

Action Item 3.

Broward Metropolitan Planning Organization

Meeting Date: 07/14/2016

Strategic Direction: Multimodal Improvements

Direction:

Goal: Establish Vision for Multimodal Systems

REQUESTED ACTION:

MOTION TO APPROVE an Amendment to the Fiscal Year (FY) 2015/16 - 2019/20 Transportation Improvement Program (TIP) - City of Tamarac Bikeway Project - Phases 5 & 6

WHY THIS ACTION IS NECESSARY:

This action is necessary pursuant to the provisions in 23 Code of Federal Regulations (CFR) 324 and 326 regarding amendments to the Transportation Improvement Program. Further, this action will allow the organizations responsible for the project to receive and expend the needed funds. Due to a compressed work schedule, the amendment is needed to begin the project prior to October 1 (when the new 2016/17 TIP is federally recognized and becomes active).

SUMMARY EXPLANATION/BACKGROUND:

The Florida Department of Transportation (FDOT) is requesting an amendment to the adopted 2015/16 TIP. The amendment adds in FY 2015/16 a new project of multimodal pathways east of University Drive/SR 817 in the City of Tamarac. This is the latest project in a series of projects that together make up the Tamarac Bikeway/Walkway System. For a complete description of the project phases, please see the Attachment. The total cost of the project is \$410,000, which is new funding through an appropriation awarded to the City of Tamarac.

No other projects in the TIP will be affected by the above amendment.

COMMITTEE RECOMMENDATION(S):

The Technical Advisory Committee (TAC) and Citizens' Advisory Committee (CAC) recommend approval of this TIP amendment.

MPO STAFF RECOMMENDATION(S):

MPO staff recommends **approval** of this TIP amendment. Questions and comments will be addressed at the meeting.

ADDITIONAL INFORMATION/PREPARER:

If you have any questions on this TIP amendment, please contact Roxana Ene at (954) 876-0042 or ener@browardmpo.org.

Date: 5/25/2016

Project Name: CITY OF TAMARAC BIKEWAY PROJECT - PHASES 5 & 6

Financial Management Number:

439420-1-31-01 P.E. In House Phase

439420-1-58-01 Construction Phase

439420-1-61-01 CEI In House Phase

Project Description:

Per the City of Tamarac, this project is the latest in a series of phases that make up the Tamarac Bikeway/Walkway System – a multi-modal project planned to be a conduit pulling existing portions of the City and County Greenway Systems together with area facilities, schools, residential and adult communities, shopping areas, and transit facilities. The location of the project route will directly benefit the community relative to employment. The route provides direct access to over 30 offices and businesses, including a hospital, school, and senior center. It provides access to the University Drive Overpass, a senior center and three school facilities.

The Scope of Services for the Phase 5 project is a half mile, multi-modal pathway located on NW 76th Street. The route travels east on NW 76th Street from University Drive (SR 817) and ends at NW 70th Avenue. This intersection connects with the City' Bikeway Phase 2 that was funded under the Transportation Enhancement Program.

The scope of the Phase 6 project is a half mile, multi-modal pathway located toward the eastern portion of the City. Starting at SR 870 (Commercial Blvd), the route travels north on SW 81st Avenue up to SW 23rd Street. As this route overlaps N. Lauderdale, the project will benefit residents of both cities in Broward County.

Therefore, both project phases will meet demands of our residents. The 2013 Tamarac Biennial Resident Survey results show the availability of walking and biking trails should receive the most emphasis over the next two years for parks and recreation.

A total of \$5,000.00 (Phase 31) SA funds are programmed for this project in FY2017.

A total of \$400,000.00 (phase 58) SA funds are programmed for this project in FY 2017.

A total of \$5,000.00 (Phase 61) SA funds are programmed for this project in FY2017.

Impact of Amendment:

None

Impact on Other TIP Projects:

None

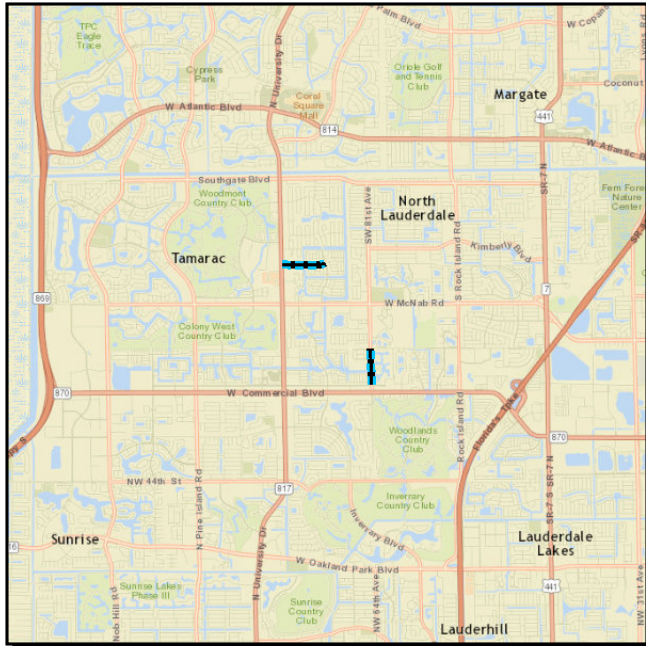

Other Comments:

This project was created in April of 2016 and is not listed in the current TIP. This is an appropriation that was approved for the City of Tamarac for FY 2017. This is newly funded project that we are requesting the MPO to add to the current TIP. The Department have instructed the City of Tamarac not to do the work on University Drive because the FDOT University Corridor project will be incorporate the improvements needed on University Drive.
