures assess the percent of person-miles traveled on the Interstate or the non-Interstate NHS that are reliable. Reliability is defined as the ratio of longer travel times to a normal travel time over of all applicable roads, across four time periods between the hours of 6 a.m. and 8 p.m. each day.

The third performance measure assesses the reliability of truck travel on the Interstate system. The TTTR assesses how reliable the Interstate network is by comparing the worst travel times for trucks against the travel time they typically experience.

**3.3.1 System Performance and Freight Targets**

3.3.1.1 Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for the system performance and freight targets. On December 16, 2022, FDOT established statewide performance targets for the second performance period ending in 2025. These targets are identical to those set for 2019 and 2021, respectively. Florida’s performance through 2021 exceeds the targets. The two-year targets represent performance at the end of calendar year 2023, while the four-year targets represent performance at the end of 2025. Table 3.5 presents the statewide targets.

**Table 3-5 Statewide System Performance and Freight Targets**

Performance Measure	2022 Statewide Conditions	2023 Statewide Target	2025 Statewide Target
	Percent of person-miles on the Interstate system that are reliable (Interstate LOTTR)	85.7%	75.0%
Percent of person-miles on the non-Interstate	92.1%	50.0%	

Performance Measure	2022 Statewide Conditions	2023 Statewide Target	2025 Statewide Target
NHS that are reliable (Non-Interstate NHS LOTTR)			50.0%
Truck travel time reliability (TTTR)	1.46	1.75	2.00

Source: 2022 Statewide Conditions [fdotsourcebook.com](https://fdotsourcebook.com).

FDOT collects and reports reliability data to FHWA each year to track performance and progress toward the reliability targets. Actual performance in 2021 was better than the 2021 targets. FHWA’s assessment of progress toward the 2023 targets is anticipated to be released in March 2024.

System performance and freight are addressed through several statewide initiatives:

- Florida’s Strategic Intermodal System (SIS) is composed of transportation facilities of statewide and interregional significance. The SIS is a primary focus of FDOT’s capacity investments and is Florida’s primary network for ensuring a strong link between transportation and economic competitiveness. These facilities, which span all modes and includes highways, are the workhorses of Florida’s transportation system and account for a dominant share of the people and freight movement to, from and within Florida. The SIS includes 92 percent of NHS lane miles in the state. Thus, FDOT’s focus on improving performance of the SIS goes hand-in-hand with improving the NHS, which is the focus of the FHWA’s TPM program. The [SIS Policy Plan](#) was updated in early 2022 consistent with the updated FTP. The SIS Policy Plan defines the policy framework for designating which facilities are part of the SIS, as well as how SIS investments needs are identified and prioritized. The development of the SIS Five-Year Plan by FDOT considers scores on a range of measures including mobility, safety, preservation, and economic competitiveness as part of FDOT’s Strategic Investment Tool (SIT).
- In addition, [FDOT’s Freight Mobility and Trade Plan](#) (FMTP) defines policies and investments that will enhance Florida’s economic development efforts into the future. The FMTP identifies truck bottlenecks and other freight investment needs and defines the process for setting priorities among these needs to receive funding from the National Highway Freight Program (NHFP). Project evaluation criteria tie back to the FMTP objectives to ensure high priority projects support the statewide freight vision. In May 2020, FHWA approved the FMTP as FDOT’s State Freight Plan. An update to the FMTP will be adopted in the spring of 2024.

### 3.3.1.2 MPO Targets

MPOs must establish four-year targets for all three performance measures. MPOs can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for the MPO's planning area for one or more measures.

On December 8<sup>th</sup> 2022, the Broward MPO agreed to support FDOT's statewide system performance and freight targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

### **3.3.2 System Performance and Freight Investments in the TIP**

The Broward MPO TIP was developed and is managed in cooperation with FDOT and transit providers: BCT and the SFRTA. It reflects the investment priorities established in the 2045 MTP. The TIP includes specific investment priorities that support all of the MPO's goals including reducing travel time and Achieving Level of Service (LOS) standards, using a prioritization and project selection process established in the MTP. The TIP devotes a significant amount of resources to programs and projects that will improve system performance and freight reliability on the Interstate and non-Interstate NHS. The Broward MPO TIP will fund \$40 million for intersection improvement, \$2.9 billion for congestion relief projects, \$2.8 billion for freight, \$20 million for TDM projects, \$2.1 billion for managed lanes, and \$1.2 billion for TSM&O projects. A subset of those projects is shown below:

- SR-820/PINES BOULEVARD @ FLAMINGO ROAD, INTERSECTION IMPROVEMENTS PDE FY 2024/25/26, PE FY2027/28
- SR-870/COMMERCIAL BLVD FROM ROCK ISLAND ROAD TO ANDREWS AVENUE, ADAPTIVE TRAFFIC CONTROL SYSTEM, CST FY 2024/25
- A1A/N OCEAN BLVD & NE 27TH ST, TO CONVERT UNSIGNALIZED INTERSECTION TO SIGNALIZED INTERSECTION, CST FY 2025
- TPK (SR91) TSM&O ADD LANES N OF SAWGRASS TO PALM BEACH C/L (MP 71-73), CST FY 2025

The projects included in the TIP are consistent with FDOT's Five Year Work Program, and therefore to FDOT's approach to prioritize funding to address performance goals and targets. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to programs that address system performance and freight, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide reliability performance targets.

### 3.4 Transit Asset Management Measures

FTA’s Transit Asset Management (TAM) regulations apply to all recipients and subrecipients of Federal transit funding that own, operate, or manage public transportation capital assets. The regulations define the term “state of good repair,” require that public transportation providers develop and implement TAM plans, and established state of good repair standards and performance measures for four asset categories: equipment, rolling stock, transit infrastructure, and facilities. Table 3.6 identifies the TAM performance measures.

**Table 3-6 FTA TAM Performance Measures**

<b>Asset Category</b>	<b>Performance Measure</b>
1.Equipment	Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their useful life benchmark
2.Rolling Stock	Percentage of revenue vehicles within a particular asset class that have either met or exceeded their useful life benchmark
3.Infrastructure	Percentage of track segments with performance restrictions
4.Facilities	Percentage of facilities within an asset class rated below condition 3 on the TERM scale

For equipment and rolling stock classes, Useful Life Benchmark (ULB) is defined as the expected lifecycle of a capital asset, or the acceptable period of use in service, for a particular transit provider’s operating environment. ULB considers a provider’s unique operating environment such as geography, service frequency, etc.

