

## COAT Parking Lot

### Meeting 1- Thursday, November 19<sup>th</sup>

#### 1. Concerns about having to operate under the Sunshine Law

The best Sunshine Law resource is the Attorney General's Government in the Sunshine Law Manual, which is updated every year and includes within it references to all of the laws and Attorney Generals' opinions that form the basis of Government in the Sunshine. Here is a link to the manual: [http://myfloridalegal.com/webfiles.nsf/WF/RMAS-9UPM53/\\$file/2015SunshineLawManual.pdf](http://myfloridalegal.com/webfiles.nsf/WF/RMAS-9UPM53/$file/2015SunshineLawManual.pdf). Specific information can be found on pdf page 4.

In addition, the Attorney General's Open Government website is a useful resource: <http://www.myfloridalegal.com/pages.nsf/Main/314BA231F89C0C8A8525791B006A54E2>.

#### 2. Guidelines for Decibel Limits

- a) What are the decibel thresholds?
- b) What are the mitigation options, and how are they determined?
- c) What levels of noise are other Broward residents in similar neighborhoods experiencing?

FDOT has published a [noise brochure](#) that answers many of these questions.

[This brochure](#) describes noise barriers

A project currently underway with noise considerations for communities is the I-75 Express project. It has published guidelines as well: <http://www.75-express.com/docs/default-source/75-corridor-wide/sound-brochure-11-25-14.pdf?sfvrsn=4>

### **3. Visualization Tools**

**Can future traffic be shown in a visualization model that depicts congestion by time of day.**

As stated in the Meeting 1 summary, this is something that could to be requested from FDOT.

### **4. Status of Completion of Widening of Powerline Road**

According to the latest FDOT Work Program and MPO Transportation Improvement Plan, there are currently no projects planned or needs identified for the widening of Powerline Road. Nor is it in the 2040 Cost Feasible Long Range Plan

### **5. Baseline Air Quality Information**

According to the Environmental Protection Agency, Broward County is currently in attainment (this means it meets the federally required air quality standards)

[http://www3.epa.gov/airquality/greenbk/anayo\\_fl.html](http://www3.epa.gov/airquality/greenbk/anayo_fl.html)

National Air Quality information can be found at <http://airnow.gov/>

State Air Quality information can be found at

[http://www.dep.state.fl.us/air/air\\_quality/airdata.htm](http://www.dep.state.fl.us/air/air_quality/airdata.htm)

Broward County Air quality information can be found at

<http://www.broward.org/pollutionprevention/airquality/Pages/Default.aspx>

### **6. Safety and Crash Data**

According to the latest FDOT Highway Crash List for FDOT District 4, SW 10th Street is currently not a high crash location. For additional information, see:

<http://www2.dot.state.fl.us/TrafficSafetyWebPortal/FivePercent/LocationList.aspx>

If still desired, existing crash data can be compiled and presented at a later date.

### **7. SW 10<sup>th</sup> Street Related to Strategic Intermodal System (SIS) and Other Studies**

SW 10<sup>th</sup> Street is a SIS Corridor. A map of all SIS facilities is available here:

<http://www.dot.state.fl.us/planning/systems/programs/mspi/pdf/Complete%20Book.pdf>

The FDOT 5-year SIS Plan is a detailed list of projects. The projects for FDOT District 4, which includes Broward County are on page 20 of the pdf document. There are currently no projects identified for SW 10th Street in the SIS Plan. A link to the document:

[http://www.dot.state.fl.us/planning/systems/programs/mspi/pdf/Adopted\\_First\\_Five.pdf](http://www.dot.state.fl.us/planning/systems/programs/mspi/pdf/Adopted_First_Five.pdf)

The Statewide SIS Plan overview can be found here:

<http://www.dot.state.fl.us/planning/sis/strategicplan/2010sisplan.pdf>
