

SW 10TH STREET DRAFT VISION

SW 10th Street provides access to major highways as well as to people's homes and businesses. While there is not yet a design identified for SW 10th Street, it is important to outline a Vision for the corridor based on what is important to the Community.

Through collaboration and evaluation of the community needs and concerns, we have heard that improvements along SW 10th Street should:

- Minimize visual obstructions
- Enhance Community Connectivity
- Minimize traffic noise
- Minimize noise and impacts during construction
- Promote economic development and access to businesses
- Preserve local access
- Provide community greenspace
- Minimize negative impacts to the environment
- Reduce demand for travel along SW 10th Street by encouraging tolling, carpooling and transit

PLUS
Air quality and
Water quality impacts
during Construction
+ Operation
ST.#4

ST.#4
minimize impacts
during construction
is a big PLUS!