Public transportation agencies are required to establish and report transit asset management targets annually for the following fiscal year. Each public transit provider or its sponsors must share its targets with each MPO in which the transit provider’s projects and services are programmed in the MPO’s TIP. MPOs were required to establish initial TAM targets within 180 days of the date that public transportation providers established initial targets by October 1, 2018. However, MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, subsequent MPO targets must be established when the MPO updates the LRTP. When establishing TAM targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area. To the maximum extent practicable, transit providers, states, and MPOs must coordinate with each other in the selection of performance targets.

The TAM rule defines two tiers of public transportation providers based on size parameters. Tier I providers are those that operate rail

service or more than 100 vehicles in all fixed route modes, or more than 100 vehicles or more in one non-fixed route mode. Tier II providers are those that are a subrecipient of FTA 5311 funds, or an American Indian Tribe, or have 100 or less vehicles across all fixed route modes, or have 100 vehicles or less in one non-fixed route mode. A Tier I provider must establish its own transit asset management targets, as well as report performance and other data to FTA. A Tier II provider has the option to establish its own targets or to participate in a group plan with other Tier II providers whereby targets are established for the entire group in coordination with a group plan sponsor, typically a state DOT.

### 3.4.1 Transit Asset Management Targets

The Broward MPO planning area is served by two Tier 1 transit providers: BCT and SFRTA and therefore must develop TAM Plans. BCT’s TAM Plan includes the following Tier 2 transit providers: Coconut Creek, Coral Springs, Dania Beach, Davie, Deerfield Beach, Fort Lauderdale, Hallandale Beach, Hillsboro Beach, Hollywood, Lauderdale-by-the-Sea, Lauderdale Lakes, Lauderhill, Lighthouse Point, Margate, Miramar, Pembroke Pines, Pompano Beach, Tamarac, and West Park.

On November 2nd, 2023, the Broward MPO established transit asset targets for the MPO planning area. These targets were established in consultation with and reflect the targets established by BCT and SFRTA through their TAM Plans. The targets for rolling stock, particularly buses and vans, reflect a composite of all the transit agencies’ targets. In instances where targets applied to one specific agency, such as locomotives and track restrictions, the MPO adopted that agency’s target. The targets for the MPO’s planning area are shown in Table 3-7.

**Table 3-7 The Broward MPO TAM Targets**

<b>Asset Category - Performance Measure</b>	<b>Asset Class/Type</b>	<b>FY 2023 Asset Condition</b>	<b>2024 Target</b>
<b>Rolling Stock</b>			
<b>Percentage of revenue vehicles that have met or exceeded their Useful Life Benchmark (ULB)</b>	Cutaway Bus (CU)	<b>0%</b>	<b>0%</b>
	Paratransit Mini Van (MV)	<b>0%</b>	<b>0%</b>
	40 Foot Bus (BU)	<b>0%</b>	<b>0%</b>
	60 Foot Bus Articulated Bus (AB)	<b>0%</b>	<b>0%</b>
	45 Foot Bus (BR)	<b>0%</b>	<b>0%</b>
	Commuter Rail Locomotive (RL)	<b>30%</b>	<b>30%</b>
	Commuter Rail	<b>30%</b>	<b>30%</b>

<b>Asset Category - Performance Measure</b>	<b>Asset Class/Type</b>	<b>FY 2023 Asset Condition</b>	<b>2024 Target</b>
	Passenger Coach (RP)		
	Commuter Rail self-propelled passenger car (RS)	<b>30%</b>	<b>30%</b>
Equipment			
<b>Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their Useful Life Benchmark (ULB)</b>	All non-revenue vehicles	<b>35%</b>	<b>50%</b>
	Other rubber tire vehicles	<b>23.5%</b>	<b>0%</b>
Facilities			
<b>Percentage of facilities rated below Condition 3.0 on the FTA Transit Economic Requirements Model (TERM)</b>	Passenger, maintenance, parking and administrative facilities	<b>16.5%</b>	<b>5%</b>
Infrastructure			
<b>Percentage of track segments with performance restrictions</b>	<b>Rail fixed guideway, track and signals</b>	<b>0.2%</b>	<b>4%</b>

### 3.4.2 Transit Asset Management Investments in the TIP

The Broward MPO TIP was developed and is managed in cooperation with BCT and SFRTA. It reflects the investment priorities established in the 2045 MTP and BCT and SFRTA’s TAM Plans.

Transit asset condition and state of good repair is a consideration in the methodology Broward MPO and the transit agencies use to select projects for inclusion in the TIP. The Broward MPO TIP, once implemented, will make progress toward achieving these targets.

Chapter 5.3, 5.4 and 5.5 of the Broward MPO’s TIP documents all funds (local, FTA and STP) that will be used by BCT and SFRTA to improve the condition of the region’s transit assets. The Broward MPO TIP includes 34 projects that address transit state of good repair. This reflects an overall investment of \$1.1 billion. A subset of those 34 projects is shown below:

- Broward County Transit Section 5339 Bus and Bus facilities
- SFRTA Section 5337 State of Good Repair
- SFRTA Capital Section 5339 Bus and Bus Facilities

The TIP includes specific investment priorities that support all of the MPO’s goals, including transit state of good repair, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit state of good repair in the MPO’s planning area. The MPO’s goal of improving transit asset condition is linked to this investment plan, and the process used to prioritize the projects within the TIP is consistent with federal requirements.

The Broward MPO TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit asset performance targets. The Broward MPO will continue to coordinate with the BCT and SFRTA to maintain the region’s transit assets in a state of good repair.

### **3.5 Transit Safety Performance**

FTA’s Public Transportation Agency Safety Plan (PTASP) regulations established transit safety performance management requirements for providers of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53.

The regulations apply to all operators of public transportation that are a recipient or sub-recipient of FTA Urbanized Area Formula Grant Program funds under 49 U.S.C. Section 5307, or that operate a rail transit system that is subject to FTA’s State Safety Oversight Program. The PTASP regulations do not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations regulated by the United States Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

The PTASP must include performance targets for the performance measures established by FTA in the National Public Transportation Safety Plan, which was published on January 28, 2017. The transit safety performance measures are:

- Total number of reportable fatalities and rate per total vehicle revenue miles by mode.
- Total number of reportable injuries and rate per total vehicle revenue miles by mode.
- Total number of reportable safety events and rate per total vehicle revenue miles by mode.
- System reliability – mean distance between major mechanical failures by mode.

In Florida, each Section 5307 or 5311 transit provider must develop a System Safety Program Plan (SSPP) under Chapter 14-90, Florida Administrative Code. FDOT technical guidance recommends that Florida’s transit agencies revise their existing SSPPs to be compliant with the new FTA PTASP requirements<sup>1</sup>.

Each provider of public transportation that is subject to the PTASP regulations must certify that its SSPP meets the requirements for a PTASP, including transit safety targets for the federally required measures. Providers were required to certify their initial PTASP and safety targets by July 20, 2021. Once the public transportation provider establishes safety targets it must make the targets available to MPOs to aid in the planning process. MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPO targets must be established when the MPO updates the LRTP (although it is recommended that MPOs reflect the current transit provider targets in their TIPs).

When establishing transit safety targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional transit safety targets for the MPO planning area. In addition, the Broward MPO must reflect those targets in any LRTP and TIP updates.

### 3.5.1 Transit Safety Targets

The following transit provider(s) operate in the Broward MPO planning area: BCT and SFRTA. Of these, BCT is subject to the PTASP requirements and is responsible for developing a PTASP and establishing transit safety performance targets annually.

BCT established the transit safety targets identified in Table 3.8 on October 28, 2022:

**Table 3.8. Transit Safety Performance Targets for Broward County Transit**

<b>Transit Mode</b>	<b>Fatalities (total)</b>	<b>Fatalities (rate)</b>	<b>Injuries (total)</b>	<b>Injuries (rate)</b>	<b>Safety Events (total)</b>	<b>Safety Events (rate)</b>	<b>System Reliability</b>
<b>Transit Provider 1</b>							
Fixed Route Bus	0	0.0	71	0.876	69	0.851	4,200

<sup>1</sup> FDOT Public Transportation Agency Safety Plan Guidance Document for Transit Agencies. Available at <https://www.fdot.gov/transit/default.shtm>

<b>Transit Mode</b>	<b>Fatalities (total)</b>	<b>Fatalities (rate)</b>	<b>Injuries (total)</b>	<b>Injuries (rate)</b>	<b>Safety Events (total)</b>	<b>Safety Events (rate)</b>	<b>System Reliability</b>
Community Bus	0	0.0	9	0.568	12	0.946	3,420
Paratransit	0	0.0	13	0.148	21	0.222	82,000

On November 2nd, 2023, the Broward MPO agreed to support Broward County Transit’s transit safety targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the targets.

### **3.5.2 Transit Safety Investments in the TIP**

The Broward MPO TIP was developed and is managed in cooperation with BCT and SFRTA. It reflects the investment priorities established in the 2045 MTP. The Broward MPO TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit safety performance targets. The Broward MPO will continue to coordinate with BCT and SFRTA to maintain and improve the safety of the region’s transit system and maintain transit assets in a state of good repair.

Transit safety is a consideration in the methodology the Broward MPO and BCT uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO’s goals, including transit safety, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit safety in the MPO’s planning area. Chapter 5.3, 5.4 and 5.5 of the Broward MPO’s TIP documents all funds (local, FTA and STP) that will be used by BCT for transit safety and transit system reliability. The Broward MPO TIP includes 31 projects that address transit safety. This reflects an overall investment of \$967 million. A subset of those 31 projects is shown below:

- Broward County Transit Section 5339 Bus and Bus facilities
- SFRTA Section 5337 State of Good Repair
- SFRTA Capital Section 5339 Bus and Bus Facilities

## 4. Funding Summary

### 4.1 Five-Year Summary of Funding Source

#### Five-Year Summary of Funding Source

(Total and for each year)

Note: Funds are presented in Year of Expenditure (YOE) dollars. The YOE dollars are money that are adjusted for inflation from the present time to the expected year of construction for a more accurate cost estimate of the project.

<b>Funding Source</b>	<b>2025</b>	<b>2026</b>	<b>2027</b>	<b>2028</b>	<b>2029</b>	<b>Total</b>

## OVERVIEW

### DEVELOPMENT

The Broward Metropolitan Planning Organization (MPO) is required to develop a Multimodal Priority List (MMPL) in coordination with Florida Department of Transportation (FDOT) District Four planning staff. The list is submitted to the District by August 1 annually [s.339.175 (8)(a) and (b), F.S.]. FDOT uses the MMPL to develop the Draft Tentative Work Program (DTWP) that is presented to the MPO each fall, which in turn is used to develop the following year's Transportation Improvement Program (TIP). The Fiscal Year (FY) 2024 MMPL is used to develop the FY 2025-2029 DTWP and the FY 2025-2029 Broward MPO TIP.

The MMPL is a core product of the MPO that serves as a bridge between the MPO's Long Range Transportation Plan (LRTP)/Metropolitan Transportation Plan (MTP) and the TIP. Figure 1 shows the Broward MPO core product development process. The MMPL is used to set funding priorities for federal and state funds within our region. Only projects contained in the MTP are eligible for inclusion on the MMPL. Figure 2 presents the relationship among MTP, MMPL, and TIP.

Figure 1 Core Product Development Process

Figure 2 Relationship among MTP, MMPL and TIP

The 2045 MTP was approved at the December 2019 MPO Board meeting. The Cost Feasible Plan, as a component of the MTP including a list of prioritized projects, was approved with it. The Cost Feasible Plan includes six funding programs in order to account for the region’s multimodal transportation needs. To be consistent with the 2045 MTP and the funding sources assumed in the financial plan of the 2045 MTP, the MMPL is organized by six funding programs. It utilizes the 2045 MTP’s allocations for the Broward MPO’s attributable funds as shown in Table 1.

Table 1 Programs and funding allocation

Program	Allocation
Highway/Roadway	20%
Transit	10%
Systems Management/Safety	15%
Complete Streets and other Localized Initiatives Program (CSLIP)	20%
Complete Streets Master Plan (CSMP)	25%
Mobility Hubs	10%
<b>Total</b>	<b>100%</b>

In addition, the MMPL assigns a preferred funding source for each prioritized project that is consistent with the 2045 MTP’s cost feasible plan. The funding sources are indicated as State, Federal, Local or any combination of the three. To facilitate project delivery, the MMPL emphasizes a “Program Ready” concept. “Program ready” means that a project includes a clear scope of work, approved resolution, cost estimate, and collaboration with partners. Projects that meet all of these four criteria are eligible for funding. For an example of how these concepts are illustrated in the MMPL, please refer to Figure 3.

## UNIFIED PLANNING WORK PROGRAM (UPWP)

Besides the six programs mentioned earlier, funding for the Broward MPO’s Unified Planning Work Program (UPWP)/budget is top priority. The MPO’s UPWP contains the agency’s Strategic Business Plan activities, planning efforts, and operating budget for a two-year period. The UPWP includes a description of the planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds. Further, the UPWP provides a comprehensive picture to citizens and stakeholders who wish to see how federal and state transportation planning dollars are to be spent by the Broward MPO, local governments, and transit agencies providing services to Broward. The UPWP is developed by MPO staff in consultation with partner agencies, municipal staff, and input from local citizens and stakeholders. The information collected is incorporated into the UPWP and budgeted accordingly. To support services that the MPO provides to the Broward region, the Broward MPO assigns Surface Transportation Program – Urban areas >200K (SU) funds to the UPWP. Available MPO attributable funds for the six programs excludes SU funds already allocated to UPWP.

**Program Funding Allocation**  
 The program funding allocation for each respective program is listed at the top of the page for reference. The 2045 MTP's allocations for the Broward MPO's attributable funds are shown in Table 1.

**Program Threshold**  
 Program Thresholds are identified in each program where the amount of program ready projects listed exceed the program funding allocation of available MPO attributable funds. Projects Beyond the program threshold will not receive new funding this MMPL Cycle.

Figure 3 Sample of MMPL

## PROJECT PRIORITIZATION

The 2035 LRTP established a new paradigm to provide a balanced transportation system with greater investments toward alternative modes such as transit, bicycle and pedestrian facilities, and smart growth policies. Both the Commitment 2040 and MTP 2045 follow this set standard. In order to guarantee that the transportation investments are balanced among the transportation modes, percentages agreed upon in the MTP 2045 by the MPO Board (during the MTP's development) were used to distribute revenue among the six programs. Projects within each program were prioritized according to criteria established for each individual program. The following describes the prioritization process for each of the six programs.

### COMPLETE STREETS AND OTHER LOCALIZED INITIATIVES PROGRAM (CSLIP)

CSLIP provides funding for small local transportation projects that will improve safety and mobility for all transportation users. The MPO facilitates this annual competitive grant program to fund projects such as Complete Streets projects, traffic calming and intersection improvements, ADA compliance upgrades, bike racks, and technology advancements (e.g., transit signal priority and traffic control devices). Projects funded through this program have a cap of \$3 million in construction costs per project.

CSLIP uses an objective tool to evaluate and rank the application submitted. This tool was developed with direction from the Board and uses several geographic datasets to score the projects. Evaluation criteria weights are 20% for safety, 20% for accessibility, 17% for equity, 17% for mobility, 13% for economic vitality, and 13% for environmental stewardship.

### COMPLETE STREETS MASTER PLAN (CSMP)

Complete streets are built for all users, emphasizing the safe and efficient movement of people including pedestrians, bicyclists, and transit riders. The MPO developed a CSMP to guide future investments by creating a prioritized list of projects based on technical, data-driven analysis and community input. Funding is allocated to this program based on the prioritized order established in the CSMP. Projects funded through this program are generally greater than \$2 million.

Prioritization is a process of scoring and ranking the Complete Streets projects and Super Connectors based on identified criteria or variables. The criteria is consistent with the goals and objectives established in the Commitment 2040 LRTP, continues in the Commitment 2045 MTP, and builds upon the format and content of the CSLIP evaluation criteria. The criteria between the two differ slightly but fit within the same theme.

For CSLIP details, please visit the CSLIP policies link at: [https://www.browardmpo.org/images/WhatWeDo/CSLIP/Round\\_6\\_Policies.pdf](https://www.browardmpo.org/images/WhatWeDo/CSLIP/Round_6_Policies.pdf) and the evaluation chart at: [https://www.browardmpo.org/images/WhatWeDo/CSLIP/CSLIP\\_Evaluation\\_Criteria\\_Table.pdf](https://www.browardmpo.org/images/WhatWeDo/CSLIP/CSLIP_Evaluation_Criteria_Table.pdf)

For CSMP details, please refer to the CSMP prioritization criteria link at: [http://www.browardmpo.org/images/CSMP/CSMP\\_prioritization\\_criteria.pdf](http://www.browardmpo.org/images/CSMP/CSMP_prioritization_criteria.pdf)

## ROADWAY & TRANSIT PROGRAMS

*Funding for the roadway program is allotted to transportation improvements that increase roadway capacity by building new roadways, adding lanes to existing roadways, or building/expanding interchanges and major intersections. Funding may also be allocated to concept studies, preliminary engineering, and design to support the development of roadway capacity projects. The transit funding program includes transit capital investments such as transit vehicles, transit technology investments (e.g., fare collection equipment, automatic passenger counters, vehicle location, etc.), and roadway improvements designed to serve as exclusive lanes for transit services (for which operating funding has been identified).*

Projects in the Roadway Program and Transit Program follow the same prioritization process established in the MTP 2045. The prioritization criteria is based upon the MTP's Goals and Objectives, adopted by the MPO Board on May 10, 2018, and the Performance Measures developed to ensure consistency with the FAST Act. These six measures, which are referred to as planning factors, were identified as best representing the MTP's Goals and Objectives they are: (1) Mobility: Providing high speed and reliable travel between major activity centers and destinations. The focus of mobility is to get from one place to another as quickly as possible and typically is characterized by longer trips. (2) Accessibility: Providing access and circulation within higher-density, mixed-use places; tend to be shorter trips. (3) Safety: Reducing the number and severity of crashes. (4) Equity: Ensuring that benefits and impacts are shared among Broward's population. (5) Environmental Stewardship: Protecting the natural and built environment. (6) Economic Vitality: Supporting economic activity and businesses.

Each of the six planning factors were given a weighted value to align it with its importance to the community. The weighting values were determined through an interactive polling process with the Technical Advisory Committee (TAC), the Citizens' Advisory Committee (CAC), and the MPO Board. The values obtained were averaged and resulted: Mobility – 20.5, Accessibility – 20.8, Safety – 18.7, Equity – 14.3, Environmental Stewardship – 12.8, and Economic Vitality – 13.0. Six matrixes with prioritization criteria were developed for each planning factor respectively. These matrixes include evaluation criteria, assessment scoring, and scoring guidelines. Through several discussions with the TAC and CAC, the prioritization criteria were revised and shown in tables 1 through 6 in the Technical Report #4 Project Prioritization Process.

Several key changes that resulted from this process were:

- The inclusion of additional Safety criteria to better reflect the importance of this issue;
- The addition of a positive criteria for projects that may improve environmental conditions;
- Clarifications to several criteria to ensure that both roadway and transit projects were evaluated; and
- Adjustments to the Sea Level Rise Mitigation criteria to account for projects that improve the resiliency of infrastructure to extreme weather, regardless of the project's location in a defined vulnerability area.

It is important to note that whereas this process has been developed for the 2045 MTP, these prioritization criteria and planning factor weightings can change over time as the Emphasis Areas stressed by the federal and state government change and local stakeholder preferences change. Future MTPs will address these changes with adjustments to these factors. In addition to an overall process, the Broward MPO project prioritization criteria were developed with the following considerations:

- Projects are to be evaluated regardless of their mode (roadway, transit, Transportation Systems Management and Operations (TSM&O), etc.).
- Scores are to be normalized to account for variance in maximum points awarded in each planning factor group.
- An initial recommendation of rounding negative scores to 0 was reconsidered at the TAC's request to better reflect the potential negative impacts of a project. Thus, negative scores are carried through.

## SYSTEMS MANAGEMENT/SAFETY PROGRAM

Funding allocated to this program is to be focused on Transportation Systems Management and Operations (TSM&O), a program based on actively managing the multimodal transportation network, measuring performance, streamlining and improving the existing system, promoting effective cooperation/collaboration, and delivering positive safety and mobility outcomes to the traveling public. Example projects funded in this program include signal timing/coordination and major safety improvements. Funding in this program is also set aside to support studies to identify, prioritize, and implement safety improvements.

TSM&O projects on-state highway system were selected and prioritized by the FDOT. Safety improvement study projects were selected and prioritized according to the severity index as part of the Commitment 2045 MTP. The severity index is a measure that looks at total crashes and crash severity. It uses a weighted average (higher score for incapacitating and fatal crashes) to develop an index that ranks locations in terms of their importance for future safety analysis and improvements. The safety improvement projects identified through safety studies will be eligible for funding allocated to the Systems Management/Safety Program, as discussed previously. MPO staff are coordinating with FDOT District 4 and other local partners to lead these studies in the near future.

## MOBILITY HUB PROGRAM

The Mobility Hub concept was initially introduced in the 2035 LRTP. The Mobility Hub program continues to be included in the 2040 LRTP and 2045 MTP. Mobility Hubs are transit access points with frequent transit service, high development potential, and a critical point for travel demand or transfers within the transit system. Funding through this program is available to help support the collaborative development of Mobility Hubs as communities identify and commit to opportunities that further the objectives of this program.

Prioritization of Mobility Hub projects is based on identified criteria or variables. Guided by the goals in the 2045 MTP, the recommended evaluation framework measures a candidate location's existing market and network readiness by incorporating the best available information into the evaluation matrix for review. The matrix includes measures of existing trip producers and attractors, potential trip producers, market ready attractors, existing transit ridership, and frequency. The prediction of theoretical future service would not be the driving factor for the evaluation although potential service is a consideration. The third factor in the evaluation is sponsor readiness, which is the willingness of the local government to support Mobility Hub investment.

For Systems Management/Safety details, please refer to 2045 MTP at: <http://www.browardmpo.org/index.php/mtp-documents>

For Mobility Hub details, please refer to the Revisit & Update Mobility Hubs Program - Assess Current Methodology Technical Memorandum link at: [http://www.browardmpo.org/images/2-TM1-Mobility\\_Hubs\\_Revisit-Assess\\_Current\\_Methodology-January\\_2018\\_FINAL.pdf](http://www.browardmpo.org/images/2-TM1-Mobility_Hubs_Revisit-Assess_Current_Methodology-January_2018_FINAL.pdf)

\*The Broward Metropolitan Planning Organization (MPO) has processed a modification to the FY 2024 MMPL on 9/14/2023. This modification entails a refinement to the "Broward Commuter Rail South Stations" (Mobility Hub Program – Priority 1) project name and the inclusion of additional description to enhance the project's scope.

### FEDERAL FISCAL YEAR (FFY) 2023 ANNUAL LISTING OF OBLIGATED PROJECTS AVAILABLE TO PUBLIC

NOTICE IS HEREBY GIVEN that the Broward Metropolitan Planning Organization's (Broward MPO) Annual Listing of Obligated Projects is available to the public in compliance with federal mandates which require a listing of all projects for which federal funds have been obligated in the preceding year. The FDOT provided the listing of highway projects (including investments in pedestrian walkways and bicycle transportation facilities), and the Broward MPO cooperatively working with public transportation operators developed the listing of transit projects, for which federal funds under 23 U.S.C or 49 U.S.C Chapter 53 were obligated during FFY 2023 between October 1, 2022 and September 30, 2023.

Copies may be downloaded from the Broward MPO Transportation Improvement Program (TIP) website at <http://www.browardmpo.org/index.php/core-products/transportation-improvement-program-tip>, or by contacting Jihong Chen, at (954) 876-0066, or email [chenj@browardmpo.org](mailto:chenj@browardmpo.org). A hard copy for public review is available at the Broward MPO at Trade Centre South, 100 West Cypress Creek Road, 6<sup>th</sup> Floor, Suite 650, Fort Lauderdale, FL 33309-2181.

**For complaints, questions or concerns about civil rights or nondiscrimination; or for special requests under the Americans with Disabilities Act, please contact: Carl Ema Title VI Coordinator at (954) 876-0052 or [emac@browardmpo.org](mailto:emac@browardmpo.org)**

### AÑO FISCAL FEDERAL 2023 LISTADO ANUAL DE PROYECTOS OBLIGADOS DISPONIBLE PARA EL PÚBLICO

POR LA PRESENTE SE INFORMA que el Listado Anual de Proyectos Obligados de la Organización de Planificación Metropolitana de Broward (MPO de Broward) está disponible para el público de conformidad con los mandatos federales que requieren una lista de todos los proyectos para los cuales se han comprometido fondos federales en el año anterior. El Departamento de Transporte del Estado de Florida (FDOT) preparó la lista de proyectos de carreteras (incluidas las inversiones en senderos peatonales e instalaciones de transporte de bicicletas) y la MPO de Broward, en colaboración con los operadores de transporte público, desarrolló el listado de proyectos de transporte público, para los cuales se obligaron fondos federales bajo la 23 USC o 49 USC Capítulo 53 durante el año fiscal federal 2023 entre el 1 de octubre de 2022 y el 30 de septiembre de 2023.

Se pueden descargar copias del sitio web de la MPO de Broward en la página del Programa de Mejora del Transporte (TIP, Transportation Improvement Program) <http://www.browardmpo.org/index.php/core-products/transportation-improvement-program-tip>, o comunicándose con Roger Miranda, al (954) 876-0077, o por correo electrónico a [mirandar@browardmpo.org](mailto:mirandar@browardmpo.org). Estará disponible una copia impresa para su revisión por el público en la MPO de Broward en Trade Centre South, 100 West Cypress Creek Road, 6<sup>th</sup> Floor, Suite 650, Fort Lauderdale, FL 33309-2181.

## 2. Overview

### Purpose of the Report

The Broward Metropolitan Planning Organization (MPO) is an agency responsible for transportation planning, programing, and coordinating investments. The MPO works in partnership with Broward County, Florida Department of Transportation (FDOT), the Federal Highway (FHWA) and Transit (FTA) Administrations as well as regional transit operators in planning for transportation improvements.

The Fixing America's Surface Transportation (FAST Act) legislation requires the MPO to publish the Annual Listing of Obligated Projects Report on annual basis, no later than 90 calendar days following the end of the program year. In response to the FAST directive, the FDOT Provided a listing of highway projects, including investments in pedestrian walkways and bicycle transportation facilities. The MPO, working in conjunction with public transportation providers, developed a listing of transit projects. These project lists were obligated for federal funds under 23 U.S.C or 49 U.S.C Chapter 53 during federal fiscal year 2023 (FFY 2023) between October 1, 2022 and September 30, 2023.

Federal law (23 CFR §450.334) requires the list to include:

- (1) All federally funded projects authorized or revised to increase obligations in the preceding program year, and the TIP information under § 450. 326 (g) (1) and (4) at a minimum,
- (2) For each project, identify the amount of Federal funds requested in the TIP, the Federal funding obligated during the preceding year, and the Federal funding remaining and available for subsequent years.

In general, federal funds are obligated to transportation projects through FHWA and FTA. According to FHWA definition, "*An obligation is a legal commitment: the Federal government's promise to pay a State for the Federal share of a project's eligible cost*<sup>1</sup>." For a project funded by FHWA funds, this commitment occurs when FHWA approves the project and executes the project agreement." For a project funded by FTA funds, this commitment occurs at the time the FTA grant is awarded. Alternatively, funding can also be "de-obligated". A de-obligation means money previously obligated is removed from the project to reflect changes to the project cost, delay, or cancellation <sup>2</sup>.

---

1. Funding Federal-Aid Highways, U.S. Department of Transportation, Federal Highway Administration.  
2. Project Funds Management Guide, Attachment 1: Project Funds Management Guide for State Grants.

**Highlights**

The report contains detail regarding projects obligated during FFY 2023, however some highlights include:

- \$110,858,692 in FHWA funds were committed to 182 projects in the Broward County region.
- \$482,140,544 in FTA funds were committed to public transit operators Broward County Transit and South Florida Regional Transit Authority, and Broward MPO mobility hubs.
- \$41,779,176 Federal MPO (SU) fund were committed, while \$813,680 such fund was de-obligated.
- \$4,084,778 Federal MPO (TALU) fund were committed, while \$104,702 such fund was de-obligated.
- \$3,011,438 in previously obligated FHWA funds are free for use in current and forthcoming projects.
- \$5,619,806 Federal General Funds (GFSU) were committed, while \$235,618 such fund was de-obligated.
- \$4,797,600 Federal MPO fund (CARU) were committed.

**Federal Obligations by Fiscal Year**

Figure 1 shows the total federally highway obligated funds, total federal transit obligated funds, total SU obligated funds, total TALU obligated funds, and total CART obligated funds annually from 2018 to 2023. These values have averaged around \$132,035,999, \$321,873,756, \$33,087,269, \$2,584,283, and \$4,797,600 respectively. The Broward MPO continues monitoring obligated funds in the future Annual Listing of Obligated Projects report.

## 7.3 APPENDIX C FACT SHEET

# FACT SHEET

## Understanding the Transportation Improvement Program (TIP)

### What is the Broward Metropolitan Planning Organization (Broward MPO)?

The Broward MPO is an agency responsible for transportation planning, intergovernmental coordination and transportation funding allocations in Broward County. The Broward MPO works with the public, planning organizations, government agencies, elected officials, and community groups to address transportation needs and develop transportation plans, such as the Transportation Improvement Program (TIP) and the Metropolitan Transportation Plan (MTP).

### What is the Transportation Improvement Program (TIP)?

The TIP is a five-year program that prioritizes and documents the funding of transportation improvement projects the region expects to build over the next five years. These projects include transit, highway, air and seaport, as well as bicycle, pedestrian, and freight-related projects. The TIP is a tool to advance projects from MTP to a short range five year program. All TIP projects are evaluated to assure consistency with the goals and objectives of the MTP. The current TIP and MTP can be found online at [BrowardMPO.org](http://BrowardMPO.org).

### How is the TIP created?

The TIP is prepared by the Broward MPO in cooperation with partner transportation agencies such as the Florida Department of Transportation (FDOT), the South Florida Regional Transportation Authority (SFRTA/Tri-Rail), municipal partners, and Broward County transportation service providers such as Broward County Transit (BCT), Broward County Aviation, and Port Everglades. The Broward MPO and its planning partners develop the TIP on an annual basis. At the end of the process, the TIP signifies an agreement among local, state, and regional officials as to what transportation improvements to pursue.

### How is the TIP funded?

TIP projects are funded through a mix of local, state and federal transportation funds. Federal funds are administered through the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA). Funds also come from state, county, and local municipalities via fuel taxes.

## Can the TIP be amended?

Yes, changes are routinely made to the TIP through amendments. The TIP can be amended in order to add, change, or delete projects. Such amendments must be reviewed and approved by the MPO and FDOT. The review also includes opportunities for public comment. The primary methods for public participation are the monthly meetings of the Citizens' Advisory Committee (CAC), the Technical Advisory Committee (TAC) and the Broward MPO. All meetings are held at the MPO office. Visit [www.browardmpo.org/index.php/calendar](http://www.browardmpo.org/index.php/calendar) for the date and time of meetings and upcoming agendas.

## Why is the TIP important?

The TIP identifies, for both Broward residents and taxpayers, how federal, state and local dollars are being spent on transportation projects. The TIP is a vehicle to move projects from the Metropolitan Transportation Plan to a funded priority list that includes an anticipated schedule and the cost for each project.

## How can YOU participate in developing the TIP?

- Attend a monthly meeting of the MPO Board, Technical Advisory Committee (TAC) or Citizens' Advisory Committee (CAC) Visit [www.browardmpo.org/index.php/calendar](http://www.browardmpo.org/index.php/calendar) for the date and time of meetings and upcoming agendas.
- Visit the Broward MPO website at [BrowardMPO.org](http://BrowardMPO.org) and click on the "Transportation Improvement Plan" section to learn more about the TIP.
- E-mail comments and questions to [chenj@browardmpo.org](mailto:chenj@browardmpo.org) or call at (954) 876 0066.
- Fax your comments and questions to 954-876-0062 or mail them to: Broward MPO, Suite 650, 100 West Cypress Creek Road, Fort Lauderdale, FL, 33309
- Prior to the adoption of the TIP, the MPO sponsors a public hearing, and a 30-day public comment period. This usually occurs in May-June of each year.

## TIP Annual Schedule

January-April:

- The MPO is provided with projects from FDOT, local transportation agencies and municipalities for inclusion into the TIP.

May-June:

- The Broward MPO conducts public review and comment period for draft TIP.

July:

- The approval of the TIP by the Broward MPO Board.

*For complaints, questions or concerns about civil rights or nondiscrimination; or for special requests under the Americans with Disabilities Act, please contact Carl Ema, Title VI Coordinator at (954) 876-0052 or [emac@browardmpo.org](mailto:emac@browardmpo.org).*

# FACT SHEET

## Comprendiendo el Programa de Mejora del Transporte (TIP)

### ¿Qué es la Organización de Planificación Metropolitana de Broward (Broward MPO)?

La MPO de Broward es una agencia responsable de la planificación del transporte, la coordinación intergubernamental y la asignación de fondos de transporte en el condado de Broward. La MPO de Broward trabaja con el público, organizaciones de planificación, agencias gubernamentales, funcionarios electos y grupos comunitarios para identificar las necesidades de transporte y desarrollar planes de transporte, tales como el Programa de Mejora del Transporte (TIP) y el *Plan de Transporte a Largo Plazo* (LRTP).

### ¿Qué es el Programa de Mejora del Transporte?

El TIP es un programa que prioriza y documenta los fondos de los proyectos de mejora del transporte en la región que se espera construir en los próximos cinco años. Incluye proyectos de transporte, carretera, aeropuerto y el puerto marítimo, así como bicicletas, peatones, y proyectos relacionados al transporte de mercancías. El TIP es una herramienta para avanzar proyectos del Plan de Transporte a Largo Plazo (LRTP) a un programa de corto alcance de cinco años. Todos los proyectos del TIP son evaluados para asegurar la coherencia con las metas y objetivos del LRTP. El TIP actual y LRTP se pueden encontrar en la página web [BrowardMPO.org](http://BrowardMPO.org)

### ¿Cómo se desarrolla el TIP?

El TIP es preparado por la MPO de Broward, en cooperación con las agencias de transporte locales, tales como el Departamento de Transporte de Florida (FDOT), la Autoridad de Transporte Regional del Sur de Florida (SFRTA), el Consejo de Transporte del Sudeste de la Florida, las municipalidades dentro del Condado de Broward, y proveedores de transporte del Condado Broward como las agencias de Tránsito del Condado Broward (BCT), Departamento de Aviación y el Puerto Everglades. La MPO de Broward y sus socios de la planificación desarrollan el TIP anualmente. Al final del proceso, el TIP significa un acuerdo entre funcionarios locales, estatales y regionales en cuanto a que mejoras de transporte se deben realizar.

### ¿Cómo se financia el TIP?

Los proyectos del TIP son financiados a través de una mezcla de fondos locales, estatales y fondos federales de transporte. Los fondos federales son administrados a través de la Administración Federal de Carreteras (FHWA) y la Administración Federal de Tránsito (FTA). Otros fondos provienen del estado, condado y las municipalidades a través de impuestos a los combustibles.

## ¿Se puede modificar el TIP?

Sí, los cambios son realizados regularmente en el TIP a través de enmiendas. El TIP puede ser modificado para agregar, cambiar o eliminar proyectos. Dichas modificaciones tienen que ser revisadas y aprobadas por la MPO y el FDOT. La revisión también incluye oportunidades para comentarios del público. Los principales métodos para la participación pública son las reuniones mensuales de la Citizens' Advisory Committee (CAC), Technical Advisory Committee (TAC) y la MPO de Broward que se congregan en la oficina del MPO.

Visite <http://browardmpo.org/index.php/agendas-minutes> para la fecha y hora de las reuniones y agendas futuras.

## ¿Por qué es importante el TIP?

El TIP identifica, tanto para los residentes y los contribuyentes de Broward, como se están utilizando los dólares federales, estatales y locales en proyectos de transporte. El TIP es un vehículo para mover los proyectos sin fondos del LRTP a una lista de prioridades con fondos disponibles que incluye un calendario previsto y el costo de cada proyecto.

## ¿Cómo tú puedes participar en el desarrollo del TIP?

- Los principales métodos para la participación pública son las reuniones mensuales de la CAC, el TAC y la MPO de Broward. Visita <http://browardmpo.org/index.php/agendas-minutes> para la fecha y hora de las reuniones y agendas futuras.
- Visita la página web de Broward MPO a menudo [BrowardMPO.org](http://BrowardMPO.org) y haga clic en la sección "Transportation Improvement Program."
- Mande un correo electrónico con sus comentarios y preguntas a [restrepoc@browardmpo.org](mailto:restrepoc@browardmpo.org) o llame a 954-876-0061.
- Envíe por fax sus comentarios y preguntas a 954-876-0062.
- Antes de la aprobación del TIP, la MPO patrocina una audiencia pública, y un período de 30 días para comentarios públicos. Esto suele ocurrir en Mayo-Junio de cada año.

## Calendario Anual del TIP

Enero-Abril:

-La MPO cuenta con proyectos del FDOT, agencias de transporte locales y las municipalidades para su inclusión en el TIP.

Mayo-Junio:

-La MPO de Broward lleva a cabo el período de revisión y comentarios públicos para el TIP preliminar.

Julio:

-El TIP es aprobado por el Consejo del Broward MPO.

*Para quejas, preguntas, problemas de derechos civiles, no discriminación o solicitudes especiales conforme a la Ley de Estadounidenses con Discapacidades, comuníquese con Carl Ema, coordinadora del Título VI al (954) 876-0052 o [emac@browardmpo.org](mailto:emac@browardmpo.org)*

**7.4 APPENDIX D NOTICE OF PUBLIC MEETINGS AND COMMENT PERIOD**

## YOUR TAX DOLLARS AT WORK

### Fiscal Year (FY) 2025-2029 Transportation Improvement Program (TIP)

NOTICE is hereby given that the Broward Metropolitan Planning Organization (Broward MPO) will hold public meetings and consider approval of the Fiscal Year (FY) 2025-2029 Transportation Improvement Program (TIP). The TIP is a federally mandated document that lists transportation projects and programs to be funded by Federal, State and local governments and transportation agencies over a five-year period in the Broward area.

Public meetings prior to the Broward MPO Board's consideration of the TIP will be held during the following regularly scheduled meetings, providing the public with three opportunities to make comments:

- **Technical Advisory Committee on Wednesday, June 26, 2024, at 2:30 p.m.**
- **Citizens' Advisory Committee on Wednesday, June 26, 2024, at 6:00 p.m.**
- **Broward MPO Board on Thursday, July 11, 2024, at 9:30 a.m. (Final Action Taken)**

All of the meetings listed above will be conducted as hybrid (partially virtual) meetings. It is a requirement for Board and Committee Members to physically attend these hybrid meetings so as to achieve a quorum. Public can physically or virtually attend these meetings at their preference. All meetings will be held in the Broward MPO Board Room, located in the Trade Centre South Building, 100 West Cypress Creek Road, 6th Floor, Suite 650, Fort Lauderdale, FL 33309. For the most up-to-date meeting information and to register to access these meetings virtually, visit: <http://browardmpo.org/index.php/agendas-minutes> or <http://browardmpo.org/calendar>.

To make a public comment, please submit to [info@browardmpo.org](mailto:info@browardmpo.org) at least 24 hours prior to the start of the meeting.

This notice is also intended to satisfy the Transit Program-of-Projects requirements of the Urbanized Area Formula Program of the Federal Transit Administration.

The public is invited to review and comment on the proposed TIP. The TIP will be available for viewing at least 30 days prior to the July 11, 2024 Broward MPO Board meeting. The proposed TIP can be viewed at the Broward MPO's office ( address is same as meeting location) and on the Broward MPO website located at: [www.BrowardMPO.org](http://www.BrowardMPO.org) under the "**What We Do**" tab , select "**Core Products**", and select **Transportation Improvement Program** or directly at <http://www.browardmpo.org/index.php/core-products/transportation-improvement-program-tip>.

For further information regarding the TIP or to request a copy, contact Jihong Chen at (954) 876-0066 or [chenj@browardmpo.org](mailto:chenj@browardmpo.org). Please submit comments via e-mail to [chenj@browardmpo.org](mailto:chenj@browardmpo.org) or by mail to the Broward MPO office at 100 West Cypress Creek Road, 6th Floor, Suite 650, Fort Lauderdale, FL, 33309, or by fax at (954) 876-0062. The comment period closes on July 11, 2024 upon final action taken by the Broward MPO Board.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons who require special accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should contact Carl Ema, Title VI Coordinator at (954) 876-0052 or [emac@browardmpo.org](mailto:emac@browardmpo.org), or via Florida Relay Service 711 at least seven days prior to the meeting. For complaints, questions or concerns about civil rights or non-discrimination please contact: Carl Ema, Title VI Coordinator at the numbers or e-mail above.

## SUS DÓLARES DE IMPUESTOS TRABAJANDO POR USTED

### Programa de Mejoras en el Transporte (TIP, Transportation Improvement Program) para el Periodo Fiscal (FY) 2025-2029

Por la presente, se notifica que la Organización de Planificación Metropolitana de Broward (Broward MPO) llevará a cabo reuniones públicas y considerará la aprobación del Programa de Mejoras del Transporte (TIP, Transportation Improvement Program) para el Periodo Fiscal (FY) 2025-2029. El TIP es un documento de mandato federal que enumera los proyectos y programas de transporte que serán financiados por los gobiernos federal, estatal y local y las agencias de transporte durante un período de cinco años en el área de Broward.

Las reuniones públicas previas a la consideración del TIP por parte de la Junta de la MPO de Broward se llevarán a cabo durante las siguientes reuniones programadas regularmente, y se le proporcionará al público tres oportunidades para hacer comentarios:

- **Comité Asesor Técnico el miércoles 26 de junio de 2024, a las 2:30 p.m.**
- **Comité Asesor de Ciudadanos el miércoles 26 de junio de 2024, a las 6:00 p.m.**
- **Junta del MPO de Broward el jueves 11 de julio de 2024, a las 9:30 a.m. (Se tomará la Acción final)**

Todas las reuniones mencionadas anteriormente se llevarán a cabo como reuniones híbridas (parcialmente virtuales). Es un requisito que los miembros de la Junta y de los Comités asistan físicamente a estas reuniones híbridas para obtener el quórum. El público puede asistir física o virtualmente a estas reuniones, según su preferencia. Todas las reuniones se llevarán a cabo en la Sala de la Junta de la MPO de Broward, ubicada en el edificio Trade Centre South, 100 West Cypress Creek Road, 6º piso, Suite 650, Fort Lauderdale, FL 33309. Para obtener la información más actualizada sobre las reuniones y registrarse para acceder a ellas de forma virtual, visite: <http://browardmpo.org/index.php/agendas-minutes> o <http://browardmpo.org/calendar>.

Para hacer un comentario público, envíelo a [info@browardmpo.org](mailto:info@browardmpo.org) al menos 24 horas antes del comienzo de la reunión.

Este aviso también pretende satisfacer los requisitos del Programa de Proyectos de Tránsito del Programa de Fórmula del Área Urbanizada de la Administración Federal de Tránsito.

Se invita al público a revisar y proporcionar su comentario sobre el TIP propuesto. El TIP estará disponible para su revisión por lo menos 30 días antes de la reunión de la Junta Directiva de la Broward MPO del 11 de julio de 2024. El TIP propuesto puede consultarse en el sitio web de la MPO de Broward en: [www.BrowardMPO.org](http://www.BrowardMPO.org) en la pestaña

**"What We Do" - "Core Products" - "Transportation Improvement Program"** o directamente en <http://www.browardmpo.org/index.php/core-products/transportation-improvement-program-tip>.

Para más información sobre el TIP o para solicitar una copia, póngase en contacto con James Cromar al (954) 876-0038 o envíe un correo electrónico a [cromarj@browardmpo.org](mailto:cromarj@browardmpo.org). Envíe sus comentarios por correo electrónico a [cromarj@browardmpo.org](mailto:cromarj@browardmpo.org) o por correo a la oficina de la MPO de Broward en 100 West Cypress Creek Road, 6th Floor, Suite 650, Fort Lauderdale, FL, 33309, o por fax al (954) 876-0062. El período de comentarios se cierra el 11 de julio de 2024 una vez que la Junta Directiva de la Broward MPO haya tomado

una decisión final.

Se solicita la participación del público indistintamente de la raza, el color, el origen nacional, la edad, el sexo, la religión, la discapacidad o la situación familiar. Las personas que requieran adaptaciones especiales en virtud de la Ley de Estadounidenses con Discapacidades o las personas que requieran servicios de traducción (gratuitos) deben ponerse en contacto con Carl Ema, Coordinador del Título VI en el (954) 876-0052 o enviar un correo electrónico a [emac@browardmpo.org](mailto:emac@browardmpo.org) o a través del Servicio de Retransmisión de Florida 711 al menos siete días antes de la reunión. Para quejas, preguntas o inquietudes sobre los derechos civiles o la no discriminación, póngase en contacto con Carl Ema, Coordinador del Título VI en los números o en el correo electrónico arriba indicado.

For More Information:

Please contact Jihong Chen at (954) 876-0066 or [chenj@browardmpo.org](mailto:chenj@browardmpo.org) to learn more about the Broward MPO and what they are working on in your community.

**Our Mission**

To collaboratively plan, prioritize and fund the delivery of diverse transportation options.

**Our Vision**

Our work will have measurable positive impact by ensuring transportation projects are well selected, funded and delivered.
